Planting Churches Cross-culturally David J. Hesselgrave, 2000 Planting churches cross-culturally : a guide for Home and Foreign Missions David J. Hesselgrave, 1980 **Planting Missional Churches** Ed Stetzer, Daniel Im, 2016-05-01 In this second edition of *Planting Missional Churches* not only will you find a completely redesigned book with new content in every single chapter but you will also find several new chapters on topics such as church multiplication residencies multi ethnic ministry multisite denominations and networks and spiritual leadership Cross-Cultural Missional Partnership Joshua Bowman, 2023-03-28 Cross cultural partnerships in today s global environment are both challenging and necessary Misunderstanding and miscommunication often lead to conflict between culturally diverse groups Christians must understand and evaluate their own culture the culture of others and the text of Scripture itself while remaining faithful to Scripture and relevant to culture Unmediated tensions combined with relational isolation lead to a myriad of problems This study proposes cross cultural missional partnership as a relationship that mediates these tensions thereby encouraging mutual faithful engagement in the mission of God Cross cultural tensions may never disappear but within a healthy partnership partners can assist one another in understanding and responding faithfully to Scripture Partners help one another more faithfully interpret and apply Scripture leading to obedience to God s will and engagement in God s mission within unique and diverse contexts *Planting Churches in Muslim Cities* Gregory Livingstone, 1993-02-01 A biblically and culturally appropriate blueprint for church planting in Muslim cities anywhere in the world The experiences of one hundred missionaries provide a guide to evangelizing and discipling Communicating Christ Cross-culturally David J. Hesselgrave, 1991 As an unparalleled introduction to missionary communication this thoroughly indexed book examines world views cognitive processes linguistic forms behavioral patterns social structures communication media and motivational sources Discovering Church Planting J. D. Payne, 2009-08-04 J D Payne explores the biblical historical and missiological principles of global church planting and suggests ways that readers can apply international church planting practices to their own contexts *Counseling Cross-Culturally* David J. Hesselgrave, 2002-01-08 Christians are being called upon increasingly to care counsel and cure across cultural boundaries writes the author Of course foreign missionaries counsel people from other cultures but so do many pastors particularly those in urban settings Because Christian counseling theory presupposes that counselor and counselee share the same culture the insights of this discipline must be brought together meaningfully with the cross cultural perspectives of missiology *Counseling Cross Culturally* pioneers this new field After surveying approaches to counseling in the West and those in the non Western world the author develops a theory of Christian cross cultural counseling The final part consistent with the author s broad view of counseling discusses counseling concerned with the well being of people Christian conversion spiritual growth and development of a Christian life style and Christian service Numerous case studies drawn from a variety of cultures provide realistic examples of the questions that counselors will

encounter A psychologist who trains Christian workers for cross cultural service describes this book as a helpful thoughtful study of complex issues surrounding counseling It is extremely valuable to expose any missionary candidate to this type of book It broadens awareness to cross cultural issues and touches on common problems of missionary counselors Counseling Cross Culturally is an admirable attempt to integrate a conservative evangelical theology with the complexities of culture and life

Models of Contextual Theology Stephen B. Bevans, 2002 Stephen B Bevans s *Models of Contextual Theology* has become a staple in courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition s understanding of itself in relation to culture First published in 1992 and now in its seventh printing in English with translations underway into Spanish Korean and Indonesian Bevans s book is a judicious examination of what the terms contextual theology and to contextualize mean In the revised and expanded edition Bevans adds a counter cultural model to the five presented in the first edition the translation the anthropological the praxis the synthetic and the transcendental model This means that readers will be introduced to the way in which figures such as Stanley Hauerwas John Milbank Lesslie Newbigin and occasionally Pope John Paul II need to be taken into account The author s revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models **Transforming the Church in Africa:** Vernon E. Light, 2012-11-26 This book is a must read for serious Christians hoping to obey the Great Commission to make disciples in Africa Vernon strikes an admirable balance between academic depth and practical application helping us to appreciate the interface between the gospel of Jesus Christ and the traditional African worldview I heartily recommend this book to all thinking Christian leaders in Africa pastors teachers and missionaries Kevin G Smith DLitt PhD Vernon Light wrote this book with an apostolic passion in the way the apostles presented and proclaimed the Gospel to world religions and cultures It is an exciting study of African traditional

religion and its relation to Christianity It shows that for Christianity to thrive and be relevant biblically and transformationally in Africa firstly Christian scholars and theologians are needed who understand and address Africa's traditional heritage and Western modern postmodern and pluralistic ideologies and secondly the Gospel must be contextually relevantly meaningfully and practically taught through an effective discipleship program The book based on extensive research and massive use of resources is a valuable tool for students pastors scholars and theologians interested in the state of Christianity and religious change in Africa Professor Yusufu Turaki PhD Much more than being a useful resource this is a book with a mission Like Jeremiah of old Jer 20 9 Vernon is a man with a passion and message from God to the society to which God has called him Like Jeremiah Vernon is totally convinced of the absolute truth of his message in the midst of a myriad of conflicting opinions and that his message will change society from disaster to hope Would that it is heard Professor David T Williams DTh The Rev Vernon E Light BSc BDHons MTh is a member of the academic staff at the South African Theological Seminary

The Ongoing Role of Apostles in Missions Don Dent, 2019-02-15 Numerous trends are presently converging in ways that make this moment in mission history significant These include the growth of short term service the multiplication of mission organizations local churches sending missionaries without an agency and the internationalization of missions It is crucial in the midst of such change that we not lose connection with the New Testament model of the missionary apostles Apostles now commonly called missionaries are God's gift for the initial planting phase of the church among every people to the end of the age This unique church planting role is the forgotten foundation of the church Much of the ineffectiveness in missions is due to our attempts to build Christ's church on a different foundation This book will examine five critical questions from the perspective of biblical scholarship history and contemporary experience Why are missions minded Evangelicals reluctant to identify missionaries as apostles considering that the two words have the same root meaning How is apostolos used in the New Testament and specifically is it sometimes used as a designation for missionaries How should we conceptualize an ongoing role for missionary apostles that does not detract from the crucial unique role of the original Apostles What ministry pattern does the New Testament record from the lives of the early missionary apostles How should an awareness of missionary apostles guide our mission efforts today

Church Planting in Europe Evert Van de Poll, Joanne Appleton, 2015-05-28 Church leaders and those who endeavor

to plant new churches in Europe today face tremendous challenges not least because the church itself is considered by many to be outdated irrelevant or even an abusive sect Drawing on a wealth of experience Church Planting in Europe helps to answer the question of how churches can become more relevant to the societies in which they exist From biblical and missiological reflections to case studies and practical examples the book gives insights into many of the key issues that church planters and those concerned with missionary renewal of existing churches are grappling with Special attention is paid to the sociocultural and religious characteristics of Europe which is marked by secularization new forms of spirituality and a unique Christian heritage asking what are typical barriers and bridges for the communication of the gospel The contributors represent a wide variety of backgrounds and contexts across Europe and this is reflected in the breadth of topics covered The chapters were presented during the Mission in Europe Symposium in Belgium July 2014 and the highlights of the discussions afterwards are also included The result is a valuable resource for church leaders mission practitioners and theologians alike
