Kartini* Joost Coté, 2008 Realizing the Dream of R A Kartini Her Sisters Letters from Colonial Java presents a unique collection of documents reflecting the lives attitudes and politics of four Javanese women in the early twentieth century Joost J Cot translates the correspondence between Raden Ajeng Kartini Indonesia s first feminist and her sisters revealing for the first time her sisters contributions in defining and carrying out her ideals With this collection Cot aims to situate Kartini s sisters within the more famous Kartini narrative and indirectly to situate Kartini herself within a broader narrative The letters reveal the emotional lives of these modern women and their concerns for the welfare of their husbands and the success of their children in rapidly changing times While by no means radical nationalists and not yet extending their horizons to the possibility of an Indonesian nation these members of a new middle class nevertheless confidently express their belief in their own national identity Realizing the Dream of R A Kartini is essential reading for scholars of Indonesian history providing documentary evidence of the culture of modern urban Java in the late colonial era and an insight into the ferment of the Indonesian nationalist movement in which these women and their husbands played representative roles

Dream Psychology Sigmund Freud,2015-11-16 In what we may term prescientific days people were in no uncertainty about the interpretation of dreams When they were recalled after awakening they were regarded as either the friendly or hostile manifestation of some higher powers demoniacal and Divine With the rise of scientific thought the whole of this expressive mythology was transferred to

psychology to day there is but a small minority among educated persons who doubt that the dream is the dreamer s own psychical act But since the downfall of the mythological hypothesis an interpretation of the dream has been wanting The conditions of its origin its relationship to our psychical life when we are awake its independence of disturbances which during the state of sleep seem to compel notice its many peculiarities repugnant to our waking thought the incongruence between its images and the feelings they engender then the dream s evanescence the way in which on awakening our thoughts thrust it aside as something bizarre and our reminiscences mutilating or rejecting it all these and many other problems have for many hundred years demanded answers which up till now could never have been satisfactory Before all there is the question as to the meaning of the dream a question which is in itself double sided There is firstly the psychical significance of the dream its position with regard to the psychical processes as to a possible biological function secondly has the dream a meaning can sense be made of each single dream as of other mental syntheses Three tendencies can be observed in the estimation of dreams Many philosophers have given currency to one of these tendencies one which at the same time preserves something of the dream s former over valuation The foundation of dream life is for them a peculiar state of psychical activity which they even celebrate as elevation to some higher state Schubert for instance claims The dream is the liberation of the spirit from the pressure of external nature a detachment of the soul from the fetters of matter Not all go so far as this but many maintain that dreams have their origin in real spiritual excitations and are the outward manifestations of spiritual powers whose free movements have been hampered during the day Dream Phantasies Scherner Volkelt A large number of observers acknowledge that dream life is capable of extraordinary achievements at any rate in certain fields Memory
