Real Women, Real Sex Brian Frank, 2005-10-01 This lay book based on the things I learned from the women I knew is about what women are like sexually Not like they are in porn or Hollywood movies but the way they are sexually in real life Its about passionate women frigid women those in between and the noticeable ways they compare to each other Its also about the clear differences between a womans real orgasm and a faked one the sex acts easily orgasmic women enjoy with men and why they enjoy them why certain heterosexual womens preferences are odd childhood influences perceptions and experiences that may be what mold womens views on sex and men how and why men fail women in bed and briefly the remarks bisexual women made to me about their men But more importantly its about the probable reasons why at least 75% of all women are unable to have vaginal orgasms

Representing Rape Susan Ehrlich, 2003-08-27 *Representing Rape* is the first feminist analysis of the language of sexual assault trials from the perspective of linguists Susan Ehrlich argues that language is central to all legal settings specifically sexual harassment and acquaintance rape hearings where linguistic descriptions of the events are often the only type of evidence available Language does not simply reflect but helps to construct the character of the people and events under investigation The book is based around a case study of the trial of a male student accused of two instances of sexual assault in two different settings a university tribunal and a criminal trial This case is situated within international studies on rape trials and is relevant to the legal systems of the US Canada Britain Australia and New Zealand She shows how culturally dominant notions about rape percolate through the talk of sexual assault cases in a variety of settings and ultimately shape their outcome Ehrlich hopes that to understand rape trials in this way is to recognize their capacity for change By highlighting the underlying preconceptions and prejudices in the language of courtrooms today this important book paves the way towards a fairer judicial system for the future

While numerous studies have celebrated Thomas Merton's witness as an interfaith pioneer poet and peacemaker there have been few systematic treatments of his Christology as such and no sustained exploration to date of his relationship to the Russian Sophia tradition This book looks to Thomas Merton as a classic theologian of the Christian tradition from East to West and offers an interpretation of his mature Christology with special attention to his remarkable prose poem of 1962 Hagia Sophia Bringing Merton's mystical prophetic Vision fully into dialogue with contemporary Christology Russian sophiology and Zen as

well as figures such as John Henry Newman and Abraham Joshua Heschel the author carefully but boldly builds the case that Sophia the same theological eros that animated Merton's religious imagination in a period of tremendous fragmentation and violence might infuse new vitality into our own. A study of uncommon depth and scope inspired throughout by Merton's extraordinary catholicity. Christopher Pramuk PhD is assistant professor of theology at Xavier University in Cincinnati, Ohio. He is the author of two books and numerous essays and the recipient of the Catholic Theological Society of America's 2009 Catherine Mowry LaCugna Award.

The Real Facts Of Life Margaret Jackson, 2005-08-04

During the last twenty years feminist research into the history of sexuality has made important contributions to the theoretical understanding of the relationship between sexuality and male power. When sexology became established as a science, feminists had for many years been engaged in a struggle to change male sexuality by waging campaigns against male sexual violence and abuse of women and children by challenging the institutions of marriage and prostitution and by asserting in theory and in practice the right to female sexual autonomy. Despite the excellent research published in this important and fascinating aspect of feminist history, there are still gaps in our knowledge. *The Real Facts of Life* aims to fill these gaps. Why and when did sexuality become an important political issue for the 19th century feminist? What was the history of campaigns against double standards of sexual morality? Why were feminists so divided in their views about sexual freedom and its relationship to women's emancipation? The analysis of these issues illuminates past and present feminists' ideas and theories about sexuality. Margaret Jackson's main aims in *The Real Facts of Life* are to make a contribution towards understanding the history of the struggle for female sexual autonomy, to provide a revolutionary feminist analysis of the social construction of sexuality and its relationship to male power, and to provide a critique of sexology and the male-defined concept of sexual liberation.
