State-Religion Relationships and Human Rights Law Jeroen Temperman, 2010-05-17 This book examines the question of how the mode of state religion identification affects the state's scope for compliance with human rights law It presents a human rights based assessment of the various modes of state religion identification and of the various forms of state practice that surround and characterize these different state religion models A close assessment of norms of human rights law substantiates that although human rights law on the face of it is seemingly neutral to the issue of state religion identification legal principles can be extrapolated that have a profound bearing on the question of legitimacy of the possible diverse relationships that may exist between the state and religion A range of thematic case studies on among other issues Establishment of Religion the Equal Religious Rights of Others Religion Freedom of Expression Religion Political Rights Religion Educational Rights Religion Freedom of Association and Religion Equal Employment Opportunities demonstrates that existing regimes of positive state identification with religion are not devoid of forms of institutionalised discrimination and de facto practices of discrimination on grounds of religion or belief or lack thereof At the same time it is observed by the author that in some secular or separationist states the ideals of state secularism and separationism have come to be considered ends in themselves This has given rise to situations where the principles of secularism and separationism are construed so as to impose illegitimate limits on the activities of religions or illegitimate limits on the individual manifestation of certain beliefs This book makes a case for the recognition of a state duty to remain impartial with respect to religion or belief in all regards so as to comply with people's fundamental right to be governed at all times in a religiously neutral manner

Faith-based Schools and the State Harry Judge, 2002-01-01 The questions raised by government support for faith based schools are now proving to be increasingly relevant and contentious In one form or another they have a long history and are embedded in classical disagreements about the proper relationship between State and Church or between secular power and religious freedom They have been given a sharper edge by recent

events and by the emphasis laid by some governments on the importance of increasing public support for schools attached to different denominations and religions Is it appropriate in a pluralist society to support some forms of religious expression and not others What are the basic reasons for mingling or indeed refusing to mingle political and religious issues What are the larger social effects of encouraging separate schooling for distinct sectors of society These are among the questions raised and illuminated by this case study historical and comparative in character of the developing relationship between the State and the Catholic communities in three very different societies

Rossella Bottoni, Rinaldo Cristofori, Silvio Ferrari, 2016-07-07 This book is devoted to the study of the interplay between religious rules and State law It explores how State recognition of religious rules can affect the degree of legal diversity that is available to citizens and why such recognition sometime results in more individual and collective freedom and sometime in a threat to equality of citizens before the law The first part of the book contains a few contributions that place this discussion within the wider debate on legal pluralism While State law and religious rules are two normative systems among many others the specific characteristics of the latter are at the heart of tensions that emerge with increasing frequency in many countries The second part is devoted to the analysis of about twenty national cases that provide an overview of the different tools and strategies that are employed to manage the relationship between State law and religious rules all over the world

Human Rights and the Separation of State and Religion

Francis-Vincent Anthony, Hans-Georg Ziebertz, 2023-08-05 This text highlights key aspects of the religion church state

relationship debate and related hitherto marginal topics The contributions make clear that there is no clear blueprint for an optimal relationship between religion church and state Individual states and countries are analysed on the granular level for example to address mono religious against poly religious as well as secular societies Among others chapters address education migration and politics against religion as well as the effect of LGBTQ communities on religion and societies This collected volume appeals to researchers and students working in religious studies and political science

Religion, Education and the State Mark Strasser, 2016-04-08 In the context of education Church and State issues are of growing importance and appear to be increasingly divisive This volume critically examines the developing jurisprudence relating to religion in the schools beginning with *Everson v Board of Education* where the US Supreme Court discussed the wall of separation between Church and State The study traces both how the Court's views have evolved during this period and how through recharacterizations of past opinions and the facts underlying them the Court has appeared to interpret Establishment Clause guarantees in light of the past jurisprudence when in reality that jurisprudence has been turned on its head The Court not only offers an unstable jurisprudence that is more likely to promote than avoid the problems that the Establishment Clause was designed to prevent but approaches Establishment Clause issues in a way that decreases the likelihood that an acceptable compromise on these important issues can be reached The study focuses on the situation in the US but the important issue of religion education and the state has great relevance in many jurisdictions

Decentering Discussions on Religion and State Sargon George Donabed, Autumn Quezada-Grant, 2015-04-09 This volume explores dynamic conversations through history between individuals and communities over questions about religion and state Divided into two sections our authors begin with considerations on the separation of religion and state as well as Roger Williams' concept of religious freedom Authors in the first half consider nuanced debates centered on emerging narratives with particular emphasis on Native America Early Americans and experiences in American immigration after Independence The first half of the volume examines voices in American History as they publicly engage with notions of secular ideology Discussions then shift as the volume broadens to world perspectives on religion state relations Authors consider critical questions of nation religious identity and transnational narratives The intent of this volume is to privilege new narratives about religion state relations Decentering discussions away from national narratives allows for emerging voices at the individual and community levels This volume offers readers new openings through which to understand critical but overlooked interactions between individuals and groups of people with the state over questions about religion

Religious Freedom in the Liberal State Rex Ahdar, Ian Leigh, 2013-03-21 Rex Ahdar and Ian Leigh present a critique of how religious freedom should be understood in liberal legal systems based on historical and contemporary controversies

State and Religion Renae Barker, 2018-09-03 With its increasingly secular and religiously diverse population Australia faces many challenges in determining how the state and religion should interact Australia is not unique in facing these challenges States

worldwide including common law countries with shared legal and religious heritages have also been faced with the question of how the state and religion should relate to one another. Countries such as the United Kingdom, Canada, New Zealand and the United States have all had to grapple with how to manage the state religion relationship in the present day. This book provides a comprehensive historical review of the interaction of the state and religion in Australia. It brings together multiple examples of areas in which the state and religion interact and reviews these examples across Australia's history from settlement through to present day. The book sets this story within a wider theoretical context via an examination of theories of state religion relationships as well as a comparison with other similar common law jurisdictions. The book demonstrates how the solutions arrived at in Australia is uniquely Australian owing to Australia's unique legal system, religious demographics and history. However, this is just one possible outcome among many that have been tried in common law liberal democracies.

Christian Attitudes towards the State of Israel Paul Charles Merkley, 2001-06-14

Paul Merkley draws on the published literature of the World Council of Churches, the Middle East Council of Churches, the Roman Catholic Church and other Christian organizations that have an interest in the question of Israel's past, present and future and on interviews with numerous key figures within the government of Israel, spokesmen for the Palestine Authority and leaders of all the major pro and anti Zionist Christian organizations to demonstrate that Christian attitudes towards Israel remain remarkably polarized. To most evangelical and fundamentalist Christians, loyalty to Israel is a kind of second patriotism nurtured by the conviction that Israel's restoration is a part of God's plan for history. However, mainstream Protestantism champions Palestinian nationalism and drawing on the rhetoric of the Middle East Council of Churches does not hesitate to portray Israel as an oppressor. Merkley concludes that Christian attitudes towards Israel reflect fundamental theological attitudes that must be studied against the long historical background of Christian attitudes towards Judaism and Islam.

State and Religion in the Arab World Khair El-Din Haseeb, 2017-12-22

This collection focuses on the controversial relationship between religion and the state within the Arab Spring context and the evolving debates on democratic transition. In this book, democracy is not questionable; it is hailed by all those vocal on the political scene. The

array of opinions presented here varies from a call for a secular state based on Islamic philosophy to a call for setting democratic institutions before working on solving this religion state dichotomy Meanwhile some prefer to have an ambiguous stand on which side to back up the liberals or the Islamists despite a detailed criticism of the ossified ways of those calling for a religious state Al Majd The book starts with an analysis and a detailed account of how the sensitive issue of the relationship between state and religion developed in Arab thought and society and it goes on to employ less the religious discourse in presenting their positions thus focusing on actual cases of this struggle for power in different Arab countries such as Tunisia and Egypt The collection also provides insights and analysis of the ongoing debates and views on the role of religion in Libya and provides an analysis of the case of Morocco In addition to this there is a special chapter that deals with how Muslim communities living in the West adapt to secular state politics The collection ends with a thorough discussion by a number of Arab intellectuals and activists Muslims and Christians alike whereby core issues related to the debate on state and religion are presented This discussion in addition to reflecting the Islamist secular dichotomy demonstrates the richness of the ongoing debates that extend well beyond the discourse on this dichotomy This book is a compilation of articles published in Contemporary Arab Affairs Congressional Record United States. Congress,1961 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 *The Palgrave Handbook of Religion and State Volume I* Shannon Holzer,2023-10-11 The Palgrave Handbook of Religion and State Volume I Theoretical Perspective deals with the relationship between Religion and its long history that has played out throughout time and across the globe Countries in Africa the Middle East and Europe approach the subject of religion and the state in various ways While the word religion to westerners usually brings Christianity to mind in Japan it is Shintoism and Buddhism Volume II offers chapters on the relationship of both Shintoism and Buddhism to the Japanese state It is very easy to see how the deeply traditional Japanese citizens may come into conflict with the strictly secular Japanese state It also contains chapters about mosque and state as well as synagogue and state

The American Model of State and School Charles L. Glenn,2012-04-26 State and Schools argues that the American educational model represents a third way of organizing the provision of schooling and that this accounts for some of its strengths as well as some of its weaknesses Charles L Glenn looks closely at the tradition of democratic localism in the management of schooling and the powerful and anti democratic effect of the emerging education profession which has in some respects the characteristics of a religious movement more than of a true profession A sweeping chronological survey State and Schools includes chapters on the colonial background schooling in the New Republic the creation of an education profession and the progressive education movement among others Glenn s primary purpose in this authoritative and

thoroughly researched book is to illustrate the deep roots of ways of thinking about schools that have made it difficult for policy makers and the public to do what needs to be done to enable schools to function as they should for our society and for future generations State School Administration Ellwood P.
