

Postmodernism: The Loss of Truth

- Truth, if such a thing exists, is the property of culture. There is no absolute truth. All truth is relative. It is created by societies. There is no ultimate moral authority or moral absolute.

Reason Truth And Self Getting To Know The Truth About Postmodernism:

Reason, Truth and Self Michael Luntley, 2002-09-11 Michael Luntley provides a lively introduction to the debate over postmodernism. Sympathisers of the postmodernist critique of absolute knowledge have jettisoned concepts of reason, truth and self; this abandonment has fuelled their opponents' case against postmodernism. This has led them to ignore the very real problems raised by the postmodernists. Luntley offers a clear and careful exposition of how rational debate survives despite the Enlightenment's failings. *Reason, Truth and Self* covers many of the key questions of our age: How rational is science? Can we really know the truth about ourselves and the world? What is the nature of the mind? Can we know the difference between right and wrong? *Reason, Truth and Self* is ideal for courses in philosophy and the social sciences. *Truth Matters* Lambert Zuidervaar, Allyson Carr, Matthew J. Klaassen, Ronnie Shuker, 2013-12-01 Why should we seek and tell the truth? Does anyone know what truth is? Many are skeptical about the relevance of truth. *Truth Matters* endeavours to show why truth is important in a world where the very idea of truth is contested. Putting philosophers in conversation with educators, literary scholars, physicists, political theorists and theologians, *Truth Matters* ranges across both analytic and continental philosophy and draws on the ideas of thinkers such as Aquinas, Balthasar, Brandom, Davidson, Dooyeweerd, Gadamer, Habermas, Kierkegaard, Plantinga, Ricoeur and Wolterstorff. Some essays attempt to provide a systematic account of truth, while others wrestle with the question of how truth is told and what it means to live truthfully. Contributors address debates between realists and anti-realists, explore issues surrounding relativism and constructivism in education, and the social sciences examine the politics of truth-telling and the ethics of authenticity and consider various religious perspectives on truth. Most scholars agree that truth is propositional, being expressed in statements that are subject to proof or disproof. This book goes a step farther: yes, propositional truth is important, but truth is more than propositional. To recognize how it is more than propositional is crucial for understanding why truth truly matters. Contributors include Doug Blomberg (ICS), Allyson Carr (ICS), Jeffrey Dudiak (King's University College), Olaf Ellefson (York University), Gerrit Glas (VU University Amsterdam), Gill K. Holden, 2022-01-11 A must-read for anyone who seeks to share the gospel and defend the faith. Josh McDowell: Crucial to the next generation of missionaries and apologetic evangelists. Norman L. Geisler: In a postmodern, post-truth society, how can we be certain our faith is based on more than our feelings? And how do we answer the complex questions about Christianity posed by skeptics and searchers alike? *The Comprehensive Guide to Apologetics* challenges you to understand and defend the tenets of your faith. This informative resource covers topics spanning from the evidence for the

Bible's reliability to the relationship between science and faith to the comparisons between Christianity and other worldviews. The many contributors to this volume include respected apologists and Bible scholars such as Norman L. Geisler, Josh McDowell, Gary R. Habermas, Walter C. Kaiser Jr., Ron Rhodes, Edwin M. Yamauchi, John Warwick Montgomery, William A. Dembski, Randy Alcorn, Stephen C. Meyer, Randall Price, Ed Hindson. Essential reading for every Christian. The Comprehensive Guide to Apologetics will equip you with the knowledge and confidence to testify for your faith with compassion, intention, and Christlike wisdom.

Christian Worldview and the Academic Disciplines Deane E. D. Downey, Stanley E. Porter, 2009-04-15

This book, an edited compilation of twenty-nine essays, focuses on the differences that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities. Three initial chapters of introductory material are followed by twenty-six essays, each dealing with the essential elements or issues in the academic discipline involved. These individual essays on each discipline are a unique element of this book. These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline. *Christian Worldview and the Academic Disciplines* is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students. This volume will also be of interest to Christian students in secular post-secondary institutions who may be encountering challenges to their faith, both implicit and explicit, from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible. This book should also be helpful for college and university professors who embrace the Christian faith but whose post-secondary academic background, because of its secular orientation, has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty. Such specialists, be they professors or upper-level graduate students, will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful. Downey and Porter present a unique contribution to the perennial question of how faith interacts with the academic disciplines. Numerous factors contribute to this book's significance: the common conviction that one's Christian beliefs ought to shape the contents of one's teaching; the variety of perspectives and opinions; and the wide range of academic disciplines under discussion. The essays, originating among the excellent faculty of Trinity Western University, will deservedly be much used in undergraduate colleges and universities.

Hans Borsma, J. I. Packer, Professor of Theology, Regent College. Few faculty, Christian or otherwise, understand what their colleagues in other departments are doing or why. This collection of essays is not only an excellent introduction to the whole scope of academic enterprises but to the unique and important relationship between each discipline and the Christian faith. An important book not only for the entire range of faculty but for students yearning to understand both their Christian faith and what is being taught in the classroom.

James W. Sirf, author of *The Universe Next Door* and with co-author Carl Peraino, *Deepest Differences: A Christian-Atheist Dialogue*. *Christian Worldview and the Academic Disciplines* is a book long overdue. It will serve as an outstanding textbook for interdisciplinary

courses But this book is more than that Christian Worldview and the Academic Disciplines is a book that everyone concerned with Christian thought especially in the context of the Academy will want to read I highly recommend it Craig A Evans Payment Distinguished Professor of New Testament Acadia Divinity College Nova Scotia WHAT IS THE TRUTH AND SPIRITUAL BLINDNESS? worker empowerment have replaced the pursuit of class interests In today s political climate socialism is seen as old fashioned or utopian In contrast capitalism is seen as realistic and the third way is presented as the solution to all our ills This book explores the real issues behind these catchphrases of modern politics explaining what they mean and offering a critique of the ideology of which they are a part
