Religion In Film:

The Routledge Companion to Religion and Film John Lyden, 2009-05-07 The Routledge Companion to Religion and Film brings together a lively and experienced team of contributors to investigate the ways in which this exciting discipline is developing

Seeing and Believing Margaret Ruth Miles, 1997-09-04 Enriched by a cultural studies approach a deep understanding of religion and history and a love for the movies *Seeing and Believing* explores what popular films of the 1980s and 1990s say about religion and the values by which we live

Religion in Film John R. May, Michael S. Bird, 1982 This carefully edited collection of essays explores in greater diversity and depth than has been attempted before the relationship between film and religion Combining perspectives from traditional film criticism and from religious studies *Religion in Film* asserts that it is no longer possible to view films simply in terms of their moral impact nor is it reasonable to limit religious meaning only to those films that make an explicit appeal to religious elements The essays offer a variety of theoretical reflections on the religious interpretation of film explore particular cinematic variations on the archetypal images of savior and demon analyze significant cultural trends of a religious nature related to film and assess thirteen sensibilities Altman Bergman Bunuel Chaplin Coppola Fellini Hitchcock Jutra Kubrick Peckinpah Russell Truffaut and Wertmuller The contributors provide a firm basis for analysis while respecting a variety in interpretation As the overall structure of the book leads from the universal to the particular from theory to individual directors and films so its concern with religious interpretation flows naturally from the universally religious to particular religious worldviews Among world religions Christianity claims attention in proportion to its dominant cultural influence in the West where film has more obviously flourished The insights and interpretations presented in these essays will be of importance to cinema scholars film critics and students of religion and of interest to film buffs particularly those who are sensible of the religious dimension of films

Religion and Film Stefanie Knauss, 2020-01-29 Is cinema evil or sacramental Can films make theological contributions Can film viewing be a religious practice How do films values and power interact The study of film and religion engages a range of diverse questions through different approaches and methods In this contribution I distinguish three complementary approaches In the first part I discuss those that focus on the film as text the representation of religion in film and how theology happens in film The next section will broaden this perspective by taking into consideration how films affect audiences and how the relationship between film and audience might have religious dimensions or serve religious functions In the third part attention to the text and the audience are combined with the consideration of both film and religion as agents in cultural processes in order to think about how film and religion are shaped by and shape value systems and ideologies In the last section I will begin to tackle the difficult question of theory and method I consciously postpone this part until the end because in many cases methodologies and theoretical frameworks are implied in and emerge from concrete case studies rather than being consciously reflected upon This final section has two goals it will make explicit some of these

underlying assumptions to serve as a starting point for a more sustained reflection on the theories and methodologies of the field and it will highlight some of the pitfalls we encounter if we are not methodologically and theoretically precise in our work Faith and Film Bryan P. Stone,2000 Bryan Stone engages the cinema to open a discussion of theology and the culture of our time by pairing specific Christian doctrines found in the Apostles Creed with popular movies and videos

Film as Religion John C. Lyden,2003-06-01 Choice Outstanding Academic Title 2003 *Film as Religion* argues that popular films perform a religious function in our culture Like more formal religious institutions films can provide us with ways to view the world and values to confront it Lyden contends that approaches which interpret films only ideologically or theologically miss the mark in understanding their appeal to viewers He develops an alternative method which shows how films can be understood as representing a religious worldview in their own right Lyden surveys the state of the study of religion and film offering an overview of previous methods before presenting his own Rather than seeking to uncover hidden meanings in film detectable only to scholars Lyden emphasizes how film functions for its audiences the beliefs and values it conveys and its ritual power to provide emotional catharsis He includes a number of brief cases studies in which he applies this method to the study of film genres including westerns and action movies children s films and romantic comedies and individual films from *The Godfather* to *E T* showing how films can function religiously

Faith in Film Christopher Deacy,2005 From the unprecedented and innovative perspective of Christian theology this book investigates how cinema audiences wrestle with their religious beliefs and values Deacy reveals that movies raise vital questions about the spiritual landscape and normative values of western society today **Film, Philosophy and Religion** William H. U. Anderson,2022-01-04

Hollywood is a 40 billion annual business one that is highly influential in culture If we want to know who we are as individuals and a society what we believe and what we value we need to know and understand Hollywood and film Make no mistake Hollywood is neither philosophically politically nor morally neutral Many studies demonstrate how movies affect us long before we have thought it through In other words Hollywood smuggles all kinds of ideas into our minds and hearts without us even knowing it While Hollywood may be the biggest and most influential in the world this book will demonstrate the growing international influence of film from India Bollywood Nigeria Nollywood Zimbabwe Zollywood and Yesil am Turkey Film Philosophy and Religion explicitly and implicitly takes a philosophical approach to analyzing film theoretically and methodologically There are topic and film specific chapters that take a theological approach and others that explore ideas like Affect Axiology Art Reflecting the Artist and Transcendence Spirituality of Film Hermeneutics also have a central role in the book including films based on biblical texts that act as interpretations of these texts and fill in the blanks albeit speculatively by way of script and directors Chapters also explore the philosophy of aesthetics and film realism which end with theology while other chapters explore the incompatibility of science with religion as well as a chapter on the timely topic of rape in Turkish film The book s scope goes from the Horror of Evil in Ridley Scott s *Alien* Universe to *Love Can Thaw a Frozen Heart* The Philosophy of Love

in the Frozen Films Disney Princess Narratives This book represents international films and scholars The diverse perspectives from theist to atheist and everything in between are sure to spark thinking and generate talking points that provide something for everyone in an accessible format It will be of great interest to university students and professors scholars seminaries and the general public

Catholics in the Movies Colleen McDannell, 2008 Catholicism was all over movie screens in 2004 Mel Gibson's *The Passion of the Christ* was at the center of a media firestorm for months A priest was a crucial character in the Academy Award winning *Million Dollar Baby* Everyone it seemed was talking about how religious stories should be represented marketed and received Catholic characters spaces and rituals have been stock features in popular films since the silent era An intensely visual religion with a well defined ritual and authority system Catholicism lends itself to the drama and pageantry of film Moviegoers watch as Catholic visionaries interact with the supernatural priests counsel their flocks reformers fight for social justice and bishops wield authoritarian power Rather than being marginal to American popular culture Catholic people places and rituals are all central to the world of the movie *Catholics in the Movies* begins with an introductory essay that orients readers to the ways that films appear in culture and describes the broad trends that can be seen in the movies hundred year history of representing Catholics Each chapter is written by a noted scholar of American religion who concentrates on one movie that engages important historical artistic and religious issues and then places the film within American cultural and social history discusses the film as an expression of Catholic concerns of the period and relates the film to others of its genre Tracing the story of American Catholic history through popular films *Catholics in the Movies* should be a valuable resource for anyone interested in American Catholicism and religion and film

Religion and Film Melanie Wright, 2006-10-27 From silent films to contemporary blockbusters religion has always proved a popular theme for the cinema However all too often religion and film are discussed from narrowly confessional perspectives with the result that the field has long been dominated by the question of a film's fidelity to a religious text or worldview or its value as a tool in ministry and mission *Religion and Film An Introduction* seeks to redress this balance and argues for a new holistic approach to the subject that draws on work from cultural studies religious studies and film studies alike Wright argues that the meanings of a film are not encoded by its textual organisation but are bound up with its interpretation by viewers in specific contexts Focusing on religiously diverse films like *The Ten Commandments* *La Passion de Jeanne d Arc* *Kadosh* *Lagaan* *My Son the Fanatic* *Keeping the Faith* *The Wicker Man* and Mel Gibson's *The Passion of The Christ* the author looks at varied screen representations of religion at films shaped by strong convictions about the place of religion in society and at the roles that audiences play as consumers of film The book will have strong appeal to students as well as general readers interested in all aspects of the inter relationship of religion and the cinema

Religion and Film S. Brent Plate, 2008 Religions and films both operate by recreating the known world and presenting that alternative version to their viewers worshippers This book brings together religious studies and film studies asking how

the world on film affects religious attitudes and how millennia old myths and rituals alter the ways films are made viewed and interpreted Jacket *Screening The Sacred* Joel Martin,2018-03-05 What are the religious impulses in the 1976 film Rocky and how can they work to shape one s social identity Do the films Alien and Aliens signify the reemergence of the earth goddess as a vital cultural power What female archetypes borne out of male desire inform the experience of women in Nine and a Half Weeks These are among the several compelling questions the authors of this volume consider as they explore the way popular American film relates to religion Oddly religion and film two pervasive elements of American culture have seldom been studied in connection with each other In this first systematic exploration the authors look beyond surface religious themes and imagery in film discovering a deeper implicit presence of religion They employ theological mythological and social and political criticism to analyze the influence of religion in all its rich variety and diversity on popular film Perhaps more importantly they consider how the medium of film has helped influence and shape American religious culture secular or otherwise More than a random collection of essays this volume brings to the study of religion and film a carefully constructed analytic framework that advances our understanding of both Screening the Sacred provides fresh and welcome insight to film criticism it also holds far reaching relevance for the study of religion Progressive in its approach instructive in its analyses this book is written for students scholars and other readers interested in religion popular film and the impact of each on American culture **Representing Religion in Film** Tenzan Eaghll,Rebekka King,2022-06-30 This is the first full length exploration of the relationship between religion film and ideology It shows how religion is imagined constructed and interpreted in film and film criticism The films analyzed include The Last Jedi Terminator Cloud Atlas Darjeeling Limited Hellboy The Revenant Religulous and The Secret of my Success Each chapter offers an explanation of the particular representation of religion that appears in film a discussion of how this representation has been interpreted in film criticism and religious studies scholarship an in depth study of a Hollywood or popular film to highlight the rhetorical social and political functions this representation accomplishes on the silver screen a discussion about how such analysis might be applied to other films of a similar genre Written in an accessible style and focusing on Hollywood and popular cinema this book will be of interest to both movie lovers and experts alike **The Routledge Companion to Religion and Film** John Lyden,2009 **Film and Religion** S. Brent Plate,2017 **Film as Religion, Second Edition** John C. Lyden,2019-11-26 Argues that popular films perform a religious function in our culture The first edition of Film as Religion was one of the first texts to develop a framework for the analysis of the religious function of films for audiences Like more formal religious institutions films can provide us with ways to view the world and the values to confront it Lyden argues that the cultural influence of films is analogous to that of religions so that films can be understood as representing a religious worldview in their own right Thoroughly updating his examples Lyden examines a range of film genres and individual films from The Godfather to The Hunger Games to Frozen to show how film can function religiously Film as Religion, Second Edition
