Reason Sexlty In Wstrn:

Reason and Sexuality in Western Thought David West, 2005-05-06 This book traces the genealogy of ideas of reason self and sexuality in the West opening the way to a richer and more diverse understanding of sexual experience Western philosophy and religion have distorted and continue to distort our experience of sex and love through three far reaching constellations of reason self and sexuality Thinkers like Plato Aquinas and Kant helped to fashion an ascetic ideal of reason hostile to bodily pleasures and sexual diversity By contrast philosophical hedonism advocates a less demanding conception of rationality and defends sexual pleasure But this approach of thinkers like Hume Bentham La Mettrie and de Sade is still one sided and limiting A third constellation Romanticism avoids the limitations of both forms of rationalism but in the name of a religion of love and passion that ultimately threatens the integrity of the self In Reason and Sexuality in Western Thought a richer understanding of sexual experience is traced to a dissident philosophical tradition In their different ways Montaigne Spinoza Hegel and Kierkegaard Marcuse and Foucault contribute to a more holistic multi layered and open conception of reason sexuality and the self This book will be essential reading for all students of philosophy and gender studies *Gender and Sexuality in Russian Civilisation* Peter I. Barta, 2013-06-17 Gender and Sexuality in Russian Civilisation considers gender and sexuality in modern Russia in the nineteenth and early twentieth centuries Chapters look individually at gender and sexuality through history art folklore philosophy or literature but are also arranged into sections according to the arguments they develop A number of chapters also consider Russia in the Soviet and post Soviet periods Thematic sections include Gender and Power Gender and National Identity Sexual Identity and Artistic Impression Literary Discourse of Male and Female Sexualities Sexuality and Literature in Contemporary Russian Society The Politics of Gender and the Culture of Sexuality Ali A. Mazrui, 2014-07-08 The Politics of Gender and the Culture of Sexuality outlines theories of gender within the intellectual paradigm of the triple heritage Islam Africanity and the West This book describes the impact of individual contexts and politics on meanings attributed to the human body The Politics of Gender and the Culture of Sexuality explores how men and women relate to each other in monogamous and polygamous marriage race rivalries slavery miscegenation cultures of procreation family planning and the Islamic view of women s dignity vis vis the Western view of women s liberty In doing so the author and editor present a multifaceted and dynamic theoretical discourse of gender Why Stories Matter Clare Hemmings, 2011-01-18 A powerful critique of the stories that feminists tell about the past four decades of Western feminist theory **Un-Veiling Dichotomies** Giorgia Baldi, 2021-09-27 This book analyzes the implication of secular liberal values in Western and human rights law and its impact on Muslim women It offers an innovative reading of the tension between the religious and secular spheres The author does not view the two as binary opposites Rather she believes they are twin categories that define specific forms of lives as well as a specific notion of womanhood This divergence from the usual dichotomy opens the doors for a reinterpretation of secularism in contemporary Europe This method also helps readers to

view the study of religion vs secularism in a new light It allows for a better understanding of the challenges that contemporary Europe now faces regarding the accommodation of different religious identities For instance one entire section of the book concerns the practice of veiling and explores the contentious headscarf debate It features case studies from Germany France and the UK In addition the analysis combines a wide range of disciplines and employs an integrated comparative and inter disciplinary approach The author successfully brings together arguments from different fields with a comparative legal and political analysis of Western and Islamic law and politics This innovative study appeals to students and researchers while offering an important contribution to the debate over the role of religion in contemporary secular Europe and its impact on women s rights and gender equality

The Bible, Sexuality, and Culture Brian Neil Peterson, 2021-05-26 We are living in a rapidly changing culture Since the 1960s the changes in our sexual ethics have become increasingly problematic How are people especially Evangelicals and other conservative Christians supposed to respond Does the Bible address these seismic changes How is a believer supposed to raise a family in the cultural chaos of the twenty first century If you have asked any of these questions before then this book is for you Peterson argues forcefully that the changes in our culture are a direct result of a postmodern and post Christian cultural rejection of the mandates established by God in the opening two chapters of Genesis The reason Western culture is imploding morally is directly connected to the Enemy s undoing of each of the Genesis mandates established by God for human and cultural flourishing With Western culture s rejection or undoing of every one of God s mandates in Genesis is there any hope for the survival of once thriving Judeo Christian cultures Peterson tackles these and many other issues in a forthright and unreserved manner This book is not for the faint of heart It is a call for a return to cultural sanity rooted in the fear of God and his Word

D. Frater, U. D. (Frater), 2001 HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires During the sex act your attention becomes focused into a laser beam of concentration This power of concentrated thought is the foundation of all magical systems Sex Magic's secret is that it's a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals Male and female energies are often entirely different and it would be folly to deny this but experience shows that female magicians can be particularly successful in using and developing Sex Magic Consequently this book is aimed at both male and female readers unlike more traditional teachings written for men Of all secret lore Sex Magic has been reputed through the centuries to be the most dangerous Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions If we learn one thing from the shamanic cultures it is the strong emphasis upon the role of the body in magic Mind and Body are two facets of the One Thing in which Will Imagination and Gnostic Trance are the three pillars of success Contrary to the principles of Eastern Tantra Western Sex Magic emphasizes the importance of actual orgasm both male and female Orgasm is the moment when the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible freeing up possible paranormal powers Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness as most people do at the moment of ecstasy Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore It is a complete system of Sex Magic in theory and practice with exercises to develop related abilities for visualization concentration breath control psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation their use in Sigil Magic and the charging of Amulets Talismans Group Ritual and the assumption of god forms when working as a priestly couple and the divine Chymical Marriage of ultimate union This book is also an introduction to the entire field of practical magic using our natural interest and involvement in sexual pleasure to illustrate and develop magical abilities and techniques

Contesting Islam, Constructing Race and Sexuality Sunera Thobani, 2020-12-10 The current political standoffs of the War on Terror illustrate that the interaction within and between the so called Western and Middle Eastern civilizations is constantly in flux A recurring theme however is how Islam and Muslims signify the Enemy in the Western socio cultural imagination and have become the Other against which the West identifies itself In a unique and insightful blend of critical race feminist and post colonial theory Sunera Thobani examines how Islam is foundational to the formation of Western identity at critical points in its history including the Crusades the Reconquista and the colonial period More specifically she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against radical Islam Exposing these symbiotic relationships Thobani explores how the return of religion is reworking the racial gender and sexual politics by which Western society defines itself and more specifically defines itself against Islam

Contesting Islam Constructing Race and Sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in the West and the crucial role that Islam has had and continues to have in its development

Modernism, Metaphysics, and Sexuality Debrah Raschke, 2006-08 Without question modernist texts have been haunted by what can be known or more aptly what cannot be known This position is foundational to one of the pivotal readings of modernism Simultaneously economic legal and political shifts that occurred during the late nineteenth and early twentieth centuries produced real material changes pertaining to the status of women Thus as many others have adeptly argued modernism is also a crisis in gender

Modernism Metaphysics and Sexuality keenly suggests that these narratives the thinking of what constitutes truth and the rethinking of gender are intertwined Interpreting Conrad s Heart of Darkness and Victory Forster s A Passage to India and Maurice Lawrence s Women in Love and Woolf s A Room of One s Own and To the Lighthouse through Luce Irigaray s rereading of
