***Spiritualizing Politics without Politicizing Religion* James R.**

Price, Kenneth R. Melchin, 2022-03-31 The clash of religion and politics has been a steady source of polarization in North America In order to think wisely and constructively about the spiritual dimension of our political life there is need for an approach that can both maintain the diversity of belief and foster values founded on the principles of religion In *Spiritualizing Politics without Politicizing Religion* James R. Price and Kenneth R. Melchin provide a possible framework approaching issues in politics via a profile of Sargent Shriver 1915-2011 an American diplomat politician and a driving force behind the creation of the Peace Corps Focusing on the speeches Shriver delivered in the course of his work to advance civil rights and build

world peace Price and Melchin highlight the spiritual component of his efforts to improve institutional structures and solve social problems They contextualize Shriver s approach by contrasting it with contemporary landmark decisions of the U S Supreme Court on the role of religion in politics In doing so *Spiritualizing Politics without Politicizing Religion* explains that navigating the relationship of religion and politics requires attending to both the religious diversity that politics must guard and the religious involvements that politics needs to do its work

Faith That Hurts, Faith That Heals Stephen Arterburn, Jack Felton, 1992 *The Search for Wholeness and Diaspora Literacy in Contemporary African American Literature* Silvia Castro-Borrego, 2011-05-25 This volume has as a cohesive argument the exploration of the different manifestations of the search for wholeness and spirituality in the writings of contemporary African American women writers covering different literary genres such as fiction both novels and short stories drama and poetry Together with the issue of spirituality the African American search for wholeness is analyzed as a source of creativity and agency As expressed in the contemporary literature of black women writers starting in the 1980s the search for wholeness reflects a beauty realized through the healing of the spirit and the body and is a process that takes on

dimensions of reconciling the past and the present the mythical and the real the spiritual and the physical all in the context of an emerging world view that welcomes synthesis and expects both synthesis and generative contradictions The book will be a valuable collection for scholars of African American literature comparative American Ethnic literature American literature and spirituality as well as women s studies In addition it will be an important text for both undergraduate and graduate students in those fields As Professor Johnnella Butler 2006 points out the African American search for wholeness is tightly linked to the search for freedom and agency Ever since the 19th century African American writers have given expression to an African American self which functions in Western civilization simultaneously as a colonized other and an assertive self Due to the continuous ordeal of the African Diaspora this self is caught in between the binaries proposed by the material and the spiritual world seeking a balance where the person can become whole The search for wholeness feeds from cultural roots that imply the presence of ancestral spiritualism rememory and double consciousness Contemporary black women writers reflect the metaphor of building spiritual bridges seeking the possibilities of building a bridge to the archetypal African past that is carried in their memories as a presence that offers sustenance via spiritual reconnection Their works seek to bridge the gap between the myths and traditions of the past and contemporary African American culture The texts included in this collection are examples of writing as an exercise of what V v Clark calls Diaspora literacy The texts written by contemporary African American women writers explicitly show how to recognize and read the cultural signs left scattered along the road of progress In this way material acquisition is achieved along with cultural dispossession becoming a metaphor for the history of the African in America The powerful message is that one should not exclude the other

Healthy Religion Walter Kania, 2006-07-26 Dr Jacob Bronowski in his book and PBS documentary series entitled The Ascent of Man spoke of unhealthy religion when he stood before the ashes of his relatives at the Auschwitz crematorium He said This is how men behave when they believe they have absolute knowledge People seek simple answers and absolute knowledge but anyone or any religion that claims absolute knowledge or absolute and infallible religious sources and tells people what to think is a clear carrier and manifestation of unhealthy religion Is Healthy Religion an oxymoron or is it achievable in one s life This research based document provides you with the means for identifying what is healthy and what is unhealthy in religion You may be surprised to discover that what you believe and the manner in which you practice your religion may be more a function of your personality than of your religion in the way in which your personality attaches itself and expresses itself in your religion Literal dogmatic religious postures of fundamental and evangelical groups are manifestations of close minded authoritarianism They also reflect militant and extremist dictates for one to follow The manipulation and mind control methods of fear guilt and shame used with people to secure membership and provide group consensus in belief violate the very essence of religion and the basic foundations of what is Healthy Religion Certain attributes of healthy personality produce healthy religion and healthy religion promotes healthy personality You will uncover the ingredients and characteristics of both in this book Visit his website walterkaniaphd.com
