The Confessions** Saint Augustine (of Hippo), 1990 **Love and Saint Augustine** Hannah Arendt, 2014-12-10 The brilliant

thinker who taught us about the banality of evil explores another brilliant thinker and his concept of love Hannah Arendt the author of *The Origins of Totalitarianism* and *The Human Condition* began her scholarly career with an exploration of Saint Augustine's concept of *caritas* or neighborly love written under the direction of Karl Jaspers and the influence of Martin Heidegger After her German academic life came to a halt in 1933 Arendt carried her dissertation into exile in France and years later took the same battered and stained copy to New York During the late 1950s and early 1960s as she was completing or reworking her most influential studies of political life Arendt was simultaneously annotating and revising her dissertation on Augustine amplifying its argument with terms and concepts she was using in her political works of the same period The dissertation became a bridge over which Arendt traveled back and forth between 1929 Heidelberg and 1960s New York carrying with her Augustine's question about the possibility of social life in an age of rapid political and moral change In *Love and Saint Augustine* political science professor Joanna Vecchiarelli Scott and philosophy professor Judith Chelius Stark make this important early work accessible for the first time Here is a completely corrected and revised English

translation that incorporates Arendt's own substantial revisions and provides additional notes based on letters, contracts, and other documents as well as the recollections of Arendt's friends and colleagues during her later years. Both the dissertation and the accompanying essay are accessible to informed lay readers. Scott and Stark's conclusions about the cohesive evolution of Arendt's thought are compelling but leave room for continuing discussion. *Library Journal* A revelation. *Kirkus Reviews*

Liturgy and the Beauty of the Unknown Dr David Torevell, 2013-04-28

Contemporary culture is rediscovering the importance of beauty for both social transformation and personal happiness. Theologians have sought in their varied ways to demonstrate how God's beauty is associated with notions of truth and goodness. This book breaks new ground by suggesting that liturgy is the means par excellence by which an experience of beauty is communicated. Drawing from both secular and religious understandings, in particular the mystical and apophatic tradition, the book demonstrates how liturgy has the potential to achieve the one ultimately reliable form of beauty because its embodied components are able to reflect the disturbing beauty of the One to whom worship is always offered. Such components rely on understanding the aesthetic dynamics upon which liturgy relies. This book draws from a broad range of disciplines concerned with understanding beauty and self-transformation and concludes that while secular utopian forms have much to contribute to ethical transformation, they ultimately fail since they lack the Christological and eschatological framework needed which liturgy alone provides.
