*Inductive Logic* Dov M. Gabbay, John Hayden Woods, 2004 In designing the Handbook of the History of Logic the Editors have taken the view that the history of logic holds more than an antiquarian interest and that a knowledge of logic's rich and sophisticated development is in various respects relevant to the research programmes of the present day Ancient logic is no exception The present volume attests to the distant origins of some of modern logic's most important features such as can be found in the claim by the authors of the chapter on Aristotle's early logic that from its infancy the theory of the syllogism is an example of an intuitionistic non monotonic relevantly paraconsistent logic Similarly in addition to its comparative earliness what is striking about the best of the Megarian and Stoic traditions is their sophistication and originality

Vuysje,2013-03-09 **The Powers of Dignity** Nick Bromell,2021-01-04 In The Powers of Dignity Nick Bromell unpacks Frederick Douglass s 1867 claim that he had elaborated a political philosophy from his own slave experience Bromell shows that Douglass devised his philosophy because he found that antebellum Americans liberal republican understanding of democracy did not provide a sufficient principled basis on which to fight anti Black racism To remedy this deficiency Douglass deployed insights from his distinctively Black experience and developed a Black philosophy of democracy He began by contesting the founders racist assumptions about humanity and advancing instead a more robust theory of the human as a collection of human powers He asserted further that the conscious exercise of those powers is what confirms human dignity

and that human rights and democracy come into being as ways to affirm and protect that dignity Thus by emphasizing the powers and the dignity of all citizens deriving democratic rights from these and promoting a remarkably activist power oriented model of citizenship Douglass s Black political philosophy aimed to rectify two major failings of US democracy in his time and ours its complacency and its racism      *Understanding and Evaluating Research* Sue L.
