Here/There Kris Paulsen, 2017-02-24 An examination of telepresence technologies through the lens of contemporary artistic experiments from early video art through current drone vision works Telepresence allows us to feel present through vision hearing and even touch at a remote location by means of real time communication technology Networked devices such as video cameras and telerobots extend our corporeal agency into distant spaces In Here There Kris Paulsen examines telepresence technologies through the lens of contemporary artistic experiments from early video art through current drone vision works Paulsen traces an arc of increasing interactivity as video screens became spaces for communication and physical tactile intervention She explores the work of artists who took up these technological tools and questioned the aesthetic social and ethical stakes of media that allow us to manipulate and affect far off environments and other people to touch metaphorically and literally those who cannot touch us back Paulsen examines 1970s video artworks by Vito Acconci and Joan Jonas live satellite performance projects by Kit Galloway and Sherrie Rabinowitz and CCTV installations by Chris Burden These early works she argues can help us make sense of the expansion of our senses by technologies that privilege real time over real space and model strategies for engagement and interaction with mediated others They establish a political aesthetic and technological history for later works using cable TV infrastructures and the World Wide Web including telerobotic works by Ken Goldberg and Wafaa Bilal and artworks about military drones by Trevor Paglen Omar Fast Hito Steyerl and others These works become a meeting place for here and there **Process and Analysis** George W.

Shields, 2003-01-01 Leading thinkers from both traditions explore common philosophical topics The Essential Works of U. G. Krishnamurti U. G. Krishnamurti, 2023-11-13 In The Essential Works of U G Krishnamurti the author presents a profound exploration of self inquiry and existential inquiry that delves deeply into the nature of thought perception and human existence Written in a conversational and aphoristic style this collection distills key concepts from Krishnamurti s teachings encouraging readers to question established norms and the conditioning of mind By eschewing traditional philosophical frameworks Krishnamurti invites one to navigate the intricacies of liberation from societal and psychological constraints resonating deeply within the context of modern existential thought and Eastern spiritual traditions U G Krishnamurti often referred to simply as U G was an enigmatic figure whose personal journey from orthodox Brahmin to a radical spiritual teacher shaped his unique perspective on life His rejection of conventional spirituality and dogma stemmed from a transformative experience he termed calamity which radically altered his understanding of selfhood and enlightenment This backdrop coupled with a rich intellectual engagement with contemporaries positioned him to challenge and provoke readers to reconsider their beliefs For readers seeking clarity on the intricate relationship between perception and reality The Essential Works of U G Krishnamurti is an indispensable guide It offers not only insights into the nature of suffering and the illusion of individuality but also ignites a transformative dialogue within the self Krishnamurti s work is a must read for

anyone interested in philosophical inquiry and the pursuit of genuine freedom **The London Quarterly Review** ,1863

Logic Bernard Bosanquet,1888 **An Inquiry Into Meaning and Truth** Bertrand Russell,1995 Bertrand Russell is concerned in this book with the foundations of knowledge He approaches his subject through a discussion of language the relationships of truth to experience and an investigation into how knowledge of the structure of language helps our understanding of the structure of the world This edition includes a new introduction by Thomas Baldwin Clare College Cambridge **The Collected Works** U. G. Krishnamurti,2023-11-22 In The Collected Works U G Krishnamurti presents a

profound exploration of consciousness and self identity weaving together reflections that challenge conventional spiritual paradigms His unconventional literary style marked by a conversational yet incisive tone compels readers to confront their preconceived notions of enlightenment and personal awakening The collection encapsulates a wide array of thought provoking essays dialogues and teachings all of which reflect Krishnamurti s unique stance against traditional philosophical systems and his emphasis on direct experience over dogmatic belief Krishnamurti often seen as a maverick in spiritual circles was deeply influenced by his own transformative experiences and a divergence from societal norms His disavowal of the guru disciple framework illustrates his belief that true liberation comes from within Having traveled extensively and engaged with diverse thinkers his insights emerge from a life lived authentically marked by an insistence on the importance of inquiry and observation For readers seeking to deepen their understanding of consciousness and to question the very foundations of their beliefs The Collected Works stands as an essential text It serves not only as a provocative journey into the nature of existence but also as an invitation to engage with the profound questions that lie at the heart of human experience *World War II*

Historical Reenactment in Poland Kamila Baraniecka-Olszewska,2021-10-21 This book explores the consequences of the latest political shifts in Central Eastern Europe the rise of right wing parties and among other things politics becoming more invested in history These phenomena coincide and overlap with the democratisation of history by turning the past into a hot topic persistently present in the public sphere and often evoking strong emotions Ethnographic research conducted in 2012 2016 focusing on how World War II reenactors experience the past serves as the basis to analyse the ways in which the group uses the widespread often institutionalised interest in history to on the one hand become involved in debates on World War II and the remembrance thereof and on the other to authentically experience this past The volume therefore analyses how physical the process of creating and experiencing grassroots visions of the past is and how these visions interact with the public discourse about the past Reenactors ability to marry the often contradictory orders of historical truth authenticity and representation is explored Moreover Baraniecka Olszewska analyses how the reenactors overcome various obstacles on their way towards authentic experiences performing history through their bodies The Basic Ways of Knowing Govardhan P. Bhatt,1989 The book gives a penetrating and full length study of epistemology in the school of Bhatta Mimamsa The work is based on an intensive and critical study of the Sanskrit texts which have not been utilized by any other Oriental scholar so far

It is very much different from other books on the subject because it not only discusses historically the epistemology of the Bhatta School but also discusses many really philosophical problems connected with epistemology in general and Indian epistemology in particular. One of the most valuable features of the work is the comparative references which it makes to standard epistemologists of Western philosophy. The book reaches the highest watermark in its line. It compares and contrasts the Bhatta position on various issues with not only other Indian schools but also with some of the European philosophers like Russell, Moore, Reid, Hume, Mill, and Kant. In a sense it is an exercise in comparative philosophy. This is inevitable as otherwise the position of the Bhatta School cannot be clarified and brought out in depth.

Proceedings and Transactions of the Queensland Branch of the Geographical Society of Australasia, 1900 The Science of Mind
John Bascom, 1881 **The Poetry of Raymond Carver** Dr Sandra Lee Kleppe, 2014-04-28

Best known as one of the great short story writers of the twentieth century, Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer. Sandra Lee Kleppe focuses particularly on the complex literary and scientific systems that influenced Carver's development as a writer as she makes a case for the quality of Carver's poetic output and the centrality of poetry to Carver's career.

Post-Traumatic Art in the City Isabelle de le Court, 2020-11-26
Post-Traumatic Art in the City comprises an original analysis of the nexus of war, art, and urban society in two specific contexts: late 20th century Beirut and Sarajevo. With an emphasis on conceptions of the post-traumatic, De le Court explores how cities and art are mutually formative in war and post-war contexts, providing unique insight into the politically and psychologically driven art scenes from within the works of art themselves. Grounded in close analyses and new research, the book makes an important contribution to the fields of art history and trauma studies.

A Million Little Miracles Mark Batterson, 2024-11-19
The New York Times bestselling author of *Win the Day* reminds us of the millions of miracles God performs every day and inspires us to live with a clearer sense of identity and purpose. Think you've never experienced a miracle? With all due respect, you have never not. In fact, you are one. There never has been and there never will be anyone else like you. That isn't a testament to you; it's a testament to the God who created you. Your fingerprint, eyeprint, and voiceprint are unlike anyone else's. Simply put, you matter to God. Most of us take everyday miracles for granted, including the one that stares back at us in the mirror. It's time to take them for gratitude. Why is that so important? Because whatever you don't turn into, praise turns into pride. The miracle of life becomes mundane. We get so wrapped up in our own little world, we end up worshipping a god who looks like us, acts like us, and thinks like us. It's no wonder we've lost our wonder. But there is a way to recapture holy curiosity. In *A Million Little Miracles*, New York Times bestselling author Mark Batterson reveals three miraculous truths that awaken us to the Creator and His creation: 1. God Is Bigger Than We Think we can rest in His wisdom and strength. 2. God Is Closer Than We Realize we never have to do life alone. 3. God Is Better Than We Imagine we can reclaim our childlike wonder. A million little miracles are waiting to be discovered, including the miracle called you.
