Realist Criminology Crime Control And Policing In The 1990s:

Realist Criminology John Lowman, Brian MacLean, 1992-01-01 In the 1980s in Britain a new school of critical criminology arose to challenge the political and philosophical idealism that characterized its critical predecessors and to offer an alternative to the crime control policies of the New Right Arguing that by overemphasizing the crimes of the powerful much of critical criminology had virtually ignored the impact of street crime on its victims a left realism emerged to reassert the centrality of the victim in the development of a progressive criminology Critical realism recognizes the seriousness of street crime for those people victimized by it particularly women acknowledges that a consensus as to the desirability of a core group of laws does exist and advocates various kinds of criminal justice reform and crime prevention strategies In this respect there are important parallels with debates in feminism concerning the role of the state in the problem of violence against women One of the most important contributions critical realism has made to criminological research is the development of local crime surveys which attempt to measure patterns of victimization and policing and how these are perceived by the general public Such research remains largely undeveloped in North America and it is the purpose of this book to begin to take stock of these developments and examine their relevance for North America This is the first text to include a critical examination of left realism examine its relationship to feminism and comment on its relevance outside Britain

The Politics of Crime Control Professor Kevin Martin Stenson, David Cowell, 1991-10-23 What is meant by crime crime prevention and crime control Who defines the acts which are deemed as criminal Who devises the sanctions and who acts as agents of social control This timely and challenging book brings together a group of leading international criminologists from all sides of the political spectrum They first examine the formation and implementation of official crime prevention and control policies In the second part they look at a range of critical perspectives which explore the definition of crime and discuss proposals for its prevention and control

Routledge Handbook of Critical Criminology Walter S. DeKeseredy, Molly Dragiewicz, 2018-04-09 The main objective of the second edition of the Routledge Handbook of Critical Criminology is twofold 1 to provide original chapters that cover contemporary critical criminological theoretical offerings generated over the past five years and 2 to provide chapters on important new substantive topics that are currently being studied and theorized by progressive criminologists Special attention is devoted to new theoretical directions in the field such as southern criminology queer criminology and green criminology The diverse chapters cover not only cutting edge theories but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work In addition some of the chapters suggest innovative and realistic short and long term policy proposals that are typically ignored by mainstream criminology These progressive strategies address some of the most pressing social problems facing contemporary society today which generate much pain and suffering for socially and economically disenfranchised people The new edition of the Handbook is a major work in redefining areas within the context

of international multidisciplinary critical research and in highlighting emerging areas such as human trafficking Internet pornography and image based sexual abuse It is specifically designed to be a comprehensive resource for undergraduate and postgraduate students researchers and policymakers *Race, Gender, and Class in Criminology* Martin D. Schwartz, Dragan Milovanovic, 2019-07-18 First published in 2000 This series is dedicated to creative scholarly work in criminal justice and criminology Moreover we ask the authors to emphasize readability In this anthology Martin Schwartz and Dragan Milovanovic have managed to produce a work that is a combination of both They also did this in the face of difficulties presented by a variety of theoretical perspectives and methodologies The subject matter of this anthology race gender and class is a critical one for criminology *Gender, Violence and the Social Order* J. Mooney, 2000-09-05 This is an exciting and innovative book which provides a thorough introduction to contemporary social theory by examining the way in which the widespread existence of violence against women is explored A wide range of theories from liberalism to evolutionary psychology are considered culminating in the development of a distinctive feminist realist position The theories discussed are tested against a large scale survey the findings of which challenge many conventional wisdoms as to the patterning of violence in contemporary society **The SAGE Handbook of Criminological Theory** Eugene McLaughlin, Tim Newburn, 2010-07-21 An indispensable international resource The SAGE Handbook of Criminological Theory provides readers with a clear overview of criminological theory enabling them to reflect critically upon the traditional emergent and desirable theoretical positions of the discipline This handbook is essential for libraries and scholars of all levels studying the rapidly developing interdisciplinary field of criminology **Radical and Marxist Theories of Crime** Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control *Advancing Critical Criminology* Walter S. DeKeseredy, Barbara Perry, 2006-01-01 Advancing Critical Criminology constitutes a timely addition to the growing body of knowledge on critical criminology scholarship DeKeseredy and Perry have assembled a volume that provides scholars with an in depth review of the extant literature on several major branches of criminology as well as examples of how critical criminologists apply their theoretical perspectives to substantive topics such as drugs interpersonal violence and rural crime Accordingly this work is divided into two main sections overviews of theories and applications Each chapter provides a summary of work in a specific

area along with suggestions for moving the field forward This reader is unique in its choice of topics which have often been overlooked in the past An expert collection of international scholars Advancing Critical Criminology is certain to stimulate lively debates and generate further critical social scientific work in this field **Deviance and Crime** Walter DeKeseredy, Desmond Ellis, Shahid Alvi, 2014-09-19 This book sensitizes the reader to the fact that there is substantial disagreement within the academic community and among policymakers and the general public over what behaviors conditions e g physical attributes and people should be designated as deviant or criminal Normative conceptions the societal reaction labeling approach and the critical approach are offered as frameworks within which to study these definitions A comprehensive explanation of theory and social policy on deviance is constructed **Crime, Risk, and Insecurity** Tim Hope, Richard Sparks, 2000 Just what is the fear of crime and how does it impact upon the lives of the citizens of late modern societies This book presents work on the questions of fear anxiety risk and trust both as problems of everyday living and as key themes in the culture and politics of western societies **Encyclopedia of Criminology** J. Mitchell Miller, Richard A. Wright, 2013-12-17 This three volume work offers a comprehensive review of the pivotal concepts measures theories and practices that comprise criminology and criminal justice No longer just a subtopic of sociology criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology political science behavioral science law economics public health family studies social work and many others The three volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field s multidisciplinary nature in a single authoritative reference work More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource The pivotal concepts measures theories and practices of the field are addressed with an emphasis on comparative criminology and criminal justice While the primary focus of the work is on American criminology and contemporary criminal justice in the United States extensive global coverage of other nations justice systems is included and the increasing international nature of crime is explored thoroughly Providing the most up to date scholarship in addition to the traditional theories on criminology the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field **Riding to the Rescue** Steve Hewitt, 2006-01-01 The Mountie may be one of Canada s best known national symbols yet much of the post nineteenth century history of the Royal Canadian Mounted Police remains unexamined particularly the period between 1914 and 1939 when the RCMP underwent enormous transformation The nature of this transformation as it took place in Alberta and Saskatchewan where the Mounties have traditionally dominated policing is the focus of Steve Hewitt s Riding to the Rescue During the 1914 to 1939 period the nineteenth century model of the RCMP was evolving into a twentieth century version and the institution that emerged responded to a nation that was being transformed as well Forces such as industrialization mass immigration urbanization and political radicalism compelled the Mounties to

look away from the frontier and toward a new era Incorporating previously classified material which explores the RCMP both in the context of its ordinary policing role and in its work as Canada s domestic spy agency Hewitt demonstrates how much of the impetus behind the RCMP s transformation was ensuring its own survival and continued relevance Riding to the Rescue is a provocative and incisive look behind one of Canada s most enduring icons at the cusp of the modern era **European Journal of Policing Studies** ,2018-07-31 Contents Introduction Antoinette Verhage Lieselot Bisschop and Wim Hardyns br Articles How to Police a Porous Fortress Monica den Boer 1 Abstract The purpose of this article is to provide an overview of the way in which the European Union has gradually but steadily built a security architecture based on the control of mobility and borders Different logics of policing are interwoven in several projects which are strongly interdependent with technological innovation Furthermore the European policing of mobility is primarily performed by mounting surveillance both inside and beyond European borders by means of which all forms of movement transactions travelling etc are subjected to intensive monitoring by multiple actors who are interlinked through strategies and systems The main finding is that border policing is shifting in a fundamental way from fixed to fluid from territorial to virtual and from physical to technological Hence paradoxically though mobility is strongly promoted as one of the main virtues of the European Union Europe s precautionary protection may be at ill ease with the free movement of people The article seeks to stimulate the knowledge and debate about deeper shifts in Europe s security apparatus and develops this from a law enforcement perspective Keywords Europe borders security mobility technology 1 Academic Dean at the Police Academy of The Netherlands Member of the Committee on European Integration of the Advisory Council on International Affairs and Visiting Professor at the College of Europe in Bruges Police Science in Germany History and New Perspectives Joachim Kersten 1 and Ansgar Burchard 2 Abstract In the German speaking academic world Police Science Polizeiwissenschaft is a fairly new and little known area of social science Accordingly the academic status of police science is anything but firmly established but rather at a hybrid stage of development The very combination of policing and academic study research seems to remain largely incompatible not only to police managers but also to main stream sociology German police science differs substantially from the Anglo American Australian approach One main difference pertains to legal traditions others are due to historical and cultural developments that will be taken up in this descriptive essay However Anglo American Australian police theories have a lot to offer to German and European police scientists and this will be demonstrated For a future common approach to an evolving European police science similar descriptions will be required from other European countries to establish a comparative foundation of joint EU police studies Some of the principal dimensions of such a comparison will be sketched in this essay It concludes with a presentation of empirically based police studies carried out by instructors and Master students at the newly founded German Police University in M nster Topics are media coverage of clashes between police and demonstrators a typology of third party intervention in cases of assault in public places and COREPOL EU FP7 a comparative

The Canadian Criminal Justice System Nick Larsen, 1995 The administration of justice is an area of social policy that defies attempts to achieve a balance between order and the protection of the public and respect for individual rights The media contain daily accounts of the failure of the criminal justice system to repress crime It is within this social and legal context that this work is situated In addition to including a range of articles in the standard areas of policing courts and corrections recent articles deal with such controversial issues as aboriginal justice the recruitment of visible minorities by Canadian police forces and the role of women in the Canadian criminal justice system The collection concludes with a critical assessment of the retributive model that currently serves as the philosophical underpinnings of the Canadian criminal justice system

Crime and Justice in the Trump Era Francis Cullen, Amanda Graham, 2020-05-21 Crime and Justice in the Trump Era documents the impact of Trump administration policies on

- 1 violence against women
- 2 the treatment of persons of color
- 3 corporate and environmental crime both domestic and international and
- 4 federal crime control policy

First the book examines how the policies of Donald Trump's administration have affected the rights and safety of female Americans in particular violence against women including sexual assault The book then goes on to explore President Trump's very public stances devaluing people of color whether they reside within the nation's borders or are seeking entry into the United States Next the collection evaluates the collateral costs attached to the ongoing campaign to reduce regulations that protect consumers workers and the environment Likewise the valuing America's narrow self interests may also have effects internationally where crime and violence may be tied to Trump's promotion of White nationalism toleration of human rights violations and denial of climate change Lastly criminal justice policies are examined both in the early stages of Trump's presidency which were marked by his get tough rhetoric along with the more recent support for the First Step Act The authors represent different perspectives in the discipline critical feminist and mainstream criminologists quantitative and qualitative scholars and students of both street and white collar crime Taken together this book reflects a variety of criminological voices and advances immeasurably our understanding of the Trump administration's influence on crime and justice in America The chapters in this book were originally published as a special issue of Victims Offenders An International Journal of Evidence based Research Policy and Practice

renowned authority in the field the founder of the highly regarded School of Criminology at Simon Fraser University the book draws heavily on research done on three Continents North America Europe and Australia to trace the discipline s historical evolution its current problems disappointing achievements and promising trends It concludes with a prospective look at the future of criminology and criminology of the future Although the perspective is critical the author s critique is constructive and he expresses a healthy optimism about the discipline s future and offers several guidelines as to how current deficiencies could be remedied and present gaps could be addressed

Nightclub George Rigakos,2008 In the last thirty years bouncers have emerged as iconic gatekeepers of contemporary cool exclusivity and social capital in urban centres around the world In this groundbreaking empirical study Rigakos critiques the supposed liberating and expressive potential of nightclubs by theorizing them within the linked themes of risk consumption and security in late capitalism People attend nightclubs to be seen and see others to consume others as aesthetic objects of desire and to elicit desire in others the desire to be desired This synoptic frenzy according to Rigakos fuses surveillance and aesthetic consumption It fetishizes bodies and amplifies social capitals producing optic violence and crises of respect fuelled by alcohol At closing time populations flow out of the haze of the nightclub and onto city streets from private spectacle to public nuisance Mirroring the general late capitalist compulsion to binge and purge the nightclub s spectacle of consumption produces a litany of unfulfilled courtiers of the night staggering out of one spectacle and immediately into another In this sense bouncers are not only prime policing agents in the nighttime economy but are producers of an urban risk market a site of circumscribed transgression and consumption that begins at the door
