Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley,2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world s next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping s best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao s China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People s Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level

Monarchies 1000-2000 W. M. Spellman,2004-04-01 Monarchies 1000 2000 surveys a form of government whose legitimacy rests not on voluntary consensus but on age old custom heredity and or religious sanction Global in scope and comparative in approach W M Spellman s survey establishes connections between monarchy as idea and practice in a variety of historical and cultural contexts across a millennium when the system was without serious rival Spellman examines the intellectual assumptions behind different models of monarchy tracing the ways in which each of these assumptions shifted in response to historical factors While no human institution has retreated as rapidly in the modern period monarchy s remarkable longevity invites us to weigh the significance of hierarchy subordination and dependence as constants of the human experience

Institutions in Transition Peter Ho, 2005-07-21 China's urban sprawl has led to serious social cleavages Unclear land and property rights have resulted in an uneasy alliance between real estate companies and local authorities with most willing to strike illegal deals over land The results have been devastating Farmers live in fear that the land they till today will be gone tomorrow while urban citizens are regularly evicted from their homes to make way for new skyscrapers and highways These shocking incidents underscore the urgency of the land question in China The recent conviction of the Chinese Minister for Land Resources and the forced evictions that have led to the injury and death of ordinary Chinese citizens highlight the case for land reform Against this backdrop many scholars criticize China's lack of privatization and titling of property This monograph however demonstrates that these critically depend on timing and place Land titling is imperative for the wealthier regions yet may prove detrimental in areas with high poverty The book argues that China's land reform can only succeed if the clarification of property rights is done with caution and ample regard for regional variations **Mao S.G.**

Breslin, 2014-06-17 A lucid analysis of Mao as revolutionary general ideologist and astute political manipulator this introduction to the life and career of Mao Zedong provides an excellent introduction to modern Chinese history and its enigmatic protagonist *The Politics of Controlling Organized Crime in Greater China* Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People's Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly *Insurgency and Social Disorder in Guizhou* Robert Darrah Jenks, 1994-01-01 Textbooks and general histories of modern China agree that the so called Miao rebellion constituted one of the major rebellions of the nineteenth century It

lasted for twenty years caused devastation of such severity that its effects were still obvious to travelers in Guizhou province decades later and by one account resulted in the deaths of more than four million people In an impressive presentation of material drawn from local histories private writings and official documents Jenks argues that the Qing government sought to lay the blame for the turmoil squarely on an ethnic minority it regarded as obstreperous and inferior As well as altering perceptions of the rebellion *Insurgency and Social Disorder in Guizhou* enhances our understanding of the causes of the rebellion and its place in the crises that beset mid nineteenth century China It contributes to the sociology of rebellion and peasant movements and is a valuable supplement to current anthropological work on Chinese minorities Its treatment of Qing attitudes toward the Miao has implications for minority policies in the Peoples Republic of China today

Revolutionary Armies in the Modern Era S.P. Mackenzie, 2013-01-11 This presents a major re evaluation of the standard view of revolutionary armies the range of attitudes towards the role of heroic individuals the formation and leadership of armies and the differences and similarities between such armies Beginning with an exploration of the New Model Army of the 1640s a force whose name itself seems to denote its revolutionary credentials the author presents ten case studies from around the globe including the American War of Independence The French Revolution The Zulu Boer War the Waffen SS and the Viet Cong Through a detailed analysis of source material he examines the images connected with these armies both historical and recent and assesses these images in their socio political and nationalist contexts **The Political Determinants of Corporate Governance in China** Chenxia Shi, 2012-03-15 This book investigates the key factors shaping corporate governance in China and presents a sophisticated study of corporate governance in China from a comparative and historical perspective Drawing on extensive corporate governance literature this book articulates why path dependence theory is the most effective framework for interpreting the development path of Chinese corporate governance Chenxia Shi reviews the historical role of government in commercial development and regulation in dynastic China and in early corporate law making followed by an account of China s legal and economic development over the last three decades This historical inquiry identifies government control as the key feature of economic and market regulation in China In particular this book canvasses the evolution of governance of State Owned Enterprises and listed companies major corporate governance problems regulatory challenges posed by China s increasing participation in economic globalization and enforcement difficulties particularly in relation to investor protection directors duties and accountability Ultimately *Political Determinants of Corporate Governance in China* demonstrates that corporate governance in China is largely determined by political imperatives and those political imperatives have been shaped and re shaped in a historical process **Chinese Fiction of the Cultural Revolution** Lan Yang, 1998-07-01 The book covers the choice of subject matter authorship and readership of Cultural Revolution fiction It analyses the characterization of heroes promoted in the literary and artistic field during this period By comparing Cultural Revolution fiction with the fiction of the preceding period with Soviet fiction and

with some traditional Chinese and Western fiction this analysis emphasizes the ideological and cultural significance of the characteristics shown in the heroes personal background and their physical temperamental and behavioural qualities etc This book will be of significant benefit to both students and scholars of Chinese literature language and society **Party Vs. State in Post-1949 China** Shiping Zheng, 1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state **Taking Christianity to China** Samuel Paul Garner, 1976 Beginning early in the 19th century the American missionary movement made slow headway in China Alabamians became part of that small beachhead After 1900 both the money and personnel rapidly expanded peaking in the early 1920s By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor Secular American intellectuals began to criticize missionaries as meddling do gooders trying to impose American Evangelicalism on a proud ancient culture By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950 Flynt and Berkley reach a different conclusion Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen they quickly learned to respect Chinese civilization The result was a new synthesis neither entirely southern nor entirely Chinese Although previous works focus on the failure of Christianity to change China this book focuses on the degree to which their service in China changed Alabama missionaries And the change was profound In their consideration of 47 missionaries from a single state their call to missions preparation for service in China living working contacts back home cultural clashes political views internal conflicts and gender relations the authors suggest that the efforts by Baptist Methodist and Presbyterian missionaries from Alabama were not the failure judged by many historians In fact the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million **Taking Christianity to China** Wayne Flynt, Gerald W. Berkley, 1997-01-30 Beginning early in the 19th century the American missionary movement made slow headway in China Alabamians became part of that small beachhead After 1900 both the money and personnel rapidly expanded peaking in the early 1920s By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor

Secular American intellectuals began to criticize missionaries as meddling do gooders trying to impose American Evangelicalism on a proud ancient culture By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950 Flynt and Berkley reach a different conclusion Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen they quickly learned to respect Chinese civilization The result was a new synthesis neither entirely southern nor entirely Chinese Although previous works focus on the failure of Christianity to change China this book focuses on the degree to which their service in China changed Alabama missionaries And the change was profound In their consideration of 47 missionaries from a single state their call to missions preparation for service in China living working contacts back home cultural clashes political views internal conflicts and gender relations the authors suggest that the efforts by Baptist Methodist and Presbyterian missionaries from Alabama were not the failure judged by many historians In fact the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million

How China Became Capitalist R. Coase, N. Wang, 2016-04-30 How China Became Capitalist details the extraordinary and often unanticipated journey that China has taken over the past thirty five years in transforming itself from a closed agrarian socialist economy to an indomitable economic force in the international arena The authors revitalise the debate around the

rise of the Chinese economy through the use of primary sources persuasively arguing that the reforms implemented by the Chinese leaders did not represent a concerted attempt to create a capitalist economy and that it was marginal revolutions that introduced the market and entrepreneurship back to China Lessons from the West were guided by the traditional Chinese principle of seeking truth from facts By turning to capitalism China re embraced her own cultural roots How China Became Capitalist challenges received wisdom about the future of the Chinese economy warning that while China has enormous potential for further growth the future is clouded by the government's monopoly of ideas and power Coase and Wang argue that the development of a market for ideas which has a long and revered tradition in China would be integral in bringing about the Chinese dream of social harmony
