William Arnal, Erin K. Vearncombe

Religious Inventions:

Religious Inventions Maxwell John Charlesworth, 1997-06-28 This book argues for the diversity of religions and the human element in the development of religion **Religious Inventions and Frauds** Joseph Turmel, Louis Coulange, 1936

Religious Inventions William Arnal, Erin K. Vearncombe, 2025-05-13 Religion is a modern invention a category used to describe and study certain kinds of human behaviour Yet when it comes to the ancient world and its texts including those that comprise the Jewish and Christian Bibles it can be easy to forget that they did not fall from the sky as simple expressions of dogma Rather the ancient writings of early Judaism and Christianity are firmly rooted in the world and are the product of an astonishing array of human experience and agency acts of self fashioning of imaginative speculation of mourning and memorializing of forming dissolving or refashioning group identities and more Religious Inventions asks how modern conceptions of religion can shed light on the relics textual and otherwise of ancient Mediterranean Jews and Christians What insights from the contemporary study of religious behaviours and practices challenge what we think we know about the ancient world Conversely how can thinking about the ancient world challenge what we think we know about religion today This volume responds to these questions through explorations of the material and social circumstances behind the production of written artifacts It examines how religious practices relate to conceptions of identity and critiques the utility of the comparative method for approaching ancient writings Textual authority is used and abused by many of today's public figures Religious Inventions offers an alternative approach to understanding how authority is constructed from the ground up by the creative actions and choices of real people who lived long ago **Religious Inventions and Frauds** Louis Coulange, 1936

Religious Outsiders and the Making of Americans R. Laurence Moore, 1987-12-03 In light of the curious compulsion to stress Protestant dominance in America's past this book takes an unorthodox look at religious history in America Rather than focusing on the usual mainstream Protestant churches Episcopal Congregationalist Methodist Baptist and Lutheran Moore instead turns his attention to the equally important outsiders in the American religious experience and tests the realities of American religious pluralism against their history in America Through separate but interrelated chapters on seven influential groups of outsiders the Mormons Catholics Jews Christian Scientists Millennialists 20th century Protestant Fundamentalists and the African American churches Moore shows that what was going on in mainstream churches may not have been the normal religious experience at all and that many of these outside groups embodied values that were in fact quintessentially American Religious Experience Axioms Ivan A. Ilyin, Every religious belief and practice is based on a special religious experience This experience requires reverent attention and a careful creative attitude from a person the believer must take care of his faith his spiritual purity and the conformity of his experience with God A religious person needs to spiritualize purify strengthen grow deepen and form his spiritual experience otherwise the force of natural needs the pressure of everyday circumstances calculations interests and compromises personal blindness and the power of ever eroding time will

weaken distort and degenerate this precious experience and imperceptibly from generation to generation they will lead him to weakness and decay This is exactly what is happening to modern humanity it still has religious organizations dogmas teachings and rituals but its religious experience is losing its life authenticity and sincerity the power of its fire and light and this weakness deprives him of ideological and vital creative strength and makes him confused in the fight against the rebel and militant atheism

Smither, 2020-02-27 Twenty first century Christians in the West crave comfort affluence freedom from pain and even power However the story of global Christianity from Christ the early church right up to the present day has been shaped by suffering and even martyrdom In this short book Edward Smither explores martyrdom both biblically and historically He defends three claims in martyrdom we verbally bear witness to Christ we raise a prophetic voice and we worship Christians today argues Smither especially those in the West should welcome suffering and martyrdom as a normal part of the Christian life

History of the Christian Church: A.D. 1-600 Wilhelm Moeller, 1912

The Politics of Religion and the Religion of Politics Ira Sharkansky, 2000-01-01 Prominent political theorist Ira Sharkansky looks at the intersection of religion and politics using the case of Israel where a chief rabbi officiates along with a prime minister to examine how the two inform each other Focusing more on similarities than differences Sharkansky demonstrates that both religion and politics can justify their position on the moral high ground Both are involved in shaping our values and standard of living however neither religion nor politics can claim a monopoly of virtue Political demagogues have their religious equivalents in self serving prophets and false messiahs and politicians and religious leaders both may violate the morality that they preach Sharkansky examines the place of intellectual certainty doubt charisma and passion in both realms He argues that Israel among other Western democracies where politics and religion intersect supports a successful fusion of the two
