Religions in Practice

An Approach to the Anthropology of Religion

John R. Bowen

Religion In Practice

Christine Schliesser

Religion In Practice:

Lived Religion Meredith B McGuire, 2008-08-22 How can we grasp the complex religious lives of individuals such as Peter an ordained Protestant minister who has little attachment to any church but centers his highly committed religious practice on peace and justice activism Or Hannah a devout Jew whose rich spiritual life revolves around her women s spirituality group and the daily practice of meditative dance Or Laura who identifies as Catholic but rarely attends Mass and engages daily in Buddhist style meditation at her home altar arranged with symbols of Mexican American popular religion Diverse religious practices such as these have long baffled scholars whose research often starts with the assumption that individuals commit or refuse to commit to an entire institutionally framed package of beliefs and practices Meredith McGuire points the way forward toward a new way of understanding religion She argues that scholars must study religion not as it is defined by religious organizations but as it is actually lived in people s everyday lives Drawing on her own extensive fieldwork as well as recent work by others McGuire explores the many seemingly mundane ways that individuals practice their religions and develop their spiritual lives By examining the many eclectic and creative practices of body mind emotion and spirit that have been invisible to researchers she offers a fuller and more nuanced understanding of contemporary religion *Religions in Practice* John R. Bowen, 2011 *Religions in Practice* John Richard Bowen, 1998 **Religion and the Individual** Dr Abby Day, 2013-05-28 What does religion mean to the individual How are people religious and what do their beliefs practices and identities mean to them The individual s place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America **What Happens When We Practice Religion?** Robert Wuthnow, 2020-05-19 An exploration of the interdisciplinary methods used to understand religious practice Religion is commonly viewed as something that people practice whether in the presence of others or alone But what do we mean exactly by practice What approaches help to answer this question What Happens When We Practice Religion delves into the central concepts arguments and tools used to understand religion today Throughout the past few decades the study of religion has shifted away from essentialist arguments that grandly purport to explain what religion is and why it exists Instead using methods from anthropology psychology religious studies and sociology scholars now focus on what people do and say their daily religious habits routines improvisations and adaptations Robert Wuthnow shows how four intersecting areas of inquiry situations intentions feelings and bodies shed important light on religious practice and he explores such topics as the role of religious experiences in

sacred spaces gendered social relationships educational settings the arts meditation and ritual Suitable for undergraduate and graduate courses What Happens When We Practice Religion provides insights into the diverse ways that religion manifests in ordinary life Summarizes the latest theories and empirical methods of religious practice Shows how the study of religion has changed Includes chapters on theory situations intentions feelings and bodies Draws from anthropology psychology religious studies and sociology Accessible for undergraduate and graduate courses *Religion in Practice* Swami Prabhavananda, 1968 **Religion, Spirituality and Everyday Practice** Giuseppe Giordan, William H. Swatos, Jr., 2011-08-14 The current generation of young adults at least in the Western world has shown a marked tendency toward a preference for describing themselves as spiritual as contrasted to religious This book seeks to examine the possible meanings and consequences associated with this contrast in terms of the similarities and differences that affect those who use these terms with respect to the everyday practices that they themselves employ or believe should follow from being self defined as religious or spiritual or not The several chapters in this volume take up the religious spiritual contrast specifically through investigations into practice In what ways do people who claim to be religious or spiritual define these self images as manifest in their own lives How on a daily basis does a person who considers himself or herself religious or spiritual live out that self image in specific ways that she or he can describe to others even if not share with others Are there ways that being spiritual can involve religion or ways that being religious can involve spirituality and if so how do these differ from concepts in prior eras e g Ignatian spirituality Orthodox spirituality Anglican spirituality etc We also explore if there are institutions of spiritual practice to which those who term themselves spiritual turn or if the difference implied by these terms may instead be between institutionalized and de institutionalized expressions of practice including but not limited to self spiritualities

Religious Reading Paul J. Griffiths, 1999 In examining and analyzing these practices Griffiths develops a picture of the intellectual and moral commitments involved in being a religious person Griffiths favorably contrasts the practices and pedagogies of traditional religious cultures with those of our own fragmented and secularized culture and insists that religious reading should be preserved He concludes with the controversial proposal that the modern university should make room for traditional scholastics **BOOK JACKET On the Significance of Religion for the SDGs** Christine Schliesser, 2023-03-29 This timely volume addresses the rising interest in the role of religion in global issues worldwide The ambitious Agenda 2030 and the 17 Sustainable Development Goals SDGs serve as the framework for this exploration discussing questions such as What role does religion play in poverty and poverty alleviation How does religion inspire people in combatting gender inequality What is religion's role in fueling conflict and which resources can religion offer for peace and reconciliation Based on the conviction that not one single faith tradition or discipline can adequately address the complexity of current global issues this book brings in the perspectives of different faith traditions and different disciplines Combining cutting edge research with case studies and concrete implications for academics policymakers and practitioners

this concise and easily accessible volume helps to build bridges between these different actors and their engagement It serves as the introductory volume to the series Religion Matters On the Significance of Religion in Global Issues The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Religion and Everyday Life and Culture: Religion in the practice of public life Richard D. Hecht, Vincent F. Biondo, 2010 This intriguing three volume set explores the ways in which religion is bound to the practice of daily life and how daily life is bound to religion

The Enigma of Consciousness Gene W. Marshall, 2015-06-26 Philosophy of Religion An examination of why we have religion in every society what makes religion necessary good or bad and how we can enrich the practice of whatever religion we choose to practice These basic life issues are explored What is Truth What is Consciousness Inescapable Wonder What is Religion Six Ways to Imagine the Unimaginable The Ethics of Response Ability With clarity and abundant insights Gene Marshall proposes ways by which we can move beyond old forms to those that would enable us to manifest qualities of profound humanness He has given us a roadmap constructed of vital possibilities which are urgently needed in this time of multiple crises when the status quo simply will not do Charlene Spretnak author of Relational Reality The Resurgence of the Real and States of Grace Ojai CA The truth of reality if a mystery in Gene Marshall's language an almighty unknown but reality is ever present to our consciousness To know what is known or to make reality real these are the profundities that Marshall systematically and thoughtfully probes in an analysis that rings as earnest and true as the author who penned it Dr Jeffrey W Robbins Professor and Chair Religion and Philosophy Lebanon Valley College Annville PA Gene Marshall coaxes the reader beyond the limiting enclosure of the personality centered self and ego mind and into the realm of authentic personal interior experience The author lifts the fog created by the pesky self serving human mind regarding the interior life and provides a path of clarity into depth states of being Michael D May Teacher Group Discussion Leader Curriculum Editor for Interior Mythos Journeys Bloomington IN

Rationality in Science, Religion, and Everyday Life Mikael Stenmark, 2016-09-15 Mikael Stenmark examines four models of rationality and argues for a discussion of rationality that takes into account the function and aim of such human practices as science and religion

Annual Review of the Sociology of Religion. Volume 7 (2016) Roberto Cipriani, Franco Garelli, 2016-06-27 Recent studies show that atheism is increasing The reasons for this development have not as yet been examined thoroughly Many atheists continue to be residual groups in surveys on religiosity making it difficult to examine who they are and why they have chosen to be atheists Moreover they are minority groups in most countries former Soviet bloc countries are left out of discussion many do not identify with any organized groups of atheists or agnostics Atheist groups and ideologies then represent a wide range of attitudes behaviour and ways of acting towards religion The lack of a clear definition of what being atheist or an unbeliever means today invites us to study the issue in greater depth This volume represents a first attempt at understanding and scrutinizing atheism Thanks to all contributors it provides both a global

perspective and specific insights into specific cases *Brands of Faith* Mara Einstein,2007-09-14 Through a series of fascinating case studies of faith brands marketing insider Mara Einstein has produced a lively account of the book in the commercialization of religion *Religion Online* August E. Grant,Amanda F. C. Sturgill,Chiung Hwang Chen,Daniel A. Stout,2019-03-07 Religion Online provides new insights about religiosity in a contemporary context offering a comprehensive look at the intersection of digital media faith communities and practices of all sorts Recent research on Apple users video games virtual worlds artificial intelligence digital music and sports as religion supports the idea that media and religion once considered separate entities are in many cases the same thing New media and religious practice can no longer be detached this two volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization autonomous religious worship millennials affinity for new media and the rise of fundamentalism in the global south While other works describe case studies this book explains how new media are interwoven into the very fabric of religious belief behavior and community Chapters break down the past present and projected future of the use of digital media in relation to faith traditions of many varieties extending from mainline Christianity to new religious movements The book also examines the impacts of digital media on beliefs and practices around the world In exploring these subjects it calls on the study of culture namely anthropology to conceptualize a technological period as significant as the industrial revolution **Encyclopaedia of Religion and Ethics: Mundas-Phrygians** James Hastings,John Alexander Selbie,1917 *The Handbook of Religion and Communication* Yoel Cohen,Paul A. Soukup,2023-02-22 Provides a contemporary view of the intertwined relationship of communication and religion The Handbook of Religion and Communication presents a detailed investigation of the complex interaction between media and religion offering diverse perspectives on how both traditional and new media sources continue to impact religious belief and practice across multiple faiths around the globe Contributions from leading international scholars address key themes such as the changing role of religious authority in the digital age the role of media in cultural shifts away from religious institutions and the ways modern technologies have transformed how religion is communicated and portrayed Divided into five parts the Handbook opens with a state of the art overview of the subject s intellectual landscape introducing the historical background theoretical foundations and major academic approaches to communication media and religion Subsequent sections focus on institutional and functional perspectives theological and cultural approaches and new approaches in digital technologies The essays provide insight into a wide range of topics including religious use of media religious identity audience gratification religious broadcasting religious content in entertainment films and religion news reporting about religion race and gender the sex religion matrix religious crisis communication public relations and advertising televangelism pastoral ministry death and the media online religion future directions in religious communication and more Explores the increasing role of media in creating religious identity and communicating religious experience Discusses the development and evolution of the communication practices of various

religious bodies Covers all major media sources including radio television film press digital online content and social media platforms Presents key empirical research real world case studies and illustrative examples throughout Encompasses a variety of perspectives including individual and institutional actors academic and theoretical areas and different forms of communication media Explores media and religion in Judeo Christian traditions Islam Buddhism Hinduism religions of Africa Atheism and others The Handbook of Religion and Communication is an essential resource for scholars academic researchers practical theologians seminarians mass communication researchers and undergraduate and graduate students taking courses on media and religion

A Philosophical Study of Religion in Africa Frederic Ntedika Mvumbi, 2010 **Handbook of the Christian Religion for the Use of Advanced Students and the Educated Laity** Wilhelm Wilmers, 1891 **The Routledge Handbook of Language and Religion** Stephen Pihlaja, Helen Ringrow, 2023-12-14 The Routledge Handbook of Language and Religion is the first ever comprehensive collection of research on religion and language with over 35 authors from 15 countries presenting a range of linguistic and discourse analytic research on religion and belief in different discourse contexts The contributions show the importance of studying language and religion and for bringing together work in this area across sub disciplines languages cultures and geographical boundaries The Handbook focuses on three major topics Religious and Sacred Language Institutional Discourse and Religious Identity and Community Scholars from a variety of different disciplinary backgrounds investigate these topics using a range of linguistic perspectives including Cognitive Linguistics Discourse Analysis Sociolinguistics Pragmatics and Conversation Analysis The data analysed in these chapters come from a variety of religious backgrounds and national contexts Linguistic data from all the major world religions are included with sacred texts conversational data and institutional texts included for analysis The Handbook is intended to be useful for readers from different subdisciplines within linguistics but also to researchers working in other disciplines including philosophy theology and sociology Each chapter gives both a template for research approaches and suggestions for future research and will inspire readers at every stage of their career
