Religion Versus Empire British Protestant Missionaries And Overseas Expansion 1700 1914:

Religion Versus Empire? Andrew Porter, 2004-10-29 This is the only book that addresses the relations between religion Protestant missions and empire building linking together all three fields of study by taking as its starting point the early eighteenth century Anglican initiatives in colonial North America and the Caribbean It considers how the early societies of the 1790s built on this inheritance and extended their own interests to the Pacific India the Far East and Africa Fluctuations in the vigor and commitment of the missions changing missionary theologies and the emergence of alternative missionary strategies are all examined for their impact on imperial expansion Other themes include the international character of the missionary movement Christianity's encounter with Islam and major figures such as David Livingstone the state and politics and humanitarianism all of which are viewed in a fresh light

British Protestant Missions and the Conversion of Europe, 1600-1900 Simone Maghenzani, Stefano Villani, 2020-09-14 This book is the first account of British Protestant conversion initiatives directed towards continental Europe between 1600 and 1900 Continental Europe was considered a missionary land another periphery of the world whose centre was imperial Britain British missions to Europe were informed by religious experiments in America Africa and Asia rendering these offensives against Europe a true form of imaginary colonialism British Protestant missionaries often understood themselves to be at the forefront of a civilising project directed at Catholics and sometimes even at other Protestants Their mission was further reinforced by Britain becoming a land of compassionate refuge for European dissenters and exiles This book engages with the myth of International Protestantism questioning its early origins and its narrative of transnational belonging while also interrogating Britain as an imagined Protestant land of hope and glory In the history of western Christianities converting Europe had a role that has not been adequately investigated This is the story of the attempted and ultimately failed effort to convert a continent

The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present Andrew Eugene Barnes, Toyin Falola, 2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world's most adhered to religion is practiced and understood on the continent of Africa

Carey, John Gascoigne, 2010-12-06 Drawing on a diverse range of case studies in both the Old World of Europe and the New World of the European settler societies in the United States Australia and New Zealand this volume offers an original perspective on the conduct of church state relations and how these have been reshaped by translation from the Old to the New Worlds **The New Shape of World Christianity** Mark A. Noll, 2010-01-25 In this book Mark Noll makes the compelling case that how Americans have come to practice the Christian faith is just as globally important as what the American church has done in the world He backs up this substantial claim with the scholarly attentiveness we ve come to expect from him **Perspectives on the History of Global Development** Corinna R. Unger, Nicholas Ferns, Jack Loveridge, Iris Borowy, 2022-10-24 What is development what has it been in the past and what can historians learn from studying the history of development How has the field of the history of development evolved over time and where should it be going in the future **To the Ends of the Earth** T. M. Devine, 2011-10-25 The Scots are one of the world s greatest nations of emigrants For centuries untold numbers of men women and children have sought their fortunes in every conceivable walk of life and in every imaginable climate All over the British Empire the United States and elsewhere the Scottish contribution to the development of the modern world has been a formidable one from finance to industry philosophy to politics To the Ends of the Earth puts this extraordinary epic center stage taking many famous stories from the Highland Clearances and emigration to the Scottish Enlightenment and empire and removing layers of myth and sentiment to reveal the no less startling truth Whether in the creation of great cities or prairie farms the Scottish element always left a distinctive trace and Devine pays particular attention to the exceptional Scottish role as traders missionaries and soldiers This major new book is also a study of the impact of the global world on Scotland itself and the degree to which the Scottish economy was for many years an imperial economy with intimate important links through shipping engineering jute and banking to the most remote

of settlements Filled with fascinating stories and an acute awareness of the poverty and social inequality that provoked so much emigration *To the Ends of the Earth* will make its readers think about the world in a quite different way *New Approaches in History and Theology to Same-Sex Love and Desire* Mark D. Chapman, Dominic Janes, 2018-02-15 This book offers a range of interdisciplinary evaluations of the history of same sex relationships in the Church as they have been understood in different periods and contexts The relationships between diverse forms of religious and sexual identities have been widely contested in the media since the rise of the lesbian and gay liberation movement in the 1970s One of the key images that often appears in public debate is that of lesbians and gays in the Church as a significant problem Research over the past forty years or so into queer theology and the history of same sex desire has shown that such issues have played an important role in the story of Christianity over many centuries The contributors to this volume have all been inspired by the challenges of such revisionist study to explore religion and same sex desire as a field of opportunity for investigation and debate They uncover some of the hidden histories of the Church and its theologies they tell sometimes unexpected stories many of which invite serious further study It is quite clear through history that some in the churches have been at the vanguard of legislative and social change Similarly some churches have offered safe queer spaces Overall these essays offer new interpretations and original research into the history of sexuality that helps inform the contemporary debate in the churches as well as in the academy

The Church in the Long Eighteenth Century David Hempton, 2011-09-16 David Hempton's history of the vibrant period between 1650 and 1832 engages with a truly global story that of Christianity not only in Europe and North America but also in Latin America Africa Russia and Eastern Europe India China and South East Asia Examining eighteenth century religious thought in its sophisticated national and social contexts the author relates the narrative of the Church to the rise of religious enthusiasm pioneered by Pietists Methodists Evangelicals and Revivalists and by important leaders like August Hermann Francke Jonathan Edwards and John Wesley He places special emphasis on attempts by the Spanish Portuguese French Dutch and British seaborne powers to export imperial conquest commerce and Christianity to all corners of the planet This leads to discussion of the significance of Catholic and Protestant missions including those of the Jesuits Moravians and Methodists Particular attention is given to Christianity's impact on the African slave populations of the Caribbean Islands and the American colonies which created one of the most enduring religious cultures in the modern world Throughout the volume changes in Christian belief and practice are related to wider social trends including rapid urban growth the early stages of industrialization the spread of literacy and the changing social construction of gender families and identities

Women, Gender and Religious Cultures in Britain, 1800-1940 Sue Morgan, Jacqueline de Vries, 2010-06-10 This volume is the first comprehensive overview of women gender and religious change in modern Britain spanning from the evangelical revival of the early 1800s to interwar debates over women's roles and ministry This collection of pieces by key scholars combines cross disciplinary insights from history gender studies

theology literature religious studies sexuality and postcolonial studies The book takes a thematic approach providing students and scholars with a clear and comparative examination of ten significant areas of cultural activity that both shaped and were shaped by women's religious beliefs and practices family life literary and theological discourses philanthropic networks sisterhoods and deaconess institutions revivals and preaching ministry missionary organisations national and transnational political reform networks sexual ideas and practices feminist communities and alternative spiritual traditions Together the volume challenges widely held truisms about the increasingly private and domesticated nature of faith the feminisation of religion and the relationship between secularisation and modern life Including case studies further reading lists and a survey of the existing scholarship and with a British rather than Anglo centric approach this is an ideal book for anyone interested in women's religious experiences across the nineteenth and twentieth centuries **The Lion's Share**

Bernard Porter, 2014-06-11 As well as presenting a lively narrative of events Bernard Porter explores a number of broad analytical themes challenging more conventional and popular interpretations He sees imperialism as a symptom not of Britain's strength in the world but of her decline and he argues that the empire itself both aggravated and obscured deep seated malaise in the British economy **The Modernization of the Western World** John McGrath, Kathleen Callanan

Martin, 2015-01-28 This book focuses on the forces of social change and what they have meant in the lives of the people caught in the middle of them from medieval times through our current era of globalization German Moravian

Missionaries in the British Colony of Victoria, Australia, 1848-1908 Felicity Jensz, 2010-01-11 Focusing on the six decades that German Moravian missionaries worked in the British colony of Victoria Australia this book enriches understanding of colonial politics and the role of the non British other in manipulating practice and policy in foreign realms Central to the transnational nature of the book are questions of identity and of how individuals and the organisations they worked for can be seen as both colluders and opposers within nation state borders and politics It analyses the ways in which the Moravian missionaries navigated competing agendas within the colonial setting especially those that impacted on their sense of personal vocation their practices of conversion and their understandings of the indigenous non Christian peoples in the settler society of Victoria Terrains of Exchange Nile Green, 2015-05-02

Terrains of Exchange offers a bold new paradigm for understanding the expansion of Islam in the modern world Through the model of religious economy it traces the competition between Muslim Christian and Hindu religious entrepreneurs that transformed Islam into a proselytising global brand Drawing Indian Arab Iranian and Tatar Muslims together with Scottish missionaries and African American converts Nile Green brings to life the local sites of globalisation where Islam was repeatedly reinvented in modern times Evoking terrains of exchange from Russia's imperial borderlands to the factories of Detroit and the ports of Japan he casts a microhistorian's eye on the innovative new Islams that emerged from these sites of contact Drawing on a multilingual range of materials the book challenges the idea that globalisation has given rise to a unified global Islam Instead it reveals the

forces behind the fracturing of Islam in the hands of feuding and fissiparous religious firms Terrains of Exchange not only presents global history as Islamic history It also reveals the forces of that history at work in the world today **40**

Thompson, 2018-05-30 The five volume Oxford History of Dissenting Protestant Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in

England as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and royal supremacy but then follows those traditions as they spread beyond England and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier English Dissent but that have often defined a trajectory of influence independent ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume II charts the development of protestant Dissent between the passing of the Toleration Act 1689 and the repealing of the Test and Corporation Acts 1828 The long eighteenth century was a period in which Dissenters slowly moved from a position of being a persecuted minority to achieving a degree of acceptance and eventually full political rights The first part of the volume considers the history of various dissenting traditions inside England There are separate chapters devoted to Presbyterians Congregationalists Baptists and Quakers the denominations that traced their history before this period and also to Methodists who emerged as one of the denominations of New Dissent during the eighteenth century The second part explores that ways in which these traditions developed outside England It considers the complexities of being a Dissenter in Wales and Ireland where the state church was Episcopalian as well as in Scotland where it was Presbyterian It also looks at the development of Dissent across the Atlantic where the relationship between church and state was rather looser Part three is devoted to revivalist movements and their impact with a particular emphasis on the importance of missionary societies for spreading protestant Christianity from the late eighteenth century onwards The fourth part looks at Dissenters relationship to the British state and their involvement in the campaigns to abolish the slave trade The final part discusses how Dissenters lived the theology they developed and their attitudes towards scripture the importance of both sermons and singing their involvement in education and print culture and the ways in which they expressed their faith materially through their buildings
