Rays of the Rising Sun John Berger, Philip Jowett, 2024-02-28 When the Japanese Empire went to war with the Allies in December 1941 it had already been fighting in China for 10 years During that time it had conquered huge areas of China and subjugated millions of people

The Japanese needed to control the Chinese population in these occupied territories and for this reason they set up governments from amongst the leaders of the Chinese who were willing to co operate with them These so called puppet governments were designed to rule on behalf of the Japanese while firmly under their overall control In turn the puppet governments needed their own independent armed forces These puppet armies were large in number reaching a total of well over 1 million before 1945 Although poorly armed and equipped these forces had an influence on the Japanese war effort through sheer numbers The Chinese puppet soldiers ranged from the well drilled and trained regular Army of the Last Emperor of China Pu Yi who ruled the newly formed state of Manchukuo 1932 45 to the irregular Mongol cavalry who served alongside Japanese troops in the secret war waged in the Mongolian hinterlands The troops were dismissed as traitors by the Chinese fighting the Japanese and they were equally despised by the Japanese themselves The troops were motivated by a range of reasons from simple survival to a loyalty to their commander The fact that so many Chinese were willing to fight for the Japanese was embarrassing to all sides and for this reason has been largely ignored in previous histories of the war in the East In the first of a three volume series Philip Jowett tells the story of the Chinese who fought for the Japanese over a 14 year period *Backpacking California* Wilderness Press,2020-10-27 Get Ready for a Lifetime of Awe Inspiring Adventures In California backpackers can explore wild beaches enjoy colorful canyonlands hike amid stunning granite peaks relax in wildflower meadows and circle glacier clad mountains Discover 71 of California s best and most diverse backpacking trips with the expert backpackers and experienced authors of Wilderness Press Backpacking California details the premier opportunities across the entire state This fully updated edition describes scenic escapes ranging from one night to two weeks or 3 to 68 miles Choose from carefully crafted trips in Anza Borrego Desert State Park Big Sur Desolation Wilderness Mount Shasta Point Reyes National Seashore the San Bernardino and San Gabriel mountains Trinity Alps Yosemite National Park and more Each carefully crafted itinerary offers geographic diversity beautiful landscapes and attainable daily mileage goals This in depth guide provides all the information backpackers need including trail highlights mileage elevation gain days on the trail shuttle distances required permits and more not to mention full color photographs and detailed trail maps Plus ratings for scenery solitude and difficulty help you to find the exact adventure you seek Whether you re a novice backpacker or a veteran hiker with this many options you may have trouble deciding where to go first Puppets and Poets Edward Gordon Craig,1921 **The Routledge Companion to Puppetry and Material Performance** Dassia N.
