and future responses to these critical problems *How Cities Will Save the World* brings together authors with frontline experience in the fields of city redevelopment urban infrastructure healthcare planning immigration historic preservation and local government administration They not only offer their ground level view of threats caused by climate change population shifts and economic inequality but they provide solution driven narratives identifying promising innovations to help cities tackle this century's greatest adversities

**Ecology of Cities and Towns** Mark J. McDonnell, Amy K. Haas, Jürgen H. Breuste, 2009-06-25 The unprecedented growth of cities and towns around the world coupled with the unknown effects of global change has created an urgent need to increase ecological understanding of human settlements in order to develop inhabitable sustainable cities and towns in the future Although there is a wealth of knowledge regarding the understanding of human organisation and behaviour there is comparably little information available regarding the ecology of cities and towns This book brings together leading scientists landscape designers and planners from developed and developing countries around the world to explore how urban ecological research has been undertaken to date what has been learnt where there are gaps in knowledge and what the future challenges and opportunities are

Developing Ecological Consciousness Christopher Uhl, 2003-12-09 A second edition of this textbook is now available *Developing Ecological Consciousness* offers an ecology based wonder filled initiation to the Universe and the Planet Earth It examines the ways in which humans are damaging the Earth and their own bodies and spirits The book presents paradigms values and tools essential for both planetary and personal transformation

**The Front Yard War** Wred Fright, 2025-01-19 Jane Carcrashski is getting a divorce Jane Carcrashski is looking for a new career Jane Carcrashski is getting good at hiding her nervous breakdown But one thing Jane Carcrashski is not doing is cutting the grass You see her estranged husband says he'll do it and she's making sure he keeps his word Unfortunately he's real busy so he hasn't had time to do it but he says he'll be over tonight If not tonight then the next day OK maybe this weekend Well something came up so next weekend In the meantime the grass is growing and we're past No Mow May into Angry Neighbors And Government Code Violations June and Jane is thrust into an armed standoff with local government goons fueled by a group of misfits drawn to her growing grass including a property rights extremist who maybe only loves his rights slightly more than his guns a native plants enthusiast who feels guilty about finding dandelion sandwiches so damn delicious a yard artist who thinks Jane's yard just needs a few more inflatable flamingos and it would look better and a digital druid who dislikes clothing and insists on live streaming his intense naked conversations with the plants in Jane's yard Remember the Alamo Remember Waco Remember Attica Remember how the Harpers Ferry raid ended Also remember when

Harper's Ferry used to have an apostrophe OK enough digression let's get back to the main point Remember when Philadelphia dropped a bomb on a bunch of militant vegetarians No Well none of those had happy endings Jane's still hoping for one here but that's only probably because she's drunk If you like novels such as *The Monkey Wrench Gang* then you're probably on a government watchlist but you'll also likely enjoy reading *The Front Yard War* **Big Green Purse** Diane Maceachern, 2008-02-28 Read Diane McEachern's posts on the Penguin Blog Protecting our environment is one of the biggest issues facing our planet today But how do we solve a problem that can seem overwhelming even hopeless As Diane MacEachern argues in *Big Green Purse* the best way to fight the industries that pollute the planet thereby changing the marketplace forever is to mobilize the most powerful consumer force in the world women MacEachern's message is simple but revolutionary If women harness the power of their purse and intentionally shift their spending money to commodities that have the greatest environmental benefit they can create a cleaner greener world Spirited and informative this book targets twenty commodities cars cosmetics coffee food paper products appliances cleansers and more where women's dollars can make a dramatic difference provides easy to follow guidelines and lists so women can choose the greenest option regardless of what they're buying along with recommended companies they should support encourages women to spend wisely by explaining what's worth the premium price some green products cost what's not and when they shouldn't spend money at all and differentiates between products that are actually green and those that are simply marketed as ecofriendly Whether readers want to start with small changes or are ready to devote the majority of their budget to green products MacEachern offers concrete and immediate ways that women can take action and make a difference Empowering and enlightening *Big Green Purse* will become the green shopping bible for women everywhere who are asking What can I do *Superbia!* Dan Chiras, Dave Wann, 2009-03-01 The only book that shows how to transform existing suburbs to create environment and people friendly neighborhoods **The Curious Gardener** Anna Pavord, 2011-09-05 A wonderful book about the gardening year with practical advice by the top garden writer and best selling author of *The Tulip* *A Weed by Any Other Name* Nancy Gift, 2009-05-01 Is that a weed This question asked by anyone who has ever gardened or mowed a lawn does not have an easy answer After all a weed as suburban mother and professional weed scientist Nancy Gift reminds readers is simply a plant out of place In *A Weed by Any Other Name* Gift offers a personal unapologetic defense of clovers dandelions plantains and more chronicling her experience with these enemy plants season by season Rather than falling prey to pressures to achieve the perfect lawn and garden Gift elucidates the many reasons to embrace an unconventional weedy yard She celebrates the spots of wildness that crop up in various corners of suburbia redeeming many a plant's reputation by expounding on its positive qualities She includes recipes for dandelion wine and garlic mustard pesto as well as sketches that show the natural beauty of flowers such as the morning glory classified by the USDA as an invasive and noxious weed Although she is an advocate of weeds Gift admits that some plants do require eradication she happily digs out multiflora rose and resorts to chemical

warfare on poison ivy But she also demonstrates that weeds often carry a message for us about the land and our treatment of it if we are willing to listen     In the Nature of Cities Nik Heynen, Maria Kaika, Erik Swyngedouw, 2006-03-23 The social and material production of urban nature has recently emerged as an important area in urban studies human environmental interactions and social studies This has been prompted by the recognition that the material conditions that comprise urban environments are not independent from social political and economic processes or from the cultural construction of what constitutes the urban or the natural Through both theoretical and empirical analysis this groundbreaking collection offers an integrated and relational approach to untangling the interconnected processes involved in forming urban landscapes The essays in this book attest that the re entry of the ecological agenda into urban theory is vital both in terms of understanding contemporary urbanization processes and of engaging in a meaningful environmental politics They debate the central themes of whose nature is or becomes urbanized and the uneven power relations through which this socio metabolic transformation takes place Including urban case studies international research and contributions from prominent urban scholars this volume will enable students scholars and researchers of geographical environmental and urban studies to better understand how interrelated everyday economic political and cultural processes form and transform urban environments

**Imperfectionist Aesthetics in Art and Everyday Life** Peter Cheyne, 2022-12-30 This book presents interdisciplinary research on the aesthetics of perfection and imperfection Broadening this growing field it connects the aesthetics of imperfection with issues in areas including philosophy music literature urban environment architecture art theory and cultural studies The contributors to this volume argue that imperfection has value in being open and inclusive The aesthetics of imperfection is typified by organic unpolished production and the avoidance of perfect finish instead representing living and natural change and opposing the consumerist concern with the flawless and pristine The chapters are divided into seven thematic sections After the first section on imperfection across the arts and culture the next three parts are on imperfection in the arts of music visual and theatrical arts and literature The second half of this book then moves to categories in everyday life and branches this further into body self and the person and urban environments Together the chapters promote a positive ethos of imperfection that furthers individual and social engagement and supports creativity over mere passivity Imperfectionist Aesthetics in Art and Everyday Life will appeal to a broad range of scholars and advanced students working in philosophical aesthetics literature music urban environment architecture art theory and cultural studies     City Trees Henry W.
