Reasonable Death

Friedrich Wilhelm Nietzsche

Reasonable Death:

Death and Immortality R.W. Perrett, 2013-11-11 The research for this work was undertaken during my tenure of a Senior Tutor ship in the Faculty of Arts and Music at the University of Otago 1983-85 Versions of some of the chapters herein have already been accepted for publication in the form of journal articles in *Philosophy*, *Philosophy East and West*, *Sophia* and *Religious Studies* My thanks to the editors and publishers concerned for permission to reuse this material A number of people have assisted me in various ways My greatest debt is to Graham Oddie who supervised my doctoral research in this area and with whom I have had the benefit of innumerable discussions on these and other philosophical matters I am very grateful for all I have learned from him I would also like to thank Bob Durrant for commenting helpfully on Chapter 2 the late Jim Harvie both for his valuable suggestions particularly regarding the material of Chapter 4 and for his encouraging enthusiasm for the whole project George Hughes for his extensive comments on the whole work and for various points of detail Alan Musgrave Charles Pigden and Bryan Wilson Despite much good advice however I have some times preferred to go my own way recalling Blake's proverb If the fool would persist in his folly he would become wise With regard to the typing of the manuscript I am indebted to the word processor wizardry of Jane Tannahill and Christine Colbert [Human, All Too Human](#) Friedrich Nietzsche, 2013-08-01 German scholar and thinker Friedrich Nietzsche began his career as a linguist and philologist but over time his work became increasingly philosophical in its scope He came to embrace a radical point of view that prized personal freedom and choice over virtually everything else In *Human All Too Human* Nietzsche explores the triumphs and tragic shortfalls of human nature in an eminently readable series of aphorisms and short vignettes [What World Is This?](#) Judith Butler, 2022-11-08 The pandemic compels us to ask fundamental questions about our place in the world the many ways humans rely on one another how we vitally and sometimes fatally breathe the same air share the surfaces of the earth and exist in proximity to other porous creatures in order to live in a social world What we require to live can also imperil our lives How do we think from and about this common bind Judith Butler shows how COVID 19 and all its consequences political social ecological economic have challenged us to reconsider the sense of the world that such disasters bring about Drawing on the work of Max Scheler Maurice Merleau-Ponty and critical feminist phenomenology Butler illuminates the conditions in which we seek to make sense of our disorientation precarity and social bonds *What World Is This?* offers a new account of interdependency in which touching and breathing capacities that amid a viral outbreak can threaten life itself challenge the boundaries of the body and selfhood Criticizing notions of unlimited personal liberty and the killing forces of racism sexism and classism this book suggests that the pandemic illuminates the potential of shared vulnerabilities as well as the injustice of pervasive inequalities Exposing and opposing forms of injustice that deny the essential interrelationship of living creatures Butler argues for a radical social equality and advocates modes of resistance that seek to establish new conditions of livability and a new sense of a shared world *Minnesota reports*, 1910 [Human](#),
