Causes of War Jack S. Levy, William R. Thompson, 2011-09-15 Written by leading scholars in the field Causes of War provides the first comprehensive analysis of the leading theories relating to the origins of both interstate and civil wars Utilizes historical examples to illustrate individual theories throughout Includes an analysis of theories of civil wars as well as interstate wars one of the only texts to do both Written by two former International Studies Association Presidents *The Apostolic Fathers* Apostolic Fathers, 2009-06-01 Now with a new foreword by Mark Galli A collection of the earliest known writings of the church The Apostolic Fathers includes a sermon and six brief documents the First and Second Epistles of Clement the Didache the Epistles of Ignatius the Epistle of Polycarp the Epistle about Polycarp's Martyrdom and the Shepherd of Hermas There are two ways one of life and one of death begins the Didache and between the two ways there is a great difference Followers of the way of life today will find much encouragement of those who first embarked on the path two millennia ago The John Lightfoot 1602 1675 translation was the source used for this edition of Apostolic Fathers **Early Christian Fathers** Cyril Charles Richardson, 1953 **The Morality of Nations** Cecil Delisle Burns, 1915 **Reason's Muse** Geneviève Fraisse, 1994-05-28 The French Revolution proclaimed the equality of all human beings yet women remained less than equal in the new society The exclusion of women at the birth of modern democracy required considerable justification and by tracing the course of this reasoning through early nineteenth century texts Geneviève Fraisse maps a moment of crisis in the history of sexual difference Through an analysis of literary religious legal philosophical and medical texts Fraisse links a range of positions on women's proper role in society to specific historical and rhetorical circumstances She shows how the Revolution marked a sharp break in the way women were represented in language as traditional bantering about the war of the sexes gave way to serious discussions of the political and social meanings of sexual difference Following this discussion on three different planes the economical the political and the biological Fraisse looks at the exclusion of women against the backdrop of democracy's inevitable lie the affirmation of an equality so abstract it was

impossible to concretely apply This study of the place of sexual equality in the founding moment of democracy offers insight into a persistent question whether female emancipation is to be found through the achievement of equality with men or in the celebration of female difference

The Interpretation of The Meaning of The Holy Quran Volume 41 - Surah Al Hajj' Nasoha Bin Saabin, I have written many books and articles on various topics but since 2013 I have devoted myself fully in writing the interpretation of the Holy Quran in English and with the grace of Allah I have completed the whole Quran on 29th October 2020 with 84 books I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English Currently there is a great misunderstanding about Islam among Muslims and non Muslims globally The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non Muslims The wrong actions of the Muslims have led to many miseries and wars among Muslims The wrong actions of Muslims have also led to many wars and clashes between Muslims and non Muslims In order to avoid miseries wars and clashes from taking place between the whole mankind in the whole world the whole mankind in the whole world need to understand the true teaching of Islam There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world English For this very reason I have written the interpretation of the Holy Quran in English Prof Nasoha Bin Saabin

Strategic Rivalries in World Politics Michael P. Colaresi, Karen Rasler, William R. Thompson, 2008-01-10 International conflict is neither random nor inexplicable It is highly structured by antagonisms between a relatively small set of states that regard each other as rivals Examining the 173 strategic rivalries in operation throughout the nineteenth and twentieth centuries this book identifies the differences rivalries make in the probability of

conflict escalation and analyzes how they interact with serial crises arms races alliances and capability advantages The authors distinguish between rivalries concerning territorial disagreement space and rivalries concerning status and influence position and show how each leads to markedly different patterns of conflict escalation They argue that rivals are more likely to engage in international conflict with their antagonists than non rival pairs of states and conclude with an assessment of whether we can expect democratic peace economic development and economic interdependence to constrain rivalry induced conflict

Analyzing Strategic Rivalries in World Politics William R. Thompson, Kentaro Sakuwa, Prashant Hosur Suhas, 2021-11-20 Strategic rivalries are contests between states that view one another as threatening competitors and treat each other as enemies A disproportionate amount of interstate conflict is generated by a relatively small number of these pairs of states engaged in rivalries that can persist for years Thus to understand interstate peace and conflict it is useful to know how rivalries work in general and more specifically In the past two decades a strenuous effort has been mounted to introduce the concept of rivalry and demonstrate its utility in unraveling conflict situations Yet all rivalries are not exactly alike We need to move to a more rewarding differentiation of how they differ in general Principal rivalries are those antagonisms that are most significant to the decision makers in a state The main distinction on issues about which rivals dispute are positional and spatial concerns Positional rivalries contend over regional and global influence Spatial rivals contend over which state deserves to control disputed territory Interventionary rivalries predominate in sub Saharan Africa Their primary focus involves neighboring states attempting to influence who rules and how co ethnics are treated This book updates the inventory of strategic rivalries from 1816 to 2020 Principal rivalries are identified for the first time and cover the same period A theory stressing the two main types of rivalry positional and spatial is elaborated and tested Regional variations on the origins and terminations of spatial rivalry are explored and interpreted In addition attention is paid to fluctuations in the intensity of positional rivalries by examining the working of the contemporary major power triangle United States Soviet Union Russia and China and more generally the dynamics of regional power that are rising in terms of their relative capability and status in the system Variations in cooperation and termination dynamics both in general and according to rivalry type are also examined Overall the emphases of the book are split between demonstrating the utility of distinguishing among rivalry types and examining selected rivalry dynamics
