Religious Education As A Second Language:

Religious Education as a Second Language Gabriel Moran, 1989 Re-imagining Senior Secondary Religious Education William Sultmann, Janeen Lamb, Peter Ivers, Mark Craig, 2023-02-28 This book examines and reports the findings regarding the level of satisfaction by students teachers and parents with an innovative senior secondary Religious Education curriculum Religion Meaning and Life RML The stimulus for RML is found in the changing profile of students within faith based schools and the motivation of school authorities to be inclusive and responsive to changing needs and priorities of students and families Curriculum practices typically mirror this continuing renewal as community expectations give rise to innovation in curriculum practice This concept of continuity and discontinuity is evidenced in the field of Religious Education which recognizes religious plurality while giving preference to an imagination centred on inclusion hospitality and respectful dialogue In this context new pathways are being explored as the reality and significance of Religious Education in faith based school remain a priority for Christian organizations in Australia Mindful of the diversity of expectations within the Catholic school the curriculum initiative of RML was developed supported and implemented The La Salle Academy of the Australian Catholic University reviewed this senior secondary curriculum across three years and presents in this book an independent evaluative report of the findings together with insights for implementation at scale and associated applications across Christian faith based institutions Special Religious Education in Australia and its Value to Contemporary Society Zehavit Gross, Suzanne D. Rutland, 2021-02-22 This book explores the advantages of and challenges concerning Special Religious Education SRE in multicultural Australia and argues for the need for General Religious Education GRE as well Through the lens of the most recent scholarship and drawing on an in depth qualitative study and specific case studies the book examines the current debate on the role of religious education within government schools It addresses key concepts of values education spirituality health and wellbeing and cultural and religious identity It analyses why it is important to retain SRE together with GRE as government policy It explores highly relevant controversial and contested issues regarding SRE including the 30% of Australia's population who declare themselves as having no religion and brings fresh insights to the table While secularization has increased in both the national and international spheres there has also been an increase in fundamentalism within religious beliefs Events such as the September 11 terror attacks and the more recent mass shootings by white supremacists and eco fascists in Christchurch New Zealand and Pittsburgh and San Diego in the USA are reminders that religion is still a major actor in the twenty first century This poses new challenges for the relationship between church and state and demonstrates the need to revisit the role of religious education within government schools While the importance of GRE is generally acknowledged SRE has increasingly come under attack by some researchers and teacher and parent bodies as being inappropriate and contradictory to the values of the postmodern world On the other hand the key stakeholders from all the faith traditions in Australia wish to retain the SRE classes in government schools The book

addresses this burning issue and shows that it is relevant not only for Australia but also globally *International Handbook of Inter-religious Education* Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity
