Reappearance Of The Christ:

The Reappearance of the Christ Alice Bailey, Djwhal Khul, 2012-03-13 Many religions today expect the coming of an Avatar or Saviour The second coming of the Christ as the world Teacher for the age of Aquarius is presented in this book as an imminent event a continuity of divine revelation throughout the ages The Christ belongs to all mankind and can be known and understood as the same great Identity in all the world religions The Reappearance of the Christ Alice Anne LaTrobe-Bateman Bailey, 1981 **The reappearance of the Christ** Alice Anne Bailey, 1984 **The Reappearance of the Christ** Alice Bailey, 1970 **The Reappearance of the Christ and the Masters of Wisdom** Benjamin Creme, 1980 In this first of 10 books on the subject British artist and international lecturer Benjamin Creme stunned the world with his announcement that the Christ as World Teacher for the coming age is already among us gradually emerging into full public recognition And further that this great Spiritual Presence known as Maitreya is the same One expected by many religions albeit under different names Maitreya is here to promote cooperation among the many ideological factions galvanize world goodwill and sharing and inspiring sweeping political social economic and environmental reforms Creme puts the most profound event in human history into context and describes what effect the World Teacher s presence will have on the planet the world s institutions and the average person Through his telepathic contact with a Master of Wisdom Creme answers a myriad of questions well beyond the scope of his personal knowledge New insights are offered on such subjects as the soul and reincarnation telepathy nuclear energy ancient civilizations problems of the developing world and a new economic order And he clarified age old misunderstandings about the anti christ and the last judgment Creme delivers his extraordinary message of hope through lectures and media interviews worldwide Distributed by De Vorss and New Leaf *The Reappearance of Christ in the Etheric* Rudolf Steiner, 2022-03-01 Since the coming of Gautama Buddha Eastern mystics have spoken especially about a future condition when earth will be bathed in a moral etheric atmosphere Ever since the time of the ancient rishis they had hoped that this moral impulse would come to earth from Vishva Karman or from Ahura Mazda as Zarathustra proclaimed Eastern mysticism foresaw that this moral atmosphere would come to earth from the being we call the Christ Eastern mystics had set their hopes on the being of Christ Rudolf Steiner p 125 The first chapter of the Acts of the Apostles describes Christ s Ascension and a cloud received him out of their sight As the disciples were looking up two angels appeared and said the same Jesus taken up from you into heaven shall come again in the same way as you have seen him go Starting in 1910 Rudolf Steiner initiated a series of lectures announcing the advent of Christ s appearance in the sphere of the earth s etheric or life body This he said would begin between 1930 and 1940 but at first only a few people would be aware of it In time more and more people regardless of their religious affiliation would be infused by Christ s living presence Such Damascus experiences bespeaking a new natural clairvoyance Steiner said would become increasingly common The Christ will become a living comforter Though it may seem strange now it is nevertheless true that even large numbers of

people sitting together and wondering what to do will see the etheric Christ He will be there and confer with them he will cast his word into their gathering We are approaching these times when this positive constructive element will take hold of human evolution Rudolf Steiner p 122 The lectures collected here on the second coming of Christ also contain significant related issues such as spiritual science and etheric vision the etheric vision of the future the Sermon on the Mount and the land of Shambhala the etherization of the blood the mysteries of comets and the moon Buddhism and Pauline Christianity and the three realms between death and rebirth The Reappearance of the Christ Alice Anne Bailey (Theosophin),1948

The Reappearance of the Christ Alice Bailey,1999 *Preparation for the Reappearance of the Christ* World Goodwill,19?? **The Compass of Light Volume 1** Starling David Hunter, 3rd,2006-04-10 **In the Name of Purpose** Tamara Hartzell,2007-01-23 **The Encyclopedic Sourcebook of New Age Religions** James R. Lewis,2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon *Altered Consciousness in the Twentieth Century* Jake Poller,2019-02-21 The twentieth century saw an unprecedented spike in the study of altered states of consciousness New ASCs such as those associated with LSD and psilocybin mushrooms were cultivated and studied while older ASCs were given new classifications out of body experiences near death experiences psychokinesis extrasensory perception *Altered Consciousness in the Twentieth Century* analyses these different approaches and methodologies and includes exciting new research into neglected areas This volume investigates the representation of ASCs in the culture of the twentieth century and examines the theoretical models that attempt to explain them The international contributors critically examine a variety of ASCs including precognition near death experiences telepathy New Age channelling contact with aliens and UFOs the use of alcohol and entheogens analysing both the impact of ASCs on the culture and how cultural and technological changes influenced ASCs The contributors are drawn

from the fields of English and American literature religious studies Western esotericism film studies sociology and history of art and bring to bear on ASCs their own disciplinary and conceptual perspectives as well as a broader interdisciplinary knowledge of the subject The collection represents a vital contribution to the growing body of work on both ASCs and the wider academic engagement with millennialism entheogens occulture and the paranormal
