Ethnic Minorities, Political Competition, and Democracy Jan Rovny, 2024-09-24 Ethnic minorities make contemporary Europe increasingly diverse The wisdom in research on ethnicity is that it is a trouble maker disrupting programmatic politics prioritizing group identity over ideology polity over policy principle over compromise In this book Jan Rovny approaches ethnic politics as normal politics and investigates the ideological potential of ethnicity He shows that ethnic minorities often search for group preservation by championing liberal rights that would protect them from the tyranny of the majority This translates into broader ideological preferences and political behavior including the formation of liberal political poles which in turn configures political cleavages shapes party systems and informs the absorption of new political issues Ultimately the presence of ethnic minorities can be a force for liberal democracy Simultaneously ethnic liberalism is circumstantial as conditional factors cross pressure ethnic minority search for rights and liberties potentially attenuating ethnic liberalism and inducing exclusionary particularism This book combines the study of ethnic politics with research on electoral behavior and party competition while comparing minorities and majorities in eastern Europe The book analyzes existing and new data using mixed experimental quantitative and qualitative methods The empirical chapters in the book are organized into two parts one focusing on large N comparative analyses while the other presents three in depth case studies on interwar Czechoslovakia contemporary Slovakia and contemporary Estonia Transformations in Governance is a major academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism and environmental and urban studies concerned with the dispersion of authority from central states to supranational institutions subnational governments and public private networks It brings together work that advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

Political Resource Miriam Schader, 2017-01-02 Miriam Schader shows that migrants can use religion as a resource for political involvement in their new country of residence but under certain circumstances only The author analyses the role religious networks and symbols play for the politicization and participation of Muslim and Christian migrants from sub-Saharan Africa in Berlin and Paris Against the widely held belief that Islam is a political religion in itself this study demonstrates that Christian migrants draw on their religion for political action more easily than their Muslim counterparts It also highlights that it is not religion in general which helps migrants get politically active but particular forms of religious organisations and particular theological elements The Political Representation of Immigrants and Minorities Karen

Sharot,1991-02-21 This book is the first major sociological analysis of the characteristics and interrelationships of ethnicity religion and socio economic class in Israeli society Although much has been written about the various distinctions between Sephardi and Ashkenazi Jews this volume argues for a more sophisticated approach than the rather crude divisions that have formed the basis of most works on the subject The authors include categories largely overlooked in sociological studies on Israel such as middle class Israelis from Asia and Africa and working class Israelis from Europe The data acquired from this rich ethnic mix leads to the analysis of a wide range of theoretical issues that casts fresh light on social cleavages within Israel in particular and society in general Minorities in European Cities S.
