Poison Reality Lord M. Shaheed Aadam, 2009-04-20 Poison Reality America faces its toughest decisions America has now had its first Black President Woman President and many other different ethnic groups However Americans has had it with politics and have decided to elect its first Monarch to begin its Kingdom After battling for freedom over 300 years ago from a Monarch the people have discovered that having a Head of State is essential in handling all affairs There are several Royal families that are residing within the future Kingdom of America One of the ruling families Luqman is dominating the world of finance NO one over the world can operate without their say so HRH His Royal Highness Mikail Luqman is the head of this ruling family He and his 3 siblings set off on a mission to be on the top in the financial world As HRH Mikail sets out on projects to build various real estates over the world he makes a deal with the American government that allows him to be super rich beyond his wildest dreams and provides the main avenue for America to never go into the red again Its a deal that allows his family to rule for decades Baroness Jamella Luqman has an affair with a Saudi Royal where she uses her ways to get what she want but this comes with a price People are jealous of this ruling family and people in Corporate America want to know how they rule for so long and what they are doing So they send in one of their own who ends up becoming a Luqman With twists and tails of deceit it is really hard to know who trusts who in this story And Lord Nelda has a few descendants where one of them fights for reparations for Black people in America A Muslim of Jewish descent travels to England and requests for reparations from them where it has an effect on America However this turns out to be more than what he expects

**Is Present Reality** Vipin Gupta, 2021-02-19 Is Present Realty The Super science of the transcendental value investigates our reality as an entity who has the power to shape the present and be the light that affirms our presence in the eternal future The transcendental value of the past is immanent within the present The present becomes the subject of scientific investigation The entity who conceived the scientifically investigable present is the super scientific factor whose reality transcends beyond the limits of science An observer behaves as a mirror image of the present and uses the light of self consciousness for illuminating the reality of the universe Without the observer s light the present of the universe is the dark matter Once the observer services the sentient light force the future of the observer is the black hole As a manager of our reality we have an option not to transform our sentient energy into a light force behaving as if we are the white star source of light for illuminating the reality of the universe Instead we may invest our energy for conceiving a different reality at any moment that thereafter constitutes the past Such unique reality is scientifically observable in the present as the illuminated matter The illuminated matter is a proportion of the present which is the dark matter Thus if an observer observes the illuminated matter as the rope it might as well be a body of atoms that eventually transforms into a body of cells That body of cells may be the reality of a snake What we observe and experience in the present is not necessarily the reality This work reveals the blockages that limit our vision s dimensionality and the solutions to be the reality that shapes the eternal present

*Christ and the Moral Life* James M. Gustafson, 1979-06-15 In this work originally published in 1968 the distinguished theologian James M Gustafson asks the fundamental question What is the significance of Jesus Christ for the moral life His answer is in the form of an ethical map showing the ways in which theological affirmations about Christ relate to moral life in the writings of a number of important Christian thinkers

*The Blade of Shattered Hope* James Dashner, 2011-02-22 James Dashner s debut fantasy series The 13th Reality is sure to keep readers guessing and coming back for more

*What is Present Reality* Vipin Gupta, 2021-02-16 What is present reality is an incredibly profound but straightforward exposition of the limits of science Every scientist wishes that someone will falsify the world crafted using the present body of scientific methods one day One such world comprises the manifold versions of relativity theories measuring  $E = mc^2$  Suppose one deified scientist had not mathematically derived the value of energy in this way In that case today s scientists will not bind their understanding to the light serviced by the deified leader scientist traded and squared by them as a devoted follower Evidently when one conceives energy as  $mc^2$  its value without the presence of the leader deity is zero This landmark work grounded in India s ancient cultural metaphysics challenges the present reality of what we know and believe to be true whether about divinity or spirituality or the universe of objects or subjects or us as a person A unique feature is the precise quantification of the lightless energies of both the present reality as well as the varying paradigms and doctrines working on modifying that It is a part of a series of twelve books that democratizes the ability to understand our present reality beyond those who are experts in modern science and use this understanding for personal as well as societal well being The beta reviewers note This is unbelievable work that would change the way life is seen and lived and Looking forward to this being a massive success

Stewart,1926 **The Presidentialization of Politics** Thomas Poguntke,Paul Webb,2007-04-27 The Presidentialization of Politics shows that the politics of democratic societies is moving towards a presidentialized working mode even in the absence of formal institutional changes These developments can be explained by a combination of long term structural changes in modern politics and societies contingent factors which fluctuate over time While these contingent short term factors relate to the personalities of office holders the overall political agenda and the majority situation in parliament there are several structural factors which are relatively uniform across modern nations First the internationalization of modern politics which is particularly pronounced within the European Union has led to an executive bias of the political process which has strengthened the role of political top elites vis vis their parliamentary groups and or their parties Their predominance has been amplified further by the vastly expanded steering capacities of state machineries which have severely reduced the scope of effective parliamentary control At the same time the declining stability of political alignments has increased the proportion of citizens whose voting decisions are not constrained by long standing party loyalties In conjunction with the mediatization of politics this has increased the capacity of political leaders to by pass their party machines and to appeal directly to voters As a result three interrelated processes have led to a political process increasingly moulded by the inherent logic of presidentialism increasing leadership power and autonomy within the political executive increasing leadership power and autonomy within political parties and increasingly leadership centred electoral processes The book presents evidence for this process of presidentialization for 14 modern democracies including the US and Canada While there are substantial cross national differences the overall thesis holds modern democracies are increasingly following

a presidential logic of governance through which leadership is becoming more central and more powerful but also increasingly dependent on successful immediate appeal to the mass public Implications for democratic theory are considered
