Recent Developments In Complex Analysis And Computer Algebra:

Recent Developments in Complex Analysis and Computer Algebra R.P. Gilbert,Joji Kajiwara,Yongzhi S. Xu,2013-12-01 This volume consists of papers presented in the special sessions on Complex and Numerical Analysis Value Distribution Theory and Complex Domains and Use of Symbolic Computation in Mathematics Education of the ISAAC 97 Congress held at the University of Delaware during June 2 7 1997 The ISAAC Congress coincided with a U S Japan Seminar also held at the University of Delaware The latter was supported by the National Science Foundation through Grant INT 9603029 and the Japan Society for the Promotion of Science through Grant MTCS 134 It was natural that the participants of both meetings should interact and consequently several persons attending the Congress also presented papers in the Seminar The success of the ISAAC Congress and the U S Japan Seminar has led to the ISAAC 99 Congress being held in Fukuoka Japan during August 1999 Many of the same participants will return to this Seminar Indeed it appears that the spirit of the U S Japan Seminar will be continued every second year as part of the ISAAC Congresses We decided to include with the papers presented in the ISAAC Congress and the U S Japan Seminar several very good papers by colleagues from the former Soviet Union These participants in the ISAAC Congress attended at their own expense *Analytic Tomography* Andrew Markoe,2006-01-23 This study contains elementary introductions to properties of the Radon transform plus coverage of more advanced topics Proceedings of the Second ISAAC Congress Heinrich G.W. Begehr,R.P. Gilbert,Joji Kajiwara,2013-12-01 This book is the Proceedings of the Second ISAAC Congress ISAAC is the acronym of the International Society for Analysis its Applications and Computation The president of ISAAC is Professor Robert P Gilbert the second named editor of this book e mail gilbert math udel edu The Congress is world wide valued so highly that an application for a grant has been selected and this project has been executed with Grant No 11 56 from the Commemorative Association for the Japan World Exposition 1970 The finance of the publication of this book is exclusively the said Grant No 11 56 from Thus a pair of each one copy of two volumes of this book will be sent to all contributors who registered at the Second ISAAC Congress in Fukuoka free of charge by the Kluwer Academic Publishers Analysis is understood here in the broad sense of the word includ ing differential equations integral equations functional analysis and function theory It is the purpose of ISAAC to promote analysis its applications and its interaction with computation With this objective ISAAC organizes international Congresses for the presentation and dis cussion of research on analysis ISAAC welcomes new members and those interested in joining ISAAC are encouraged to look at the web site http www math udel edu gilbert isaac index html vi and http www math fu berlin de rd ag isaac newton index html **New Trends in Analysis and Interdisciplinary Applications** Pei Dang,Min Ku,Tao Qian,Luigi G. Rodino,2017-04-18 This book presents a collection of papers from the 10th ISAAC Congress 2015 held in Macau China The papers prepared by respected international experts address recent results in Mathematics with a special focus on Analysis By structuring the content according to the various mathematical topics the volume offers

specialists and non specialists alike an excellent source of information on the state of the art in Mathematical Analysis and its interdisciplinary applications   Finite or Infinite Dimensional Complex Analysis and Applications Le Hung Son,Wolfgang Tutschke,Chung-Chun Yang,2013-12-01 There is almost no field in Mathematics which does not use Mathe matical Analysis Computer methods in Applied Mathematics too are often based on statements and procedures of Mathematical Analysis An important part of Mathematical Analysis is Complex Analysis because it has many applications in various branches of Mathematics Since the field of Complex Analysis and its applications is a focal point in the Vietnamese research programme the Hanoi University of Technology organized an International Conference on Finite or Infinite Dimensional Complex Analysis and Applications which took place in Hanoi from August 8 12 2001 This conference th was the 9 one in a series of conferences which take place alternately in China Japan Korea and Vietnam each year The first one took place th at Pusan University in Korea in 1993 The preceding 8 conference was th held in Shandong in China in August 2000 The 9 conference of the was the first one which took place above mentioned series of conferences in Vietnam Present trends in Complex Analysis reflected in the present volume are mainly concentrated in the following four research directions 1 Value distribution theory including meromorphic funtions mero morphic mappings as well as p adic functions over fields of finite or zero characteristic and its applications 2 Holomorphic functions in several finitely or infinitely many com plex variables 3 Clifford Analysis i e complex methods in higher dimensional real Euclidian spaces 4 Generalized analytic functions

Computer Algebra in Scientific Computing CASC 2001 Viktor G. Ganzha,Ernst W. Mayr,Evgenii V. Vorozhtsov,2012-12-06 CASC 2001 continues a tradition started in 1998 of international con ferences on the latest advances in the application of computer algebra systems to the solution of various problems in scientific computing The three ear CASs lier conferences in this sequence CASC 98 CASC 99 and CASC 2000 were held Petersburg Russia in Munich Germany and in Samarkand respectively in St Uzbekistan and proved to be very successful We have to thank the program committee listed overleaf for a tremendous job in soliciting and providing reviews for the submitted papers There were more than three reviews per submission on average The result of this job is reflected in the present volume which contains revised versions of the accepted papers The collection of papers included in the proceedings covers various topics of computer algebra methods algorithms and software applied to scientific computing In particular five papers are devoted to the implementation of the analysis of involutive systems with the aid of CASso The specific examples include new efficient algorithms for the computation of Janet bases for monomial ideals involutive division involutive reduction method etc A number of papers deal with application of CASs for obtaining and vali dating new exact solutions to initial and boundary value problems for partial differential equations in mathematical physics Several papers show how CASs can be used to obtain analytic solutions of initial and boundary value problems for ordinary differential equations and for studying their properties   *Complex Analysis and Geometry* Vincenzo Ancona,Edoardo Ballico,A.
