**Home Schooling** Frederick M. Lawrence,2007 From left to right on the political spectrum there is at least one note of agreement the nation s school system has not delivered universal quality education Accordingly debate has raged over how to rectify this situation Should the government increase funding encourage privatisation some of both Another option though has emerged and is seemingly gaining popularity home schooling Citing both substandard education and displeasure with school environments and curricula many parents have decided to teach their own children Supporters say it is well within their rights to raise their children as they see fit and that at home learning is superior to the public system Detractors claim that home schooled children are deprived of social interaction and the broad based education provided by the system Neither side wants to cede ground making the issue of home schooling an integral part of a wider national debate on education In this book the specific topic of home schooling is presented from all relevant sides to give a complete picture of the present status of the issue and its potential for future resolution Following this overview is a thorough and carefully selected bibliography of literature about home schooling from all viewpoints Easy access to his important resource is then provided via author title and subject indexes

*A Kingdom Divided* April E. Holm, 2017-12-11 *A Kingdom Divided* uncovers how evangelical Christians in the border states influenced debates about slavery morality and politics from the 1830s to the 1890s Using little studied events and surprising incidents from the region April E Holm argues that evangelicals on the border powerfully shaped the regional structure of American religion in the Civil War era In the decades before the Civil War the three largest evangelical denominations diverged sharply over the sinfulness of slavery This division generated tremendous local conflict in the border region where individual churches had to define themselves as being either northern or southern In response many border evangelicals drew upon the doctrine of spirituality which dictated that churches should abstain from all political debate Proponents of this doctrine defined slavery as a purely political issue rather than a moral one and the wartime arrival of secular authorities who demanded loyalty to the Union only intensified this commitment to spirituality Holm contends that these churches insistence that politics and religion were separate spheres was instrumental in the development of the ideal of the nonpolitical southern church After the Civil War southern churches adopted both the disaffected churches from border states and their doctrine of spirituality claiming it as their own and using it to supply a theological basis for remaining divided after the abolition of slavery By the late nineteenth century evangelicals were more sectionally divided than they had been at war's end In *A Kingdom Divided* Holm provides the first analysis of the crucial role of churches in border states in shaping antebellum divisions in the major evangelical denominations in navigating the relationship between church and the federal government and in rewriting denominational histories to forestall reunion in the churches Offering a new perspective on nineteenth century sectionalism it highlights how religion morality and politics interacted often in unexpected ways in a time of political crisis and war
