Religion in the Twenty-first century and beyond: A Social sciences perspective Sujay Rao Mandavilli,2024-04-19 The term Religion refers to a wide range of social cultural systems which include beliefs morals ethics religious practices thought worlds worldviews holy texts and scriptures sanctified holy places and institutions that typically relate to the general belief in a God or a supernatural entity Religion has been known in a wide variety of geographical contexts and situations and attested since very early times as a matter of fact even before the dawn of human civilization As a matter of fact there have been very few known human societies without some form of an organized or an informal religion In the past few centuries technology has progressed at a rapid pace and at a rate that would have been unimaginable just two centuries ago Many pundits predicted that the role played by religion in society would invariably and inevitably diminish alas such prophecies have not come to pass Religion and the role played by it in society remains as deeply entrenched as ever before As a matter of fact globalization has unleashed a clash of civilizations and has brought different and widely differing ideologies into direct contact with each other often unleashing waves of terror In the wide array and assortment of papers that we have been publishing over the years we have introduced many different concepts that we believe can greatly help in understanding the role religion plays in relation to society Readers can easily reference these papers In this paper we attempt to take our endeavours to a much higher level to analyse how the beneficial aspects of religion can be magnified and amplified and the negative implications of religion curtailed We also lay out the contours of social science research that can effectively tackle the menace of religious fanaticism and hatred and draw out a road map and a course of action other researchers and scholars can easily relate to This is far from an easy task but sociologists and anthropologists have a major role to play here Hence this oeuvre Other researchers and scholars must contribute in no small measure and those belonging to different parts of the world and hailing from different backgrounds and cultures There are fundamental schisms in today s

scholarship and interdisciplinary and cross cultural enterprise is still sparse The Author once had a Muslim friend highly educated who was more interested in Greek civilization than in Islam The Author had another Muslim friend less educated who was a devout Muslim He did not even know how old Islam was and neither had he read the Qu ran fully Therefore we must avoid stereotypes and accept the fact that we are living in a multicultural world and in a multispeed civilization The clash of civilizations is also a fact though it must be eventually mitigated Halloween parties in Saudi Arabia and anti Mullah rhetoric in Iran may be reactionary belligerent displays of wrath meaningful and permanent change must be brought about only through the realm of social sciences Many eminent sociologists of yore studied different forms of religion studiously and diligently even with some kind of an implicit or a feverish reverence or veneration yet many other scholars today are of an atheistic disposition tending to write of the utility of religion in the modern world Why this disconnect These are all issues we need to ruminate and ponder over if we are to solve social problems and build a meaningful and a deep rooted edifice of research We also need original thinkers not legions of camp followers of the west to use an aphorism by Sir CV Raman who was the first Indian to bring home the Nobel prize in science Intellectuals and thinkers must be aligned to social requirements and must be sensitive to cultural factors Otherwise the words of Carl Jung will come into play The deep critical thinker has become the misfit of the world this is not a coincidence To maintain order and control you must isolate the intellectual the sage the philosopher the savant before their ideas awaken people or as CS Lewis states The greatest evils in the world are not carried out by men with guns but by men in suits sitting behind desks Esoterism and nerdism appear to be the bane in various academic disciplines As Daniel Dennett put it many philosophers pursue isolated paths and dedicate their intellect purely to age old ideas without considering the advancements of modern science Scholars also do not think through issues deeply and comprehensively enough However change must be brought about slowly and in a graduated fashion It must be brought about tactfully and diplomatically without trampling on people s sensitivities As William Shakespeare put it Go wisely and slowly Those who rush stumble and fall We also need objectivity in mindset otherwise all attempts at scientific progress will fail Even the best or the most advanced and uptodate software cannot date the Ramayana or the Mahabharata accurately if objectivity in mindset does not exist Change can however be brought about As Jose Andres once famously stated The modernity of yesterday is the tradition of today and the modernity of today will be tradition tomorrow

Religion in the Twenty-first Century Mary Pat Fisher, 1999 A unique and informative survey of the global religious situation as we enter the new millennium Through a thematic and people oriented approach this book provides a valuable introduction to a variety of new religious movements whether founded as offshoots of traditional religions or as a result of the Interfaith Movement and the ways in which modern technology is spreading religions both new and old *Triangulating Religion, Belief, and Faith in the Twenty-First Century* Bradford McCall, 2025-01-16 This book gives the reader the ability to make new inroads to understanding how faith belief and religion not only differ but also how they can contribute to comparative theology These three topics broadly covered herein can heighten the understanding of the Sacred by those who study them As to a few preliminaries what is faith Further what is belief Which one comes first in a person s journey toward the Sacred Moreover does religion factor into these two terms and if so where and how Does Augustine s well worn line faith seeking understanding mean anything today If it does would it mean belief comes prior to faith and or religion One can argue both sides of this debate and still be considered orthodox seemingly Perhaps it is the case that belief precedes faith most of the time but not all of the time Perhaps it is the other way around What exactly is the demarcation between belief and faith Many a person believes a thing to be true in their very bones such a stance borders on what is commonly referred to as faith Is religion the combination of belief and faith together into a coherent system of thought or is it emergent from the two existing as a separate mental or spiritual entity Explore these questions and more *The Twenty-first Century Confronts Its Gods* David J. Hawkin, 2012-02-01 This book penetrates the assumptions of Western technological society and exposes the powers that govern it The contributors argue that it is a mistake to think that religion and belief have been relegated to the private sphere and are no longer important in the public and political domains They assert that the twenty first century has a set of new gods the powers of globalization technology the market and military might that reign alongside those of traditional religions These are the forces to which the modern era has granted ultimacy This book looks at how major religions such as Christianity Islam Judaism Hinduism and Buddhism play an important role in politics and society on both the global and local levels The new gods of technology globalization and war are shown to exacerbate the existing cultural divisions and religious strife that mark our time By understanding the importance of that which is held sacred whether traditional belief or modern practice not acknowledged as belief the contributors help us to comprehend our present situation and challenges

Pathways for Inter-Religious Dialogue in the Twenty-First Century Vladimir Latinovic, Gerard Mannion, Peter C. Phan, 2016-01-26 Without question, inter-religious relations are crucial in the contemporary age. While most dialogue works on past and contemporary matters, this volume takes on the relations among the Abrahamic religions and looks forward toward the possibility of real and lasting dialogue. The book centers upon interfaith issues. It identifies problems that stand in the way of fostering healthy dialogues both within particular religious traditions and between faiths. The volume's contributors strive for a realization of already existing common ground between religions. They engagingly explore how inter-religious dialogue can be re-energized for a new century.

Christian Witness in Pluralistic Contexts in the Twenty-First Century Enoch Wan, 2004-09-15 This volume is not a set of textbook answers on how to witness to Hindus, Buddhists, Muslims, and people with other religions based on simple formulas. It is the wrestlings, affirmations, and testimonies of those who have been deeply involved in ministries to people of other religious faiths and have thought deeply about the issues religious pluralism raises.

Leustean, 2014-05-30 This book provides an up-to-date comprehensive overview of Eastern Christian churches in Europe, the Middle East, America, Africa, Asia, and Australia. Written by leading international scholars in the field, it examines both Orthodox and Oriental churches from the end of the Cold War up to the present day. The book offers a unique insight into the myriad church-state relations in Eastern Christianity and tackles contemporary concerns, opportunities, and challenges such as religious revival after the fall of communism, churches and democracy, relations between Orthodox, Catholic, and Greek Catholic churches, religious education, and monastic life, the size and structure of congregations, and the impact of migration, secularisation, and globalisation on Eastern Christianity in the twenty-first century.

Three Testaments Brian A. Brown, 2014-01-02 From disagreement over an Islamic Center in New York to clashes between Christians and Muslims in Egypt, tension between the three Abrahamic faiths often runs high. Yet for all their differences, these three traditions—Judaism, Islam, and Christianity—share much in common. *Three Testaments* brings together for the first time the text of the Torah, the New Testament, and the Quran so that readers can explore for themselves the connections as well as the points of departure between the three faiths. Notable religion scholars provide accessible introductions to each tradition, and commentary from editor Brian Arthur Brown explores how the three faiths may draw similarities from the ancient Zoroastrian tradition. This powerful book provides a much-needed
