Green, V. Viaene, 2012-09-18 Tracing the emergence of Religious Internationals as a distinctive new phenomenon in world history this book transforms our understanding of the role of religion in our modern world Through in depth studies comparing the experiences of Buddhists Christians Hindus Jews and Muslims leading experts shed new light on global civil society

Religion and Political Change in the Modern World Jeffrey Haynes, 2015-09-07 The purpose of the book is to ascertain whether there is a generic impact that religion brings to bear on recent political changes in the modern world Over the last two decades or so there have been increasing numbers of political issues with which various manifestations of religion engage This impact is not restricted exclusively to countries in the developed or developing world Instead we seem to be seeing a widespread impact of religion on politics which defies earlier assumptions about secularisation This presumed that the more modern a country is then the less likely it is that religion will play a significant political role Recent evidence is however firmly to the contrary the degree of modernity in a country does not correspond well with the amount of religiosity in a country nor with the role that religion can play in politics The book focuses on the recent return of religion to politics It assesses how religion is involved in recent examples of political change in various countries including the impact of religion on democratization The book features both theoretical chapters and case studies The case studies examine different countries Israel Egypt Morocco and Iran and regions Sub Saharan Africa with a focus on Islam Judaism and Protestantism and Catholicism The overall aim is to get a sense of what is happening when religion and politics interact The chapters in this book were originally published in Democratization *The Centrality of Religion in Social Life* Eileen Barker, 2021-11-18 James A Beckford s work is internationally acclaimed not only in the sociology of religion but also in other fields of the social sciences Beckford has long been arguing that the barriers that have grown up between the different sub disciplines should be broken down with those specialising in religion becoming more cognisant of new theoretical developments and sociologists in general becoming more aware of the significance of developments in the religious scene This book is a collection of essays written in Beckford s honour drawing on a number of religious themes that have been central to Beckford

s interests whilst also offering a significant contribution to our understanding of the wider society A central theme is modernity and its relation to the post modern and how religion affects and is affected by the dynamics of contemporary society with the primary focus of many of the chapters being a concern with how society copes with the minority religions that have become visible with the globalising tendencies of contemporary society The contributors who come from America Asia and various parts of Europe are all internationally renowned scholars Beckford s most important publications are listed in an Appendix and the volume opens with a short account of his contribution to sociology by Eileen Barker the editor and James T Richardson

Religion in the 21st Century Lisbet Christoffersen, Margit Warburg, 2016-04-08 In spite of the debate about secularization or de secularization the existential bodily need for religion is basically the same as always What have been changed are the horizons within which religions are interpreted and the relationships within which religions are integrated This book explores how religions continue to challenge secular democracy and science and how religions are themselves being challenged by secular values and practices All traditions whether religious or secular experience a struggle over authority and this struggle seems to intensify with globalization as it has brought people around the world in closer contact with each other In this book internationally leading scholars from sociology law political science religious studies theology and the religion and science debate take stock of the current interdisciplinary research on religion and open new perspectives at the cutting edge of the debate on religion in the 21st century

Christianity in the Modern World Ambrose Mong, 2022-01-27 The influence of religion on culture is as strong as ever but the shape of that influence is unique in today s pluralistic society In *Christianity in the Modern World* Ambrose Mong examines critically themes of religious commitment and tolerance attitudes towards other religions and the sociological aspects of religion and inter religious dialogue He provides an overview of factors that challenge traditional religion from the relationship between monotheistic and polytheistic beliefs to the history of tolerance and intolerance in the church and the future of secularism Following the global ethics formulated by the late Hans Kung Mong also engages with the dialogue between Jurgen Habermas and Joseph Ratzinger to provide an extensive defence of the importance of inter religious dialogue with particular relevance to multiple religious belonging in the Asian context Scholars of world religions will find Mong s analysis compelling while students will find his introduction to the historical dialectics underlying many of today s tensions illuminating

Palestine India Indonesia Japan and many other parts of the globe lend a special interest to the subject at this time but this is not a book on current events It takes a larger view and is a study of religion in its widest connotations as a potent force in history and as a meaningful influence in the world today Originally published in 1946 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Religion in History and in Modern Life Andrew Martin Fairbairn, 1894 Religion Hent de Vries, 2008 What do we talk about when we talk about religion Is it an array of empirical facts about historical human civilizations Or is religion what is in essence unpredictable perhaps the very emergence of the new In what ways are the legacies of religion its powers words things and gestures reconfiguring themselves as the elementary forms of life in the twenty first century Given the Latin roots of the word religion and its historical Christian uses what sense if any does it make to talk about religion in other traditions Where might we look for common elements that would enable us to do so Has religion as an overarching concept lost all its currency or does it ineluctably return sometimes in unexpected ways the moment we attempt to do without it This book explores the difficulties and double binds that arise when we ask What is religion Offering a marvelously rich and diverse array of perspectives it begins the task of rethinking religion and religious studies in a contemporary world Opening essays on the question What is religion are followed by clusters exploring the relationships among religion theology and philosophy and the links between religion politics and law Pedagogy is the focus of the following section Religion is then examined in particular contexts from classical times to the present Pentacostal revival leading into an especially rich set of essays on religion materiality and mediatization The final section grapples with the ever changing forms that religion is taking such as spirituality movements and responses to the ecological crisis Featuring the work of leading scholars from a wide array of disciplines traditions and cultures Religion Beyond a Concept will help set the agenda for religious studies for years to come It is the first of five volumes in a collection entitled The Future of the Religious Past the fruit of a major international research initiative funded by the Netherlands Organization for Scientific Research The Old Religion in the Brave New World Sidney Earl Mead, Sidney Mead, 1977-01-01 Polyphonic Thinking and the Divine Jim Kanaris, 2013 Philosophy of religion is a highly diversified field An apt description of it is zoo It conjures imagery of a species wide cacophony of sights and sounds While some bemoan what this description implies Contributors to this volume appreciate it There is no reason why a zoo should intimate a den of confusion rather than an important condition of emergence and novelty Polyphonic is the catchall term to capture this sentiment It signals a way of thinking that resists the desire to siphon insight into manageable packets of information in the Name of historicity and finitude A polyphonic then is a variegated and discontinuous study

that breaks with a tradition that desires continuity and unification without being erratic This volume is an exercise in polyphonic thinking Each contributing scholar develops ideas in connection with his or her research interests Despite the fluctuation of themes symmetry exists as each piece sounds off a core melody of religion and the divine The book contributes to the advancement of current research in contemporary Continental philosophy of religion By juxtaposing articles by cultural theorists and philosophers of religion religionists and theologians the book emphasizes the importance of interdisciplinary and polyphonic conversation to the development of matters of topical interest and issues related to method and ethics in religious studies and theology

Contemporary Islamic Discourse in the Malay-Indonesian World Azhar Ibrahim,2022-11-24 While many books have probed the role of Islam in political and social change in Southeast Asia over the past three decades few have focused on the power of the religious discourse itself in shaping this transformation Contemporary Islamic Discourse in the Malay Indonesian World captures the interplay between religion and social thought in comparative case studies from Malaysia Indonesia and Singapore Drawing on a critical sociology of knowledge and a profound understanding of historical contexts the central focus is on Muslim intellectuals who have grappled with the impact of modernity in these societies between those seeking to reform Islam s role and those who

take a hardline defensive stance The discussion deals successively with the role of religious traditionalism the upsurge of dakwah revivalism and the public sphere attitudes towards democracy and pluralism and finally the ideas advanced by liberal Islam and its opponents Above all Azhar Ibrahim offers the reader a creative way of understanding the modern Islamic discourse and its relationship to the remaking of society at large Azhar Ibrahim s book cuts through the noise of much discourse on Islam and puts perspective to a vast amount of materials effectively constructing their actual social and historical meaning It should be read by all those seeking an in depth understanding of contemporary Southeast Asia even beyond the particular issues of Islam and Muslims Shahrudin Maaruf Academy of Malay Studies University of Malaya This book is a must read for all those interested in a critical evaluation of the force and implications of religious traditionalism conservatism and revivalism on the development of plural and democratic Muslim societies in Southeast Asia and the challenges they pose to critical voices struggling for the relevance of ethical and humanist traditions of Islam Noor Aisha binte Abdul Rahman Department of Malay Studies National University of Singapore
