Reason And Revelation In The Middle Ages:

Reason and Revelation in the Middle Ages Etienne Gilson,1948 *Reason and Revelation in the Middle Ages*
Etienne Gilson,1964 *Reason and Revelation in the Middle Ages...* Étienne Gilson,1954 **God and Reason in the Middle Ages** Edward Grant,2001-07-30 Between 1100 and 1600 the emphasis on reason in the learning and intellectual life of Western Europe became more pervasive and widespread than ever before in the history of human civilization Of crucial significance was the invention of the university around 1200 within which reason was institutionalized and where it became a deeply embedded permanent feature of Western thought and culture It is therefore appropriate to speak of an Age of Reason in the Middle Ages and to view it as a forerunner and herald of the Age of Reason that was to come in the seventeenth century The object of this study is twofold to describe how reason was manifested in the curriculum of medieval universities especially in the subjects of logic natural philosophy and theology and to explain how the Middle Ages acquired an undeserved reputation as an age of superstition barbarism and unreason **Jonathan Edwards's Philosophy of History** Avihu Zakai,2009-07-26 Avihu Zakai analyzes Jonathan Edwards s redemptive mode of historical thought in the context of the Enlightenment As theologian and philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards s intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards s historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards s insistence that the process of history depends solely on God s redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency Edwards strove to re establish God s preeminence within the order of time Against the de Christianization of history and removal of divine power from the historical process he sought to re enthrone God as the author and lord of history and thus to re enchant the historical world Placing Edwards s historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America *Reason and Revelation in the Middle Ages. (The Richards Lectures in the University of Virginia.).* Étienne Henry GILSON,1939 **Reason and Revelation in the Middle Ages, by Etienne Gilson** Etienne Gilson,1966 *A Thomistic Tapestry* ,2021-12-28 This book written by well known students of Etienne Gilson and especially dedicated to Armand A Maurer helps inaugurate a long overdue special series in philosophy honoring Gilson s legendary scholarship It presents wide ranging expositions of Thomist realism in the tradition of Gilsonian humanism covering themes related to philosophy in general historical method aesthetics metaphysics epistemology and politics

The Cultural Context of Medieval Learning J.E. Murdoch, E.D. Sylla, 2012-12-06

Proceedings of the First International Colloquium on Philosophy Science and Technology in the Middle Ages September 1973

The Foundations of Modern Science in the Middle Ages Edward Grant, 1996-10-28 Contrary to prevailing opinion the roots of modern science were planted in the ancient and medieval worlds long before the Scientific Revolution of the seventeenth century Indeed that revolution would have been inconceivable without the cumulative antecedent efforts of three great civilisations Greek Islamic and Latin With the scientific riches it derived by translation from Greco Islamic sources in the twelfth and thirteenth centuries the Christian Latin civilisation of Western Europe began the last leg of the intellectual journey that culminated in a scientific revolution that transformed the world The factors that produced this unique achievement are found in the way Christianity developed in the West and in the invention of the university in 1200 As this 1997 study shows it is no mere coincidence that the origins of modern science and the modern university occurred simultaneously in Western Europe during the late Middle Ages

Ethics, Exegesis and Philosophy Richard A. Cohen, 2001-07-02 The reputation and influence of Emmanuel Levinas 1906-96 has grown powerfully Well known in France in his lifetime he has since his death become widely regarded as a major European moral philosopher profoundly shaped by his

Jewish background A pupil of Husserl and Heidegger Levinas pioneered new forms of exegesis with his post modern readings of the Talmud and as an ethicist brought together religious and non religious Jewish and non Jewish traditions of contemporary thought Richard A Cohen has written a book which uses Levinas work as its base but goes on to explore broader questions of interpretation in the context of text based ethical thinking Levinas reorientation of philosophy is considered in critical contrast to alternative contemporary approaches such as those found in modern science psychology Nietzsche Freud Husserl Heidegger Sartre Merleau Ponty Derrida and Ricoeur Cohen explores a manner of philosophizing which he terms ethical exegesis A Deeper Vision Robert Royal,2015-10-30 In this wide ranging and ambitious volume Robert Royal a prominent participant for many years in debates about religion and contemporary life offers a comprehensive and balanced appraisal of the Catholic intellectual tradition in the twentieth century The Catholic Church values both Faith and Reason and Catholicism has given risen to extraordinary ideas and whole schools of remarkable thought not just in the distant past but throughout the troubled decades of the twentieth century Royal presents in a single volume a sweeping but readable account of how Catholic thinking developed in philosophy theology Scripture studies culture literature and much more in the twentieth century This involves great figures recognized as such both inside and outside the Church such as Jacques Maritain Bernard Lonergan Joseph Pieper Edith Stein Alasdair MacIntyre Charles Taylor Romano Guardini Karl Rahner Henri du Lubac Karol Wojtyla Joseph Ratzinger Hans Urs von Balthasar Charles Peguy Paul Claudel George Bernanos Francois Mauriac G K Chesterton Gerard Manley Hopkins Christopher Dawson Graham Greene Sigrid Undset J R R Tolkien Czeslaw Milosz and many more Royal argues that without rigorous thought Catholicism however welcoming and nourishing it might be would become something like a doctor with a good bedside manner but who knows little medicine It has always been the aspiration of the Catholic tradition to unite emotion and intellect action and contemplation But unless we know what the tradition has already produced especially in the work of the great figures of the recent past we will not be able to answer the challenges that the modern world poses or even properly recognize the true questions we face This is a reflective non polemical work that brings together various strands of Catholic thought in the twentieth century A comprehensive guide to the recent past and the future **Studies in Medieval Philosophy** Étienne Gilson,2019-06-21 Those new to Gilson can get a sense of the theme that dominated most of his life s work in the central essay on the historical significance of Thomism Those familiar with him will perhaps be surprised by the sympathy with which he treats the more traditional theologians who resisted Aquinas and the Latin Averroists alike Gilson prolongs his seminal demonstration of Scholastic influence on Descartes s philosophy by showing that there is also some unfortunate Scholastic influence in what we would call Descartes s natural science specifically his meteorology Both new and old Gilsonians will be intrigued by the account of how Descartes was convinced by Harvey that human blood makes a complete circulation but against Harvey offered his own clear distinct and wrongheaded account of why it does A History of Psychology William Douglas Woody,Wayne Viney,2017-03-27 A
