depend on gender country the diverse religious affiliations and more *Migrant Families and Religious Belonging* G.G. Valtolina, L. Zanfrini, 2023-06 Over the past three decades migration has become the main driver of population growth or of preventing its decrease in many EU countries The presence of so many families with a migrant background is however to some extent an unexpected phenomenon arising from the permanent settlement of migrant guest workers expected to be temporary residents and from other unplanned processes such as decolonization and the influx of asylum seekers Moreover family reunification is today one of the main legal channels by which migrants come to Europe so it is no coincidence that the main issues animating European public debate on inter ethnic coexistence involve family religion and the relationships between genders and generations Finally the migrant family has to some extent become a lens through which to analyze many key topics connected with the present and future of European societies This work *Migrant Families and Religious Belonging* is a collection of nine essays exploring the relationship between family religion and immigration These essays mainly focus on the integration process with particular attention to the experience of migrants offspring The book consists of an introductory chapter and four thematic sections and topics covered include gender equality forced marriages child fostering care and religious radicalization The relationship between family religion and immigration provides a fascinating perspective to explore and shed light on European society today The book will be of interest to a wide range of academics researchers and practitioners

Religious Perspectives in Modern Muslim and Jewish Literatures Glenda Abramson, Hilary Kilpatrick, 2004-08-02 This collection brings together discussions of the way in which Muslim and Jewish beliefs and practices are represented in modern literary texts of poetry fiction and drama The chapters collected here consider elements of the expression of Judaism and Islam in modern literature Key topics such as religious ideas and teachings aspects of mysticism the tenets of religion uses made of sacred texts religion and popular culture and reflections of religious controversies are covered While there is an embodied comparative element to the chapters the essays are not confined by comparisons and cover a wide range of the literary expression of religious issues

Exploring the Religious Life Rodney Stark, 2004-04 Though religion is for most people one of the most important aspects of their lives social scientists and other observers of human society too often misunderstand and misrepresent the nature and role of religion in history and in daily life From the

supposed decline of religious attitudes in Western Europe and the venal motivations attributed to the Christian Crusaders to the very definition of religion personal biases and an inadequate grasp of relevant data have led to the formulation and propagation of unsupportable views on the sacred In *Exploring the Religious Life* Rodney Stark boldly overturns much received wisdom within the social sciences about religion drawing on a wide range of sources to reassess a diverse selection of topics in the study of religion In his first essay Stark addresses the carelessness with which scholars use the term religion and the conviction that the belief in divinity evolved from the practice of magic in primitive cultures In subsequent chapters he challenges the widespread attitude among social scientists that religion is nothing more than a mask for material realities and examines the effectiveness of religious doctrines in attracting converts and influencing individuals uncovers the surprising prevalence of upper class asceticism in medieval Christianity and explores the relationship between gender piety and criminal activity Divine revelation is a central aspect of many religions and Stark next applies empirical research to the phenomenon to assess its meaning in Judaism Christianity Islam and Mormonism He then turns to the confusion between faith and practice in debates over the secularization of the developed world before investigating the validity of the classic proposition within the social sciences that religion functions to sustain the moral order He does so examining the correlation between criminal behavior and depth of religious belief Stark concludes with an essay on the ingenious methods he uses to unearth data about the popularity of new religions in California and northern Europe the decline of Christian Science in America the spread of Christianity in the Roman world and the execution patterns during the antiwitchcraft frenzy of Enlightenment Europe Together the essays that constitute *Exploring the Religious Life* offer an engaging introduction to Rodney Stark's provocative insights and a fearless challenge to academic perceptions about religion's place in history society and private life

Religious Education in a Mediatized World Ilona Nord, Hanna Zipernovszky, 2017-05-10 In religious education digitization and mediatization processes result in the transformation of conventional media formats This leads to the development of new media formats which in turn necessitates a redefinition of the relationship between religious education and the media Keeping this in mind this volume first examines the importance of media for specific theological disciplines and then discusses current media pedagogical and media didactic approaches Later in the book the authors develop didactic perspectives on various methods these include internet based archive work and the use of digital teaching materials They also deal with current questions regarding religious education such as inclusion and cyber bullying etc Finally they identify some of the main didactic challenges for religious instruction in a mediatized world This volume is a plea for a wider understanding of education and is based in part on a German Swedish teaching and research cooperation Following this example it focuses on a future oriented networking of plural forms of education This resource is designed for students of theology and religious sciences as well as for religious education teachers

Religious Fundamentalism in the Contemporary World Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten

the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions
