Religion In The Contemporary South:

Religion in the Contemporary South Corrie Norman (E.), Donald S. Armentrout, 2005 Religion has always been crucial to the cultural identity of the South The field of southern religious studies is quite young however and most scholarship has focused on the kinds of evangelical fundamentalist activity for which the phrase Bible Belt was coined Religion in the Contemporary South is the first book to fully address the emerging religious pluralism in the South today Featuring an introduction by Samuel S Hill Religion in the Contemporary South brings together fourteen essays by both established and emerging scholars that deal with a spectrum of topics These topics include religious identities in the South that weave in and out of the past new religious expressions in the South and the shifting position of old minority traditions and a microcosmic look at the Episcopal Church The collection comes at a time of sweeping change in the South as the 150 year stronghold of evangelical Protestantism the Baptist Methodist hegemony gives way to a more diverse religious tradition one that includes leadership by women decreasing marginalization for Roman Catholicism and Judaism and the growing presence of so called alien religious traditions Buddhism Hinduism and Islam In his essay A Crumbling Empire Bill J Leonard talks about the future of the Baptist denomination which grows more uncertain as moderates break ties with the fundamentalist leaders of the Southern Baptist Convention In Our Lady of Guadeloupe Visits the Confederate Memorial Thomas Tweed notes the growth of Hindu Buddhist and Muslim traditions in the South Susan Ridgely Bales examines the state of southern Catholicism in Sweet Tea and Rosary Beads and in Quiet Revolutionaries D Jonathan Grieser Corrie E Norman and Don S Armentrout discuss the ways in which women priests in the Southern Episcopal Church construct their lives and callings These and other offerings are varied comprehensive and provocative As the South changes and its religious life evolves so must scholarship Religion in the Contemporary South is a guide to the new southern religions more diverse sometimes controversial but as vital to the region as ever Religion in the Contemporary South O. Modern Societies & the Science of Religions Gerard Wiegers, 2018-11-13 This book brings together studies by seventeen specialists in the science of religions in which they relate the changes in their discipline to the changes

which have occurred in a select number of modernising societies worldwide. It attempts to study these developments in their relation to and as conditioned and constrained by cultural change, changes in educational systems, technology, population, for example, migration, economic patterns, politics, and last but not least, religious systems. The essays focus on, respectively, France, Germany, the Netherlands, Spain, the USA, Turkey, Israel, Morocco, Saudi Arabia, South Africa, Indonesia, Japan, and China. Written in honour of Dr Lammert Leertouwer, professor of History of Religions and the Comparative Study of Religions at Leiden University from 1979 until his retirement in 1997, the book is particularly important for all those who are interested in the religious, social, and political contexts of the academic study of religions in general and in the various countries dealt with in particular.

Beyond Religion in India and Pakistan Virinder S. Kalra, Navtej K. Purewal, 2019-12-12. Drawing on insights from theoretical engagements with borders and subalternity, *Beyond Religion in India and Pakistan* suggests new frameworks for understanding religious boundaries in South Asia. It looks at the ways in which social categories and structures constitute the bordering logics inherent within enactments of these boundaries and positions hegemony and resistance through popular religion as an important indication of wider developments of political and social change. The book also shows how borders are continually being maintained through violence at national, community, and individual levels. By exploring selected sites and expressions of piety, including shrines, texts, practices, and movements, Virinder S. Kalra and Navtej K. Purewal argue that the popular religion of Punjab should neither be limited to a polarised picture between formal institutional religion nor the enchanted universe of rituals, saints, shrines, and village deities. Instead, the book presents a picture of religion as a realm of movement, mobilization, resistance, and power in which gender and caste are connate of what comes to be known as religious. Through extensive ethnographic research, the authors explore the reality of the complex, dynamic, and contested relations that characterize everyday material and religious lives on the ground. Ultimately, the book highlights how popular religion challenges the borders and boundaries of religious and communal categories, nationalism, and theological frameworks while simultaneously reflecting gender, caste, and society.

Religion and Education: Framing and Mapping a Field Stephen G. Parker, J. Berglund, David Lewin, Deirdre Raftery, 2019-08-26. This publication makes the case for religion and education as a distinct but cross-disciplinary field of inquiry. To begin with, consideration is given to the changing dynamic between religion and education historically and the differing understandings of religious education within it. Next, religion and education is examined from methodologically specific perspectives, namely the philosophical, historical, sociological, and psychological. The authors outline the particular insights to be gleaned about religion and education on the basis of their commitment to these methodological standpoints. Overall, this publication is concerned with demonstrating the scope of the field and the importance of having a range of disciplinary and interdisciplinary perspectives informing it.

Making Place for Muslims in Contemporary India Kalyani Devaki Menon, 2022-05-15 Making Place for Muslims in Contemporary India looks at how religion provides an arena to make place and challenge the majoritarian exclusionary and introverted tendencies of

contemporary India Places do not simply exist They are made and remade by the acts of individuals and communities at particular historical moments In India today the place for Muslims is shrinking as the revanchist Hindu Right increasingly realizes its vision of a Hindu nation Religion enables Muslims to re envision India as a different kind of place one to which they unquestionably belong Analyzing the religious narratives practices and constructions of religious subjectivity of diverse groups of Muslims in Old Delhi Kalyani Devaki Menon reveals the ways in which Muslims variously contest the insular and singular understandings of nation that dominate the sociopolitical landscape of the country and make place for themselves Menon shows how religion is concerned not just with the divine and transcendental but also with the anxieties and aspirations of people living amid violence exclusion and differential citizenship Ultimately Making Place for Muslims in Contemporary India allows us to understand religious acts narratives and constructions of self and belonging as material forces as forms of the political that can make room for individuals communities and alternative imaginings in a world besieged by increasingly xenophobic understandings of nation and place

The Southern Rock Revival Jason T. Eastman, 2017-03-16 While some people find new opportunities in the postindustrial economy many working class men find their social and economic well being collapse as blue collar jobs are outsourced and offshored to the global labor market Faced with limited options to earn a living wage many of these blue collar workers are instead changing who they are embracing a deviant rebellious identity expressed by the contemporary southern rock revival musicians studied in this book Although loosely based in the traditional culture and lifestyle of the southeastern United States contemporary southernness has little to do with region but instead is a way to rebel from the very institutions blue collar men traditionally used as the basis of their masculine pride family education employment military service and religion This contemporary form of southernness reflected in their music also involves deviance as many of these men adorn themselves with the highly controversial confederate flag binge drink alcohol brawl with one another and use drugs Combining interviews participant observation and a lyrical analysis this book explores these aspects of rebellious southernness through music as it exists in the ideal sense and as individual men try to live up to these subcultural ideals in their daily lives The southern rock revival is a new social movement carving out a place for an alternative way to live while simultaneously perpetuating stereotypes about poor men reinforcing social disadvantage and marginalization
