Reassessing English The New Accents Library Collection:

Reassessing English Terrence Hawkes, 2002-10-17 These three volumes are part of the forty one volume set New Accents First launched in 1977 the New Accents series rapidly changed the face of literary studies Its clear and concise volumes brought the latest in literary theory to students and academics and paved the way for undergraduate teaching on essential new topics and approaches *Guide to Reprints* ,2009 **Resources in Education** ,1996-04 *Romantic Reassessment* ,1972 *Research in Education* ,1970 **Literary Communication as Dialogue** Roger D. Sell, 2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell s ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through Wordsworth and Coleridge to Dickens Pinter and Rushdie **Readers and Society in Nineteenth-Century France** M. Lyons, 2001-07-24 In the nineteenth century the reading public expanded to embrace new categories of consumers especially of cheap fiction These new lower class and female readers frightened liberals Catholics and republicans alike The study focuses on workers women and peasants and the ways in which their reading was constructed as a social and political problem to analyse the fear of reading in nineteenth century France The author presents a series of case studies of actual readers to examine their choices and their practices and to evaluate how far they responded to or subverted attempts at cultural domination *Creolizing the Modern* Anca Parvulescu, Manuela Boatcă, 2022-10-15 How are modernity coloniality and interimperiality entangled Bridging the humanities and social sciences Anca Parvulescu and Manuela Boatcă provide innovative decolonial perspectives that aim to creolize modernity and the modern world system Historical Transylvania at the intersection of the Habsburg Empire the Ottoman Empire Austria Hungary and Russia offers the platform for their multi level reading of the main themes in Liviu Rebreanu s 1920 novel *Ion* Topics range from the question of the region s capitalist integration to antisemitism and the enslavement of Roma to multilingualism gender relations and religion *Creolizing the Modern* develops a comparative method for engaging with areas of the world that have inherited multiple conflicting imperial and anti imperial histories **Learning Languages in Early Modern England** John Gallagher, 2019-08-29 In 1578 the Anglo Italian author translator and teacher John Florio wrote that

English was a language that wyl do you good in England but passe Dover it is woorth nothing Learning Languages in Early Modern England Learning Languages in Early Modern England is the first major study of how English speakers learnt a variety of continental vernacular languages in the period between 1480 and 1720 English was practically unknown outside of England which meant that the English who wanted to travel and trade with the wider world in this period had to become language learners Using a wide range of printed and manuscript sources from multilingual conversation manuals to travellers diaries and letters where languages mix and mingle Learning Languages explores how early modern English speakers learned and used foreign languages and asks what it meant to be competent in another language in the past Beginning with language lessons in early modern England it offers a new perspective on England s educational revolution John Gallagher looks for the first time at the whole corpus of conversation manuals written for English language learners and uses these texts to pose groundbreaking arguments about reading orality and language in the period He also reconstructs the practices of language learning and multilingual communication which underlay early modern travel Learning Languages in Early Modern England offers a new and innovative study of a set of practices and experiences which were crucial to England s encounter with the wider world and to the fashioning of English linguistic and cultural identities at home Interdisciplinary in its approaches and broad in its chronological and thematic scope this volume places language learning and multilingualism at the heart of early modern British and European history [History of Universities: Volume XXXV / 1](#) Mordechai Feingold,2022 This special edition of History of Universities Volume XXXV 1 studies and reappraises the often ignored history of eighteenth century Oxford caught as it is between the upheavals of the Stuart century and the reformation of the Victorian era [Forthcoming Books](#) Rose Arny,2002 *Smart People Should Build Things* Andrew Yang,2014-02-04 Andrew Yang the founder of Venture for America offers a unique solution to our country s economic and social problems our smart people should be building things Smart People Should Build Things offers a stark picture of the current culture and a revolutionary model that will redirect a generation of ambitious young people to the critical job of innovating and building new businesses As the Founder and CEO of Venture for America Andrew Yang places top college graduates in start ups for two years in emerging U S cities to generate job growth and train the next generation of entrepreneurs He knows firsthand how our current view of education is broken Many college graduates aspire to finance consulting law school grad school or medical school out of a vague desire for additional status and progress rather than from a genuine passion or fit In Smart People Should Build Things this self described recovering lawyer and entrepreneur weaves together a compelling narrative of success stories including his own offering observations about the flow of talent in the United States and explanations of why current trends are leading to economic distress and cultural decline He also presents recommendations for both policy makers and job seekers to make entrepreneurship more realistic and achievable **Shakespeare in the New World** B. A. W. Jackson,Berners A. W. Jackson,1972 **Elizabethan Occult Poetics** Rachel White,2025-08-27 Elizabethan Occult

Poetics argues that occult tradition influenced the development of vernacular poetics during the sixteenth century and explores the ways in which discourses from the occult tradition ranging from the scientific to the magical were actively absorbed into both the theory and practice of English poetics This study examines the absorption of occult discourses into the theory and practice of poetry as well as their presence in poetic content Beginning with John Dee s fascination with the geometrical foundation of alphabets and language Elizabethan Occult Poetics goes back to tittles and jots and the building blocks of affective language before turning to the attempts of Philip Sidney and his contemporaries to create an efficacious English poetic tradition The second part of the book focuses on the incorporation of occult discourses as content and writers negotiations of competing theories between the arcane and the scientific through chapters on cosmology and light in the work of Giordano Bruno and Fulke Greville optics in George Chapman s vernacular poetry and magnetism in Edmund Spenser s *The Fairie Queene* This study shows that sixteenth century poets pursued an affective and efficacious poetic tradition via the incorporation of occult discourses in theory practice and content

The Castaway's Tale Evan Balkan,2025-02-20 In 1729 a remarkable book appeared in London The author Robert Drury took up residence at Old Tom s coffeehouse in the center of the city welcoming the curious to hear his incredible tale a voyage to Asia on an East India ship floundering off the coast of Madagascar and at just fourteen years of age how Drury became enslaved on that island for the next decade and a half before a miraculous return to England But did Drury actually write the book that bore his name Or was it an invention from none other than Daniel Defoe author of *Robinson Crusoe* the famous but fictionalized castaway story based on true events Or was Drury s story real and was Defoe unnamed and unattributed the man who put the book together based on what Drury told him Drawing from newly available archival material this work tells the full story of Robert Drury Daniel Defoe and the connection between them piecing together the puzzle of their potential collaboration and presenting a fuller biography of Drury than previously available The result is a story as full of twists and turns as Drury s own

Poetry Off the Page Laura Severin,2017-03-02 This study examines the performed poetry of Charlotte Mew Anna Wickham Edith Sitwell Stevie Smith Liz Lochhead and Jackie Kay as an alternative radical tradition of British poetry developed to convey women s experience Through a historical treatment in which the poets are discussed in pairs the chapters trace how these six women used a performative poetry to deal with difficulties regarding women s representation from simply presenting difference in the case of Mew and Wickham to deconstructing difference in the case of Sitwell and Smith to avoiding the recapture of cultural imagery in the case of Lochhead and Kay Laura Severin claims that twentieth century British women poets have been neglected by both feminist and more traditional literary critics because they cannot be read within available literary frameworks Feminist criticism in particular has overlooked the value of other poetic ancestries by locating the only radical tradition of modern poetry in fractured form At least one alternative radical tradition can be found in a narrative and performed poetry that maximizes its transgressive potential with multiple framing devices Though a female poet always

experiences difficulty in controlling both cultural imagery and her own public presentation these framing devices work together both to deconstruct the essentialized category of woman and to recover the multiplicity of women s experience
