Recent Advances In Paediatrics:

Recent Advances in Paediatrics - 29 Gautam Kulkarni, 2023-03-10 Recent Advances in Paediatrics 29 features an outstanding collection of articles relevant to paediatricians and health professionals working with children and adolescents across the world. The book reflects the changing landscape in paediatrics with significant emphasis on adolescent health both physical and mental and references the role of technology and innovations such as conversational artificial intelligence AI and ChatGPT in improving outcomes. Other topics include prenatal screening and diagnosis of genetic defects, advances in neonatal care, a systematic approach towards orthopaedic management of cerebral palsy, bone health and osteoporosis, as well as advances in surgery and urology. The text features chapters on safer care for sick children with the role of safety checklists and escalation of care using hub and spoke models covered in depth to encourage universal high standards of care. This book is a compelling read for medical students explaining aspects of paediatrics often not covered in conventional textbooks and furthermore provides an effective revision tool for DCH and MRCPCH examinations. It will also be of interest to practising clinicians wishing to keep up to date with the latest advances in their field. All chapters are written by expert authors ensuring authoritative and accurate content and full colour photographs supplement and enhance the comprehensive text.

Recent Advances in Paediatrics: 27 Ian Maconochie, 2015-09-26 Recent Advances in Paediatrics 27 features a collection of in-depth reviews of the latest developments in the field. Written in an accessible and easy-to-read format and featuring such topics as developmental dysplasia of the hips, paediatric simulation training and paediatric sports medicine, each chapter provides a comprehensive overview and emphasises the salient points of interest. This latest volume in the series is an invaluable resource for busy clinicians and those sitting MRCPCH membership examinations. 12 chapters summarising important recent advances within the field of paediatrics. All topics are written in a practical and clinically relevant manner, further enhanced by the key points for clinical practice sections at the end of each chapter. Provides an effective exam revision tool for the DCH and MRCPCH. All chapters written by expert authors ensuring authoritative and accurate content. Full colour photographs throughout.

Recent Advances in Paediatrics: 28 Ian Maconochie, 2017-03-18 Recent Advances in Paediatrics 28 is the ideal resource for keeping abreast of new developments in this constantly changing field. Written by expert authors and featuring topics such as pre-school speech language and fluency impairments and fertility preservation for young people with cancer, each chapter highlights the latest developments of relevance to clinical practice. This book is an invaluable update and revision tool for trainees preparing for postgraduate examinations. 9 chapters summarising important recent advances within the field of paediatrics. All topics are written in a practical and clinically relevant manner, further enhanced by the key points for clinical practice sections at the end of each chapter. Provides an effective exam revision tool for the DCH and MRCPCH. All chapters written by expert authors ensuring authoritative and accurate content. Full colour photographs throughout.
