America today *The Oxford Handbook of Early Modern Women's Writing in English, 1540-1700* Elizabeth

Scott-Baumann, Danielle Clarke, Sarah C. E. Ross, 2022-09-22 The Oxford Handbook of Early Modern Women's Writing in English 1540-1700 brings together new work by scholars across the globe from some of the founding figures in early modern women's writing to those early in their careers and defining the field now. It investigates how and where women gained access to education, how they developed their literary voice through varied genres including poetry, drama, and letters, and how women cultivated domestic and technical forms of knowledge from recipes and needlework to medicines and secret codes. Chapters investigate the ways in which women's writing was an integral part of the intellectual culture of the period, engaging with male writers and traditions while also revealing the ways in which women's lives and writings were often distinctly different from women prophetesses to queens, widows, and servants. It explores the intersections of women writing in English with those writing in French, Spanish, Latin, and Greek in Europe and in New England, and argues for an archipelagic understanding of women's writing in Scotland, Wales, Ireland, and England. Finally, it reflects on and challenges the methodologies which have developed in and with the field: book and manuscript history, editing, digital analysis, premodern critical race studies, network theory, queer theory, and feminist theory. The Oxford Handbook of Early Modern Women's Writing in English 1540-1700 captures the most innovative work on early modern women's writing in English at present.
