Michael Hundley,2022-01-13 In this study Michael Hundley explores the diverse deities of ancient Near Eastern and biblical literature from deified doors and diseases to the masters of the universe Using data from Mesopotamia Hittite Anatolia Egypt the Levant and non priestly Genesis and Exodus Hundley explains their context specific approach to deity which produces complex and seemingly contradictory portraits He suggests that ancient deities gained prominence primarily by co opting the attributes of other deities rather than by denying their existence or inventing new powers He demonstrates that the primary difference between biblical and ancient Near Eastern presentations lies in their rhetorical goals not their conceptions of gods While others promote divine supremacy Genesis and Exodus promote exclusive worship Hundley argues that this monolatry redefined the biblical divine sphere and paved the way for the later development of monotheism and monotheistic explanations of evil **Current Research in Egyptology 2016** Julia Chyla,Karolina Rosińska-Balik,Joanna
