**The First Modern Society** Lawrence Stone, A. L. Beier, 1989-07-06 Intended to celebrate the 70th birthday of the distinguished historian Lawrence Stone these essays owe much to his influence There are also four appreciations by friends and colleagues from Oxford and Princeton and a little known autobiographical piece by Lawrence Stone himself

**Reappraisals in History** Jack H. Hexter, 1963      **Reappraisals in History: New Views on History and Society in Early Modern Europe** J.H. Hexter, 1961      Interpreting Early Modern Europe C. Scott Dixon, Beat Kümin, 2019-09-11

Interpreting Early Modern Europe is a comprehensive collection of essays on the historiography of the early modern period circa 1450-1800. Concerned with the principles, priorities, theories, and narratives behind the writing of early modern history, the book places particular emphasis on developments in recent scholarship. Each chapter, written by a prominent historian caught up in the debates, is devoted to the varieties of interpretation relating to a specific theme or field considered integral to understanding the age, providing readers with a behind-the-scenes look at how historians have worked and still work within these fields. At one level, the emphasis is historiographical, with the essays engaged in a direct dialogue with the influential theories, methods, assumptions, and conclusions in each of the fields. At another level, the contributions emphasise the historical dimensions of interpretation, providing readers with surveys of the component parts that make up the modern narratives. Supported by extensive bibliographies, primary materials, and appendices with extracts from key secondary debates, Interpreting Early Modern Europe provides a systematic exploration of how historians have shaped the study of the early modern past. It is essential reading for students of early modern history. For a comprehensive overview of the history of early modern Europe, see the partnering volume The European World 1500-1800: An Introduction to Early Modern History, edited by Beat Kümin. <https://www.routledge.com/The-European-World-1500-1800-An-Introduction-to-Early-Modern-History/Kumin/book/9781138119154>      Reappraisals in History Jack H. Hexter, 1961      *Francis Bacon and the Transformation of Early-Modern Philosophy* Stephen Gaukroger, 2001-03-19 This ambitious and important book, first published in 2001, provides a truly general account of Francis Bacon as a philosopher. It describes how Bacon transformed the values that had underpinned philosophical culture since antiquity by rejecting the traditional idea of a philosopher as someone engaged in contemplation of the cosmos. The book explores in detail how and why Bacon attempted to transform the largely esoteric discipline of natural philosophy into a public practice through a program in which practical science provided a model that inspired many from the seventeenth to the twentieth centuries. Stephen Gaukroger shows that this reform of natural philosophy was dependent on the creation of a new philosophical persona: a natural philosopher shaped through submission to the dictates of the Baconian method. This book will be recognized as a major contribution to Baconian scholarship of special interest to historians of early modern philosophy, science, and ideas.      De-Industrialization Bert Altena, Marcel van der Linden, 2002 De-industrialization processes have accompanied industrialization from the start, both regionally and globally. Most historical studies of de-industrialization

focus on economic issues including structural causes and forms of unemployment Much less attention is usually paid to the social and cultural aspects What are the consequences of de industrialization for working class families and their communities How does de industrialization affect working class culture trade unions traditional labour parties and the regional social educational and cultural infrastructure Are gender relations changed by de industrialization The essays here propose a wide scope for the study of industrial devolution **John Donne, Coterie Poet** Arthur F. Marotti, 2008-08-01

Arthur F Marotti has produced the first systematic study of John Donne s poetry as coterie literature offering fresh interpretations of the poems in their biographical and sociohistorical contexts It will be of interest and value to students and scholars of English Renaissance literature to critics interested in the application of revisionist history to literary study and to those concerned with the processes by which literature became institutionalized in the early modern period Donne treated poetry as an avocation restricting his verse to carefully chosed readers friends acquaintances patrons and the woman he later married This study employs socio historical and psychoanalytic methods to examine this poetry as work designed for readers to respond in knowledgeable ways to a complex interplay of literary text and social context Marotti argues that it is necessary to relate literary language to the languages of social economic and political transactions and to define the social and ideological affiliations of literary genres and modes After setting Donne s practice in the framework of the sixteenth century systems of manuscript literary transmission Marotti treats the verse chronologically and according to audience paying particular attention to the rhetorical enactment of the author s relationships to peers and superiors through the conflicting styles of egalitarian assertion social iconoclasm and deferential politeness Marotti relates the poetry to Donne s contemporary prose discussing the author s choice of various literary forms in the context of his sociopolitical life as well in terms of the shift from Elizabethan to Jacobean rule the latter change resulting in a realignment of genres within the culture s literary system He reads Donne s formal satires humanist verse letters erotic elegies and commentary epistles aware of the social coordinates of those particular genres and defines the markedly different circumstances to which Donne s libertine courtly satiric sentimental complimentary and religious lyrics individually belonged Marotti deals also with Donne s inventive mixing of genres in both shorter and longer poems Marotti s groundbreaking work offers new models of historical interpretation of Donne s poetry complementing previous formalist intellectual historical and literary historical readings It particularly highlights the importance of attending to the socioliterary conditions of literature designed for manuscript transmission rather than for publication work that includes for example much of the lyric poetry of Renaissance England

Harris,2014-03-19 Perhaps no other institution has had a more significant impact on Latin American history than the large landed estate the hacienda In Mexico the latifundio an estate usually composed of two or more haciendas dominated the social and economic structure of the country for four hundred years A Mexican Family Empire is a careful examination of the largest latifundio ever to have existed not only in Mexico but also in all of Latin America the latifundio of the S nchez Navarros Located in the northern state of Coahuila the S nchez Navarro family s latifundio was composed of seventeen

haciendas and covered more than 16 5 million acres the size of West Virginia Charles H Harris places the history of the latifundio in perspective by showing the interaction between the various activities of the S nchez Navarros and the evolution of landholding itself In his discussion of the acquisition of land the technology of ranching labor problems and production on the S nchez Navarro estate and of the family s involvement in commerce and politics Harris finds that the development of the latifundio was only one aspect in the S nchez Navarros rise to power Although the S nchez Navarros conformed in some respects to the stereotypes advanced about hacendados in terms of landownership and the use of debt peonage in many important areas a different picture emerges For example the family s salient characteristic was a business mentality they built the latifundio to make money with status only a secondary consideration Moreover the family s extensive commercial activities belie the generalization that the objective of every hacendado was to make the estates self sufficient Harris emphasizes the great importance of the S nchez Navarros widespread network of family connections in their commercial and political activities A Mexican Family Empire is based on the S nchez Navarro papers 75 000 pages of personal letters business correspondence hacienda reports and inventories wills land titles and court records spanning the period from 1658 to 1895 Harris s thorough research of these documents has resulted in the first complete social economic and political history of a great estate The geographical and chronological boundaries of his study permit analysis of both continuity and change in Mexico s evolving socioeconomic structure during one of the most decisive periods in its history the era of transition from colony to nation

**Never Pure** Steven Shapin, 2010-06 Steven Shapin argues that science for all its immense authority and power is and always has been a human endeavor subject to human capacities and limits Put simply science has never been pure To be human is to err and we understand science better when we recognize it as the laborious achievement of fallible imperfect and historically situated human beings Shapin's essays collected here include reflections on the historical relationships between science and common sense between science and modernity and between science and the moral order They explore the relevance of physical and social settings in the making of scientific knowledge the methods appropriate to understanding science historically dietetics as a compelling site for historical inquiry the identity of those who have made scientific knowledge and the means by which science has acquired credibility and authority This wide ranging and intensely interdisciplinary collection by one of the most distinguished historians and sociologists of science represents some of the leading edges of change in the scholarly understanding of science over the past several decades

**The Widening Gate** David Harris Sacks, 2023-04-28 The history of capitalism is not to be explained in mere economic terms David Harris Sacks here demonstrates that the modern Western economy was ushered in by broad processes of social political and cultural change His study of Bristol as it opened its gate to national politics and the Atlantic economy reveals capitalism to be not just a species of economic order but a distinct form of life governed by its own ethical norms and cultural practices Availing himself of the methods of thick description socio economic analysis and political theory Sacks examines the dynamics by which early modern Bristol moved from a medieval commercial economy to an early capitalist one Throughout the period the life of the city depended heavily on the successes of

its great overseas merchants But their quest for a monopoly of trade with the outside world from the Atlantic seaboard to the Levant came into conflict with the concerns of Bristol s artisans and retail shopkeepers The battles of the two factions conditioned social and cultural developments in Bristol for two centuries Locally the conflict set the terms for developing conceptions of justice and authority On a larger scale it drew the community firmly into the great affairs of the realm and the wider world of expanding markets beyond This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992 The history of capitalism is not to be explained in mere economic terms David Harris Sacks here demonstrates that the modern Western economy was ushered in by broad processes of social political and cultural change His study of Bristol as it opened i     A Cultural History of Civil Examinations in Late Imperial China Benjamin A. Elman,2000-03-22 In this multidimensional analysis Benjamin A Elman uses over a thousand newly available examination records from the Yuan Ming and Ch ing dynasties 1315 1904 to explore the social political and cultural dimensions of the civil examination system one of the most important institutions in Chinese history For over five hundred years the most important positions within the dynastic government were usually filled through these difficult examinations and every other year some one to two million people from all levels of society attempted them Covering the late imperial system from its inception to its demise Elman revises our previous understanding of how the system actually worked including its political and cultural machinery the unforeseen consequences when it was unceremoniously scrapped by modernist reformers and its long term historical legacy He argues that the Ming Ch ing civil examinations from 1370 to 1904 represented a substantial break with T ang Sung dynasty literary examinations from 650 to 1250 Late imperial examinations also made Tao Learning Neo Confucian learning the dynastic orthodoxy in official life and in literati culture The intersections between elite social life popular culture and religion that are also considered reveal the full scope of the examination process throughout the late empire
