Wiley,Joy Kreeft Peyton,Donna Christian,Sarah Catherine K. Moore,Na Liu,2014-01-03 Co published by the Center for Applied Linguistics Timely and comprehensive this state of the art overview of major issues related to heritage community and Native American languages in the United States based on the work of noted authorities draws from a variety of perspectives the speakers use of the languages in the home community and wider society patterns of acquisition retention loss and revitalization of the languages and specific education efforts devoted to developing stronger connections with and proficiency in them Contributions on language use programs and instruction and policy focus on issues that are applicable to many heritage language contexts Offering a foundational perspective for serious students of heritage community and Native American languages as they are learned in the classroom transmitted across generations in families and used in communities the volume provides background on the history and current status of many languages in the linguistic mosaic of U S society and stresses the importance of drawing on these languages as societal community and individual resources while also noting their strategic importance within the context of globalization      *EBOOK: Learning Teaching from Teachers: Realising the Potential of School-Based Teacher Education* Hazel Hagger,Donald McIntyre,2006-10-16 The impressive strengths of this book are its breadth of scope the depth of its grounding in the real life of schools its clarity of structure and argument and its far reaching suggestions for reforming school based teacher education The book also demonstrates in every chapter the authors unwavering though not uncritical regard for the profession of teaching Lesley Saunders Professional Development Today The move to school based initial teacher education has opened up exciting opportunities for student teachers to learn from

practising teachers expertise However making the most of these opportunities is not straightforward since much of that expertise is embedded in practice and rarely articulated The book Brings together a wide range of research on teachers expertise and beginning teachers learning Reports a research project on helping student teachers to gain access to experienced teachers expertise Considers the wider implications of that research for the development of school based initial teacher education Explores how school based initial teacher education can be improved if it is professionally planned in an informed and well thought out way Shows how curricula can be developed to help student teachers learn from experienced teachers and from everyday life in schools Makes suggestions for initiatives to improve school based initial teacher education Examines the conditions that are necessary for school based initial teacher education to realize its full potential Learning Teaching from Teachers is a key text for all teacher educators including school based mentors It is also important reading for teachers involved in Masters courses in mentoring and teacher education Handbook of Research on Effective Electronic Gaming in Education Ferdig, Richard E.,2008-07-31 This book presents a framework for understanding games for educational purposes while providing a broader sense of current related research This creative and advanced title is a must have for those interested in expanding their knowledge of this exciting field of electronic gaming Provided by publisher

International Perspectives on Foreign Language Teaching Gerard L. Ervin,1991 **New Trends in Early Foreign Language Learning** Maria González Davies,2012-01-17 This volume is the result of the presentations and discussions carried out at the Conference on Early Foreign Language Learning in Educational Contexts Bridging Good Practices and Research organized by the University Ramon Lull the University of Bari and LEND Lingua e Nuova Didattica in March 2010 At the Conference both teachers and researchers met to examine recent language teaching theories and practices from a transnational and intercultural perspective on the one hand and on the other to fill the gap in the field of English as a Foreign Language EFL in schools and to pave the way for a wider platform of discussion between School and University Since these two institutions have often had little contact and as there is excellent work carried out in both our attempt was to build more solid bridges across their contexts engaging school teachers in ongoing research and bringing everyday classroom practice nearer to university theoreticians in an open exchange forum so that the reflection on teaching and learning becomes relevant and rewarding for the participants involved in Early Foreign Language Learning in 21st century contexts Drawing on the main topics presented throughout the Conference this book has been structured around three main thematic areas 1 the Age Factor 2 CLIL and Content based research and practices and 3 developing intercultural competence use of the L1 and translation as mediation skills Each of these sections encompasses high quality contributions all informed by salient and recent research clear and justified theoretical standpoints and good practices which are appealing to an international audience and setting The editors sincerely hope that this volume contributes to widen the field of foreign language teaching and learning to include studies on young learners perceptions and performance At the same time they would like to highlight

the decisive new focus on language learning adopted in the 21st century the inclusion of a wider vision of language acquisition one that highlights the relevance of using languages not only to communicate but more relevantly to mediate between cultures as a means to bring together the plurilingual and pluricultural citizens of our future *International Handbook of Information Technology in Primary and Secondary Education* Joke Voogt, Gerald Knezek, 2008-08-26 Since the introduction of the computer into education in the 1960 s its potential for K 12 education has been widely recognized The terminology used at times confusing due to rapid technology change has continuously evolved We are in transition to an information society and the term computer technology has been replaced by information technology IT or information and communication technology ICT New demands from the information society require education to focus on information management and communication skills for which IT can be an essential resource IT offers promising environments and tools to support new approaches to teaching and learning Despite major investments the implementation of IT in education has been a persistent problem And although it is generally assumed that IT has high potential for improving education major research findings have only recently confirmed positive results of IT on students performance While there is a vast amount of research on information technology IT in K 12 education most of it is scattered Until now a unified presentation of the research from a broad international perspective has not been accomplished As a ground breaking publication the two volume International Handbook on Information Technology full title synthesizes the major issues and directions of research in the field One major focus of the Handbook is the design and potential of IT based student learning environments Offering the latest research in IT and the learning process distance learning and emerging technologies for education these chapters address the critical issue of the potential for IT to improve K 12 education A second important theme deals with the implementation of IT in educational practice In these chapters barriers and opportunities for IT implementation are studied from several perspectives the teacher the curriculum the school organization and educational policy Curriculum competencies and attitudes teacher learning schools and international and regional programs and policies are examined to improve understanding how the implementation of IT in K 12 educational practice can be supported Additional topics addressed in the Handbook include the role of education in the information society threats to equity in education and as well various approaches to research in IT in education The International Handbook on Information Technology in Primary and Secondary Education provides researchers policy makers and practitioners with an integrated and detailed overview of this complex field making it an essential reference for all libraries and educators *Sharing Less Commonly Taught Languages in Higher Education* Emily Heidrich Uebel, Angelika Kraemer, Luca Giupponi, 2023-12-22 This edited volume highlights how institutions programs and less commonly taught language LCTL instructors can collaborate and think across institutional boundaries bringing together voices representing different approaches to LCTL sharing to highlight affordances and challenges across institutions in this collection of essays *Sharing Less Commonly Taught Languages in Higher Education*

showcases how innovation and reform can make LCTL programs and courses more attractive to students whose interests and needs might be overlooked in traditional language programs The volume focuses on how institutions programs and LCTL instructors can work together collaborating and thinking across institutional boundaries to explore innovative solutions for offering a wider range of languages and levels With challenges including instructor isolation difficulty in offering advanced courses or sustaining course sequences and minimal availability of pedagogical materials compared to commonly taught languages to overcome this collection is a vital resource for language educators and language program administrators The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivative Licence CC BY NC ND 4 0 license
