the IMF Laurel Kendall, 2009-09-01 Thirty years ago anthropologist Laurel Kendall did intensive fieldwork among South Korea's mostly female shamans and their clients as a reflection of village women's lives. In the intervening decades South Korea experienced an unprecedented economic, social, political, and material transformation and Korean villages all but disappeared. And the shamans Kendall attests that they not only persist but are very much a part of South Korean modernity. This enlightening and entertaining study of contemporary Korean shamanism makes the case for the dynamism of popular religious practice, the creativity of those we call shamans, and the necessity of writing about them in the present tense. Shamans thrive in South Korea's high-rise cities working with clients who are largely middle class and technologically sophisticated. Emphasizing the shaman's work as open and mutable, Kendall describes how gods and ancestors articulate the changing concerns of clients and how the ritual frame of these transactions has itself been transformed by urban sprawl, private cars, and zealous Christian proselytizing. For most of the last century Korean shamans were reviled as practitioners of antimodern superstition; today they are nostalgically celebrated icons of a vanished rural world. Such superstition and tradition occupy flip sides of modernity's coin: the one by confuting the other, by obscuring the beating heart of shamanic practice. Kendall offers a lively account of shamans who once ministered to the domestic crises of farmers as they address the anxieties of entrepreneurs whose dreams of wealth are matched by their omnipresent fears of ruin. Money and access to foreign goods provoke moral dilemmas; about getting and spending, shamanic rituals express these through the longings of the dead and the playful antics of greedy gods, some of whom have acquired a taste for imported whiskey. No other book-length study captures the tension between contemporary South Korean life and the contemporary South Korean shamans' work. Kendall's familiarity with the country and long association with her subjects permit nuanced comparisons between a 1970s then and recent encounters, some with the same shamans and clients as South Korea moved through the 1990s, endured the Asian Financial Crisis, and entered the new millennium. She approaches her subject through multiple anthropological lenses such that readers interested in religion, ritual, performance, healing, gender, landscape, material culture, modernity, and consumption will find much of interest here.

Mapping China and Managing the World Richard J. Smith, 2013-05-20 From the founding of the Qin dynasty in 221 BCE to the present, the Chinese have been preoccupied with the notion of ordering their world. Efforts to create and maintain order are expressed not only in China's bureaucratic institutions and methods of social and economic organization but also in Chinese philosophy, religious and secular ritual, and comprehensive systems of classifying all natural and supernatural phenomena. Mapping China and Managing the World focuses on Chinese constructions of order, *zhi*, and examines the most important ways in which elites in late imperial China sought to order their vast and variegated world. This book begins by exploring the role of ancient texts and maps as the two prominent symbolic devices that the Chinese used to construct cultural meaning and looks at how changing conceptions of the world shaped Chinese cartography whilst both shifting and enduring cartographic practices affected how the Chinese

regarded the wider world Richard J Smith goes on to examine the significance of ritual in overcoming disorder and by focusing on the importance of divination shows how Chinese at all levels of society sought to manage the future as well as the past and the present Finally the book concludes by emphasizing the enduring relevance of the Yijing Classic of Changes in Chinese intellectual and cultural life as well as its place in the history of Sino foreign interactions Bringing together a selection of essays by Richard J Smith one of the foremost scholars of Chinese intellectual and cultural history this book will be welcomed by Chinese and East Asian historians as well as those interested more broadly in the culture of China and East Asia

The Shaman's Wages Kyoim Yun, 2019-09-30 Breaking from previous scholarship on Korean shamanism which focuses on mainland Korea The Shaman's Wages offers the first in depth study of simbang hereditary shamans on Cheju Island off the peninsula's southwest coast In this engaging ethnography enriched by extensive historical research Kyoim Yun explores the prevalent and persistent ambivalence toward practitioners whose services have long been sought out yet derided as wasteful by anti shaman commentators and occasionally by their clients Intrigued by discord between simbang and their clients over fee negotiations Yun set out to learn the deep rooted legacy of condemning or trivializing the practitioners self interests from a neo Confucian governor's purge of shrines during the Chosŏn dynasty to the recent transformation of a community ritual into a practice recognized through UNESCO World Heritage status Drawing on a wealth of firsthand observations she shows how simbang distinguish ritual exchanges from more mundane instances of bartering purchasing bribing and gift giving and explains why ritual affairs are nonetheless inevitably thorny This original study illuminates the intertwining of religion and economy in shamanic practice on Cheju Island

includes early spirit contacts in Africa Latin America and Asia An Introduction to International Relations and Religion Jeffrey Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics

Buddhist Faith and Sudden Enlightenment Sung Bae Park, 1983-06-30 Buddhist Faith and Sudden Enlightenment explains how sudden enlightenment occurs through the awakening of patriarchal faith This is the non dual affirmation that one is already Buddha as opposed to the doctrinal dualistic faith that one can become Buddha The essence of the presentation is that patriarchal faith forms the basis for sudden enlightenment in Zen meditation For the practitioner this book establishes the Zen method of mind cultivation on a higher level by introducing a new understanding of awakening right faith Included is extensive material on the history of faith in Buddhism with the main attention devoted to Ch'an Zen and Hua yen There are also substantial discussions of Buddhist antecedents to these schools and of the Pure Land School This is the first book in English to examine the central role of faith in Mahayana Buddhism The author's approach develops from his personal experiences as a son Zen monk of the Chogye order which was heavily influenced by the integration of meditation and scriptural study established by Chinul

Transformations Of The Confucian Way John Berthrong, 2018-10-08 From its beginnings Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world John Berthrong's comprehensive new work tells the story of the grand intellectual development of the Confucian tradition revealing all the historical phases of Confucianism and opening the reader's eyes to the often neglected gifts of scholars of the Han T'ang and the modern periods as well as to the vast contributions of Korea and Japan The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West *Culture's Consequences* Geert Hofstede, 2001 The publication of this second edition of Culture's Consequences marks an important moment in the field of cross cultural studies Hofstede's framework for understanding national differences has been one of the most influential and widely used frameworks in cross cultural business studies in the past ten years Australian Journal of Management **Digital Culture and Religion in Asia** Sam

Han, Kamaludeen Mohamed Nasir, 2015-09-16 This book critically analyses the functions and interconnectedness between religion and digital media in a range of East Asian countries. It discusses both how religious organizations make use of new technologies and also explores how new technologies are reshaping religion in novel and interesting ways. Based on extensive research, the book focuses in particular on Christianity in South Korea, Neo Shintoism in Japan, Falun Gong in China, and Islam in Southeast Asia. Offering a comparative perspective on a broad range of media practices including video gaming, virtual worship, social networking, and online testimonials, the book also investigates the idea that use of technology in itself mirrors religious practices. With an analysis of the impact of religion and new technology on national consciousness in a range of geographical locations, the authors offer a broadening of the scope of the study of religion, culture, and media.
