Religion Ontotheology And Deconstruction:

Religion, Ontotheology and Deconstruction Henry L. Ruf, 1989 **Jacques Derrida (Routledge Revivals)** William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work. It attempts to be comprehensive rather than selective, listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated. It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction. The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy. *Theological Analyses of the Clinical Encounter* G.P. McKenny, J.R. Sande, 2013-04-17 Efforts to evaluate the clinical encounter in terms of autonomous agents governed by rationally justified moral principles continue to be criticised. These essays, written by physicians, ethicists, theologians and philosophers, examine various models of the clinical encounter emerging out of these criticisms and explore the prospects they offer for theological and religious discourse. Individual essays focus on the reformulation of covenant models, revisions of principles, approaches and topics such as power, authority, narrative, rhetoric, dialogue and alterity. The essays display a range of conclusions about whether theology articulates generally accessible religious insights or is a tradition-specific discipline. Hence the volume reflects current debates in theology while analysing current models of the clinical encounter. Students, professionals and scholars who find themselves at the intersection of theology and medicine will welcome these voices in an ongoing conversation. **The Huston Smith Reader** Huston Smith, 2012-03-26 I read Huston Smith's *The World's Religions* as a teenager. It was the most influential event in my life. He has shaped my thinking, my lifelong quest, and guided me to where I am today. The *Huston Smith Reader* will enlighten you, delight you, and expand your awareness. I intend to carry this book with me wherever I go. Deepak Chopra, author of *War of the Worldviews*. Huston Smith approaches religion with the wisdom of a philosopher and the wonder of a child. He looks for similarities that unite, not differences that divide. He comes armed with knowledge and blessed with understanding. Don Lattin, author of *The Harvard Psychedelic Club*. This remarkable book by the beloved scholar-practitioner Huston Smith has the depth and breadth of no other. It is wise and full of insight, at times funny, at times poignant. Manifesting both lived and living wisdom, the book's power, beauty and courage will take the reader into the heart of the world's religions. Joan Halifax, Founding Abbot, Upaya Zen Center. No one in our time, neither Martin Buber nor Elie Wiesel, neither Karen Armstrong nor Simone Weil, has made a greater contribution to our understanding of religion and spirituality than Huston Smith. We are privileged to live in his era, not only for his books and films but for his emphasis on gleaning the wisdom from ancient traditions and the example he has afforded the rest of us in practicing what he preaches, thus illuminating for us what it means to have a lived-in philosophy of the religious life. In turn, this book affords us the widest and most penetrating range of

Curing the Philosopher's Disease Richard H. Jones,2009-09-28 Curing the Philosopher's Disease is a philosophical examination of the mysteries surrounding the foundations of science philosophy and religion Much of Western philosophy and science is discussed in order to see our epistemological and metaphysical situation The love hate relation philosophers have with mystery is explored as are the contributions of reductionists and antireductionists postmodern relativists and critical realists naturalists and the religious and theologians and mystics The thrust of the arguments affirms that there are limits to what philosophy science religion and mystical experiences can tell us about reality By acknowledging that some questions may be unanswerable and understanding the importance of that fact even as the answers remain ambiguous our true situation in the world is revealed Mystery should be reinstated as a basic feature when we reflect upon the nature of what we know and who we are Mystery frames all of our claims to fundamental knowledge and we must accept that it will remain a permanent fixture Thus the importance of mystery needs to be reaffirmed today during an era when the fullness of reality is often ignored

Volume 11, Tome I: Kierkegaard's Influence on Philosophy Jon Stewart,2016-12-05 Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different

philosophical traditions The present volume documents these different traditions of the philosophical reception of Kierkegaard's thought and the articles featured demonstrate the vast reach of Kierkegaard's writings in philosophical contexts that were often quite different from his own Tome I is dedicated to exploring the reception of Kierkegaard in Germanophone and Scandinavian philosophy Kierkegaard has been a major influence for such different philosophical projects as phenomenology hermeneutics dialogical thinking critical theory Marxism logical positivism and ordinary language philosophy Similarly in Denmark and Norway Kierkegaard's writings have been more or less constantly discussed by important philosophers despite the later dominance of analytic philosophy in these countries The present tome features articles on the leading Germanophone and Scandinavian philosophers influenced by Kierkegaard's thought

Science and Religious Anthropology Dr Wesley J Wildman, 2013-05-28 Science and Religious Anthropology explores the convergence of the biological sciences human sciences and humanities around a spiritually evocative naturalistic vision of human life The disciplinary contributions are at different levels of complexity from evolution of brains to existential longings and from embodied sociality to ecosystem habitat The resulting interpretation of the human condition supports some aspects of traditional theological thinking in the world's religious traditions while seriously challenging other aspects Wesley Wildman draws out these implications for philosophical and religious anthropology and argues that the modern secular interpretation of humanity is most compatible with a religious form of naturalistic humanism This book resists the reduction of meaning and value questions while taking scientific theories about human life with full seriousness It argues for a religious interpretation of human beings as bodily creatures emerging within a natural environment that permits engagement with the valuational potentials of reality This engagement promotes socially borne spiritual quests to realize and harmonize values in everything human beings do from the forging of cultures to the crafting of personal convictions

Deconstruction without Derrida Martin McQuillan, 2012-07-26 The future of deconstruction lies in the ability of its practitioners to mobilise the tropes and interests of Derrida's texts into new spaces and creative readings In *Deconstruction without Derrida* Martin McQuillan sets out to do just that to continue the task of deconstructive reading both with and without Derrida The book's principal theme is an attention to instances of deconstruction other than or beyond Derrida and thus imagining a future for deconstruction after Derrida This future is both the present of deconstruction and its past The readings presented in this book address the expanded field of deconstruction in the work of Jean Luc Nancy Helene Cixous Paul de Man Harold Bloom J Hillis Miller Judith Butler Gayatri Spivak and Catherine Malabou They also necessarily address Derrida's own readings of this work McQuillan accounts for an experience of otherness in deconstruction that is has been and always will be beyond Derrida just as deconstruction remains forever tied to Derrida by an invisible indestructible thread

public understanding Toward a Global Discourse on Religion in a Secular Age Ludwig Nagl, 2023-10-31 Do we all today live in a secular age Examining this open question the book focuses in Part 1 The Re Emerging Philosophical Discourse on Religion on recent interpretations of human existence in Asian European and American thought Part 2 1 The Weakening of Dogmatic Scientism discusses Wittgenstein s Derrida s Habermas s and Taylor s critiques of abstract modes of Enlightenment Part 2 2 Various Approaches to Religious Faith in Pragmatism and Neo Pragmatism deals with the writings of Peirce James Dewey Rorty West and Putnam and explores the significance of Josiah Royce s thought for contemporary global debates on religious belief *Religion, ontotheology and deconstruction 1st ed* Henry Ruf (ed), 1989 **The Illusion of Trust** E.R. DuBose, 2012-12-06 This book is about trust and its implications for a medical theological ethics Beginning with its earliest work there has been attention to trust running through the bioethics literature in the United States and much of this discussion has examined its theological elements Clearly trust is indispensable when describing the patient physician relationship so why is there a need for yet another study There is no doubt that people generally trust physicians Traditionally the physician is the patient s fiduciary agent whose sole obligation is to act only in the patient s best interest In recent times however there is a perception on the part of people within and without health care that physicians have other obligations that compete with their obligation to the patient If we acknowledge that one price for the successes of technological biomedicine is high in terms of financial cost another price of Success seems to be distrust cynicism and suspicion directed by the public toward the medical profession If this uneasiness is the price society pays for medical success what is the price of success for the doctor Because of their role within the social order physicians have claimed and been granted autonomy authority and special status In return the profession has pledged to serve the well being and interests of humankind This fiduciary commitment becomes a taken for granted aspect of the physician s identity both for the physician for whom this dedication is definitional and for the public which expects trustworthy service from this person

The Participatory Turn Jorge N. Ferrer, Jacob H. Sherman, 2008-10-23 Can we take seriously religious experience spirituality and mysticism without reducing them to either cultural linguistic by products or simply asserting their validity as a dogmatic fact The contributors to this volume argue that we can and they offer a new way the participatory turn which proposes that individuals and communities have an integral and irreducible role in bringing forth ontologically rich religious worlds They explore the ways this approach weaves together and gives voice to a number of robust trends in contemporary religious scholarship including the renewed study of lived spirituality the postmodern emphasis on embodied and gendered subjectivity the admission of alternate epistemic perspectives the irreducibility of religious pluralism and the pragmatist emphasis on transformation all trends that raise serious challenges to the currently prevalent linguistic paradigm The first part of the book situates the participatory turn in the context of contemporary Religious Studies the second part shows how this approach can be applied to various global traditions ancient and contemporary from Western esotericism to Jewish

mysticism Christianity Hinduism Sufism and socially engaged Buddhism *Faith in the Enlightenment?* Lieven Boeve, 2006

One of the urgent tasks of modern philosophy is to find a path between the rationalism of the Enlightenment and the relativism of postmodernism. Rationalism alone cannot suffice to solve today's problems but neither can we dispense with reasonable critique. The task is to find ways to broaden the scope of rational thought without losing its critical power. The first part of this volume explores the ideas of Enlightenment philosophers and shows nuances often absent from the common view of the Enlightenment. The second part deals with some of the modern heirs of Enlightenment such as Durkheim, Habermas and Derrida. In the third part this volume looks at alternatives to Enlightenment thought in West European, Russian and Buddhist philosophy. Part four provides over against the Enlightenment a new starting point for the philosophy of religion in thinking about human beings, God and the description of phenomena.
