## **Recent American Poetry:**

*The New American Poetry, 1945-1960* Donald Allen, 1999 Donald Allen's prophetic anthology had an electrifying effect on two generations at least of American poets and readers. More than the repetition of familiar names and ideas that most anthologies seem to be about here was the declaration of a collective intelligent and thoroughly visionary work in progress, the primary example for its time of the anthology as manifesto. Its republication today complete with poems statements on poetics and autobiographical projections provides us again with a model of how a contemporary anthology can and should be shaped. In these essentials it remains as fresh and useful a guide as it was in 1960. Jerome Rothenberg, editor of *Poems for the Millennium*. *The New American Poetry* is a crucial cultural document central to defining the poetics and the broader cultural dynamics of a particular historical moment. Alan Golding, author of *From Outlaw to Classic: Canons in American Poetry*.

*The Best American Poetry 2022* David Lehman, Matthew Zapruder, 2022-09-13 Updated annually and collected from electronic and print journals, an anthology showcases recent work from the best known and up and coming contemporary poets.

**Modern American Poetry** Harold Bloom, 2005 The essays collected in this volume survey the major works of modern American poetry from magnificent epics like Hart Crane's *The Bridge* and Wallace Stevens's *Auroras of Autumn* to such central lyrics as Eliot's *The Love Song of J. Alfred Prufrock* and Marianne Moore's *Poetry*; the complexity of modern American poetry has demanded appreciation and analysis of an especially high order and the list of critics included here makes up a veritable all star team of close readers from Kenneth Burke to Helen Vendler from Richard Poirier to David Bromwich.

**The New Anthology of American Poetry** Steven Gould Axelrod, Camille Roman, Thomas J. Travisano, 2003 Overview Steven Gould Axelrod, Camille Roman and Thomas Travisano continue the standard of excellence set in Volumes I and II of this extraordinary anthology. Volume III provides the most compelling and wide ranging selection available of American poetry from 1950 to the present. Its contents are just as diverse and multifaceted as America itself and invite readers to explore the world of poetry in the larger historical context of American culture. Nearly three hundred poems allow readers to explore canonical works by such poets as Elizabeth Bishop, Robert Lowell and Sylvia Plath as well as song lyrics from such popular musicians as Bob Dylan and Queen Latifah. Because contemporary American culture transcends the borders of the continental United States, the anthology also includes numerous transnational poets from Julia de Burgos to Derek Walcott. Whether they are the works of oblique avant gardists like John Ashbery or direct populist poets like Allen Ginsberg, all of the selections are accompanied by extensive introductions and footnotes making the great poetry of the period fully accessible to readers for the first time.

*The New Era in American Poetry* Louis Untermeyer, 1919 For contents see Author Catalog.

**Walks in the World** Roger Gilbert, 2014-07-14 In the twentieth century no form of experience has been more frequently taken up by poets eager to capture both the openness and fluidity of life and the aesthetic closure of an artwork than that of a walk Examining the walk poem Roger Gilbert contends that at its heart is the desire to keep what we have lived What is the appeal of the

walk poem for modern American poets According to Gilbert it provides a ready made frame within which to explore the full range of individual consciousness as it responds to and reflects on the world immediately at hand The unstructured plotless character of the walk allows poets to move freely from place to place image to image thought to thought Suggesting that the walk poem strikes a compromise between the American obsession with process or movement and more traditionally mimetic concerns Gilbert shows how it enables the poet to apprehend the world as horizon rather than landscape Through perceptive and extended analyses of walk poems by Frost Stevens Williams Roethke Bishop O Hara Snyder Ammons and Ashbery he uncovers a spectrum of representational strategies for transforming passing experiences into the more lasting substance of poetry Walks in the World addresses anyone who takes poetry seriously Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
