Religion Society And Politics In France Since 1789:

Religion, Society and Politics in France Since 1789 Frank Tallett, Nicholas Atkin, 1991-01-01 This book has been carefully planned to give a coherent account of the impact of religion in France over the last two hundred years Most books in English dealing with the subject are now dated and in any case concentrate on institutional questions of church state relations rather than on the wider influence of religion throughout France These essays summarise recent French research and provide a concise up to date introduction to the history of modern French Catholicism

Religion, Society and Politics in France since 1789 Frank Tallett, 1991-07-01 This book has been carefully planned to give a coherent account of the impact of religion in France over the last two hundred years Most books in English dealing with the subject are now dated and in any case concentrate on institutional questions of church state relations rather than on the wider influence of religion throughout France These essays summarise recent French research and provide a concise up to date introduction to the history of modern French Catholicism

Catholicism, Politics and Society in Twentieth-century France Kay Chadwick, 2000-01-01 Catholicism once the protean monster still functions as a complex component of French identity No consideration of modern France would be complete without reference to the enduring impact and influence of Catholicism on the life of the nation This volume sets out to capture some of the variety and significance of the Catholic phenomenon in twentieth century secular France and to express something of its extraordinary vitality and interest Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church Collectively these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue Equally the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed Being Catholic in modern France no longer means the espousal of a particular political or social agenda Nor does it necessarily mean regular and traditional religious observance or even strict adherence to the dictates of the Church Modern French Catholicism truly has many mansions

Christianity in the Twentieth Century Brian Stanley, 2018 This book charts the transformation of one of the world s great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Amazon com

Catholic Politics in Europe, 1918-1945 Martin Conway, 2008-02-20 The history of Catholic political movements has long been a missing dimension of the history of Europe during the twentieth century Martin Conway explores the fascinating history of Catholic political movements in Europe between 1918 and 1945 demonstrating the crucial role which Catholics played in the rise of fascism in Italy and Germany the events of the Spanish Civil War and of the Second World War Drawing on the findings of recent research Conway shows how Catholic political movements formed a vital element of the political life of Europe during the inter war years In countries as diverse as France Germany Italy Spain and Austria as well as further east in Poland Slovakia Croatia and Lithuania Catholic political parties flourished Inspired by the values of Catholicism these

movements fought for their own political ideals hostile to both liberal democracy and totalitarian fascism Catholics were a third force in European politics During the Second World War Catholic political movements continued to pursue their own goals some chose to fight alongside the German armies other groups joined Resistance movements to fight against German oppression and for a new social and political order based on Catholic principles Catholic Politics in Europe will provide an original key point of reference for twentieth century history for comparison with fascist and communist movements of the period and will give insight into the present day character of Catholicism

Confiscating the common good Edward J. Woell, 2022-08-02 Comprising five microhistories this book proposes that the French Revolution's religious politics in small towns weakened democratic society to such an extent that it precluded political democracy It details two revolutionary dynamics that damaged the civic life of small towns social polarisation and the loss of local institutions that had been a source of social capital as well as a common good Detailed narratives about Pont Mousson Gournay en Bray Vienne Haguenau and Is sur Tille also reveal that contrary to the view upheld by many scholars small town religious politics extended far beyond the pivotal Ecclesiastical Oath of 1791 Other developments the nationalisation of Church property the dissolution of religious orders and the elimination of bishoprics chapters parishes and collegial churches also adversely affected the wellbeing of these small urban communities not only in the Revolution but also in the two centuries that followed

Themes in Modern European History, 1890-1945 Nicholas Atkin, Michael Biddiss, 2008-11-26 Themes in Modern European History 1890 1945 brings together an international team of scholars to address an eclectic range of developments and issues in European history in the period between 1890 and the end of the Second World War This lively collection of essays adopts a thematic approach in order to explore comprehensively a period of great change and upheaval in Europe Concentrating on the main powers in Europe from Germany Italy and Russia to the UK and France the book links together developments in society the economy politics and culture and establishes them in their political framework Specially commissioned chapters discuss key issues such as popular culture the relationship between East and West intellectual and cultural trends the origins and impact of two world wars communism dictatorship and liberal democracy the relationship of Europe with the wider world Including a chronology maps and a glossary as well as suggestions for further reading this comprehensive volume is an invaluable and authoritative resource for students of modern European history

The Constitutional Monarchy in France, 1814-48 Pamela M. Pilbeam, 2014-07-30 Historians in France assume that the restoration of Monarchy after the defeat of Napoleon was doomed The first compact recent history of the period in English this book reveals that although the French experimented with two Monarchies and a Republic 1814 48 there was substantial stability The Institutional framework constructed during the Revolutionary years 1789 1814 remained intact and the ruling elites retained basic control

Body and Tradition in Nineteenth-century France William Pooley, 2019 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century

Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe

Body and Tradition in Nineteenth Century France explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of Felix Arnaudin 1844 1921 The study places the songs stories and everyday speech that Arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe

Assassination, Politics, and Miracles David Skuy, 2003-05-26 This remarkable story provides the backdrop for David Skuy's analysis of the Royalist Reaction and its place in the history of the French Restoration Skuy argues that the Royalist Reaction was the product of two divergent forces historical echoes of the French Revolution and the Napoleonic Empire and the psychological consequences of the assassination and the miracle child Skuy discusses Restoration political theory and the development of modern political parties He follows the stratagems of anti royalist extremists plotting to overthrow the Bourbon regime and details the complexities and intrigues that characterized the royal court and parliament Skuy reveals how the assassination and the birth of the miracle child triggered a popular Royalist Reaction that changed millions of French citizens from passive observers into ardent royalists

Sex & Secularism Joan Wallach Scott, 2017-10-16 How secularism has been used to justify the subordination of women Joan Wallach Scott's acclaimed and controversial writings have been foundational for the field of gender history With *Sex and Secularism* Scott challenges one of the central claims of the clash of civilizations polemic the false notion that secularism is a guarantee of gender equality Drawing on a wealth of scholarship by second wave feminists and historians of religion race and colonialism Scott shows that the gender equality invoked today as a fundamental and enduring principle was not originally associated with the term secularism when it first entered the lexicon in the nineteenth century In fact the inequality of the sexes was fundamental to the articulation of the separation of church and state that inaugurated Western modernity Scott points out that Western nation states imposed a new order of women's subordination assigning them to a feminized familial sphere meant to complement the rational masculine realms of politics and economics It was not until the question of Islam arose in the late twentieth century that gender equality became a primary feature of the discourse of secularism Challenging the assertion that secularism has

always been synonymous with equality between the sexes Sex and Secularism reveals how this idea has been used to justify claims of white Western and Christian racial and religious superiority and has served to distract our attention from a persistent set of difficulties related to gender difference ones shared by Western and non Western cultures alike **Bodies and Souls** Katrin Schultheiss,2001 This political history shows how the turmoil and transformation of nursing during the French Third Republic reflected the political and cultural tensions at work in the nation including critical conflicts over the role of the Church in society the professionalization of medicine and the emancipation of women **Political Belief in France, 1927-1945** Caroline Campbell,2015-12-09 In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France s political culture Political Belief in France 1927 1945 traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women s Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization s fearsome reputation as a violent paramilitary group While the efforts of the Women s Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious backgrounds into the dominant national community Croix de Feu PSF women promoted their socialagenda as a religious and patriotic duty a reflection of the individual s responsibility to make personal sacrifices on behalf of their vision for France s Christian civilization The Croix de Feu PSF s ethnoreligious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism Political Belief in France 1927 1945 contributes to the fields of French history gender studies the history of fascism and the history of empire Berruyer's Bible Daniel J. Watkins,2021-06-01 The French Jesuit Isaac Joseph Berruyer s Histoire du peuple de Dieu was an ambitious attempt to connect the ideas of the Enlightenment with the theology of the Catholic Church A paraphrase of the Bible written in vernacular French the Histoire promoted progress the pursuit of happiness the fundamental goodness of humanity and the capacity of nature to shape moral human beings Berruyer aimed to update the Bible for a new age but his work unleashed a furor that ended with the expulsion of the Jesuits from France Berruyer s Bible offers a fresh perspective on the history of the Catholic Enlightenment By exploring the rise and fall of Berruyer s Histoire Daniel Watkins reveals how Catholic attempts to

assimilate Enlightenment ideas caused conflicts within the church and between the church and the French state Berruyer's Bible flips the traditional narrative of the Enlightenment on its head by showing that the secularization of French society and the political decline of the Catholic Church were due not solely to the external assaults of anti-clerical philosophes but also to the internal discord caused by Catholic theologians themselves Built upon extensive research in archives across Western Europe and the United States Berruyer's Bible paints a vivid picture of the tumultuous intellectual world of the Catholic Church and the power of radical ideas that shaped the church throughout the Enlightenment the French Revolution and beyond

Lourdes Ruth Harris, 2008-09-04 Lourdes was at the very centre of nineteenth century debates on religion science and medicine Both the Church and secularists championed the miracle town as crucial in shaping how society should think about the mind body and spirit Since the visions of Bernadette Soubirous in 1858 transformed the quiet Pyrenean town into an international tourist and pilgrimage destination it has been a site for controversy In her well-crafted and carefully researched book Harris deftly places Lourdes and its attendant spiritual movement firmly at the centre of French history and shows its significance in the country's development

Mother of the Church Tatyana V. Bakhmetyeva, 2017-01-03 Sofia Petrovna Svechina 1782-1857 better known as Madame Sophie Swetchine was the hostess of a famous nineteenth century Parisian salon A Russian migrant Svechina moved to France with her husband in 1816 She had recently converted to Roman Catholicism and the salon she opened acquired a distinctly religious character It quickly became one of the most popular salons in Paris and was a meeting place for the French intellectual Catholic elite and members of the Liberal Catholic movement As a salonnière Svechina developed close friendships with some of the most noted public figures in the Liberal Catholic movement Her involvement with her guests went deeper than the typical salonnière's She was a mentor spiritual counselor and intellectual advisor to many distinguished Parisian men and women and her influence extended beyond the walls of her salon into the public world of politics and ideas In this fascinating biography Tatyana Bakhmetyeva seeks to understand the creative process that informed Svechina's life and examines her subject in the context of nineteenth century thought and letters It will appeal to educated readers interested in European and Russian history the history of Catholicism and women's history

Sacred Sounds, Secular Spaces Jennifer Walker, 2021 Sacred Sounds Secular Spaces provides the first fundamental reconsideration of music's role in the relationship between the French state and the Catholic Church in the Third Republic revealing how composers and critics from often opposing ideological factions undermined the secular sacred binary through composition and musical performance

Contested identities Carmen M. Mangion, 2019-01-04 English Roman Catholic women's congregations are an enigma of nineteenth century social history Over ten thousand nuns and sisters establishing and managing significant Catholic educational health care and social welfare institutions in England and Wales have virtually disappeared from history Despite their exclusion from historical texts these women featured prominently in the public and private sphere Intertwining the complexities of class with the notion of ethnicity Contested identities

examines the relationship between English and Irish born sisters This study is relevant not only to understanding women religious and Catholicism in nineteenth century England and Wales but also to our understanding of the role of women in the public and private sphere dealing with issues still resonant today Contributing to the larger story of the agency of nineteenth century women and the broader transformation of English society this book will appeal to scholars and students of social cultural gender and religious history

Intimacy and Exclusion Dagmar Herzog, 2017-07-05 In this pathbreaking work Dagmar Herzog situates the birth of German liberalism in the religious conflicts of the nineteenth century During the years leading up to the revolutions of 1848 liberal and conservative Germans engaged in a contest over the terms of the Enlightenment legacy and the meaning of Christianity a contest that grew most intense in the Grand Duchy of Baden where liberalism first became an influential political movement Bringing insights drawn from Jewish and women's studies into German history Herzog demonstrates how profoundly Christianity's problematic relationships to Judaism and to sexuality shaped liberal conservative and radical thought in the pre revolutionary years In particular she reveals how often conflicts over the private sphere and the politics of the personal determined larger political matters

Secular Spirituality Lynn L. Sharp, 2006-01-01 Secular Spirituality challenges the traditional dichotomy between Enlightenment reason and religion It follows French romantic socialists and spiritists search for a new spirituality based on reincarnation as a path to progress for individuals and society Leaders like Allan Kardec argued for social reform spiritist groups strove for equality and women mediums challenged gender roles Lynn L. Sharp looks closely at what it meant to practice spiritism analyzing the movement's social and political critique and explaining the popularity of the new belief She explores points of convergence and conflict in the interplay between spiritism and science spiritism and psychology and spiritism and the Catholic church to argue that the nineteenth century was not as disenchanted as has been thought Secular Spirituality successfully places spiritism within a larger cultural conversation going beyond the leaders of the movement to look at the way spiritism functioned for its followers
