Anderson,Kecia Hayes,Joe Kincheloe,Karel Rose,2006-03-30 Maintaining that urban teaching and learning is characterized by many contradictions this work proposes that there is a wide range of social cultural psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice It is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze understand and create Ten major sections cover the myriad issues of urban education as it exists today The National Union Catalogs, 1963- ,1964 **Work Orientation and Job Performance** Douglas E. Mitchell,Flora Ida Ortiz,Tedi K. Mitchell,1987-01-01 With critical attention focused on education and the teaching profession itself under close scrutiny by federal state and local officials and governing boards a heightened sense of the need to attract and retain good teachers has surfaced as a national priority Based on data collected on elementary school teachers principals and central office administrators in a large unified school district the authors draw upon cultural rather than economic or psychological concepts to reveal and explain how educators become oriented to their work responsibilities The book presents a comprehensive description of the rewards and incentives provided for teachers It also describes the roles of principals and links the principal s work to classroom performance and teaching effectiveness Throughout this fascinating account the authors describe and reflect upon the ways in which teaching is controlled by a system of beliefs and meanings that specify the overall purposes of schooling and establish norms for social relationships with students and colleagues Choice
