The Coming Crisis Victor A. Utgoff, 2000 How will continued proliferation of nuclear weapons change the global political order This collection of essays comes to conclusions at odds with the conventional wisdom Stephen Rosen and Barry Posen explore how nuclear proliferation may affect US incentives to confront regional aggression Stephen Walt argues that regional allies will likely prove willing to stand with a strong and ready United States against nuclear backed aggression George Quester and Brad Roberts examine long term strategic objectives in responding to nuclear attack by a regional aggressor Richard Betts highlights the potential for disastrous mistakes in moving toward and living in a world heavily populated with nuclear armed states Scott Sagan explains how the nuclear nonproliferation policies best suited to some states can spur proliferation by others Caroline Ziemke shows how the analysis of a state s strategic personality can provide insights into why it might want nuclear weapons and how its policies may develop once it gets them And Victor Utgoff concludes that the United States seems more likely to intervene against regional aggression when the aggressor has nuclear A William V. Turner, 2016-12-30 For nearly one hundred and forty years The Statesman's Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in the book s history brought enhancements to the 1998 99 edition and these have been continued since then The 2003 edition is fully updated and contains more information than ever before including for the first time websites for national governments and international organizations A foldout colour section provides a political world map and flags for the one hundred and ninety two countries of the world In an endlessly changing world the annual publication of The Statesman's Yearbook gives all the information you need in one easily digestible single volume It will save hours of research and cross referencing between different sources and it is an essential annual purchase Europe Today Ronald Tiersky, Erik Jones, 2007 This book offers a set of both country case studies and analysis of the European Union The contributors an authoritative group of Americans and Europeans explore the new Europe West and East using intertwining themes of domestic politics European integration and European security Each chapter provides a foundation of basic political information and explanation enhanced by distinctive and informed perspectives on current issues Now in its third edition it presents an up to date and thoughtful treatment on the war in Iraq debates over NATO s evolving role U S European relations enlargement issues and the challenges of terrorism in a European context All chapters have been thoroughly revised and completely new chapters have been added on France Great Britain Russia Central and Eastern Europe EU law and terrorism With its strong international emphasis and focus on Europe before and after Iraq this book leads readers toward a coherent view of intra European conflicts Europe and the United States and Europe s international responsibilities Toward a European Army Trevor C. Spanos, 2000 A study of imperialism that stretches from ancient Rome to the post Cold War World this provocative work boldly revises our assumptions about the genealogy of the

West Rather than locating its source in classical Greece William V Spanos argues we should look to ancient Rome which first articulated the ideas that would become fundamental to the West's imperial project. These founding ideas he claims have informed the American national identity and its foreign policy from its origins The Vietnam War is at the center of this book In the contradiction between the free world logic employed to justify U S intervention in Vietnam and the genocidal practices used to realize that logic Spanos finds the culmination of an imperialistic discourse reaching back to the colonizing rationale of the Roman Empire Spanos identifies the language of expansion in the white metaphors in Western philosophical discourse since the colonization of Greek thought by the Romans He shows how these metaphors and their role in metaphysical discourse have long been complicit in the violence of imperialism Sub-Saharan Africa & U.S. National Interests Anthony D. Marley, 1998-06 Four articles include U S national interests in Sub Saharan Africa a military model for conflict resolution in Sub Saharan Africa phantom warriors disease as a threat to U S national security and military downsizing in the developing world process problems and possibilities Also includes a 24 page report U S Security Strategy for Sub Saharan A Pentecostal Political Theology for American Renewal Steven M. Studebaker, 2016-10-26 This book Africa 1995 argues that Christians have a stake in the sustainability and success of core cultural values of the West in general and America in particular Steven M Studebaker considers Western and American decline from a theological and specifically Pentecostal perspective The volume proposes and develops a Pentecostal political theology that can be used to address and reframe Christian political identity in the United States Studebaker asserts that American Christians are currently not properly engaged in preventing America's decline or halting the shifts in its core values. The problem he suggests is that American Christianity not only gives little thought to the state of the nation beyond a handful of moral issues like abortion but its popular political theologies lead Christians to think of themselves more as aliens than as citizens This book posits that the proposed Pentecostal political theology would help American Christians view themselves as citizens and better recognize their stake in the renewal of their nation. The foundation of this proposed political theology is a pneumatological narrative of renewal a biblical narrative of the Spirit that begins with creation proceeds through Incarnation and Pentecost and culminates in the new creation and everlasting kingdom of God This narrative provides the foundation for a political theology that speaks to the issues of Christian political identity and encourages Christian political participation In Our Own Best Interest William F. Schulz, 2001 From the director of Amnesty International comes a provocative new argument for defending human rights When people begin to question why events half a world away affect them Schulz responds with stories of the connection between American's prosperity and rights violations on the other side of the globe The Statesman's Yearbook 2002 B. Turner, 2016-12-29 For the last 138 years The Statesman's Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in 138 years brought enhancements to the 1998 99 edition and these have been continued

since then Internet usage figures are included Specially commissioned essays from major political and academic figures supplement country entries in areas of major upheaval and change A fold out colour section provides a political world map and flags for the 191 countries of the world The task of monitoring the pattern or flow of world change is never ending However the annual publication of The Statesman's Yearbook gives all the information needed in one easily digestible single volume It will save hours of research and cross referencing between different sources A prestigious and popular book The Statesman's Yearbook is updated every 12 months In a world of continual change The Statesman's Yearbook is a necessary Middle East and Europe B. A. Roberson, 2005-06-23 Leading commentators on Europe and the Middle East explore many of the key issues which have informed the relationship between the two regions Ranging from Europe s colonial legacies to an uncertain economic future in the region the book covers the Cold War and after the profound influence of the US the rise of political Islam case studies including Europe and the Iranian revolution France's experiences in Algeria and Turkey's position between the two regions The EU it is argued has more influence over economic strategies than security issues in the Middle East These strategies have in turn promoted stability in the form of free trade zones ensuring vital economic development between the Middle East and Europe You, The People: The United Nations, Transitional Administration, and State-Building Simon Chesterman, 2005-07-07 The governance of post conflict territories embodies a central contradiction how does one help a population prepare for democratic governance and the rule of law by imposing a form of benevolent autocracy Transitional administrations represent the most complex operations attempted by the United Nations The operations in East Timor and Kosovo are commonly seen as unique in the history of the UN perhaps never to be repeated But they may also be seen as the latest in a series of operations that have involved the United Nations in state building activities where it has attempted to develop the institutions of government by assuming some or all of those sovereign powers on a temporary basis The circumstances that have demanded such interventions certainly will be repeated Seen in the context of earlier UN operations such as those in Namibia Cambodia and Eastern Slavonia the view that these exceptional circumstances may not recur is somewhat disingenuous Moreover the need for such policy research has been brought into sharp focus by the weighty but ambiguous role assigned to the UN in Afghanistan and the possibility of a comparable role in Iraq This book fills that gap Aimed at policy makers diplomats and a wide academic audience including international relations political science international law and war studies the book provides a concise history of UN state building operations and a treatment of the five key issues confronting such an operation on the ground peace and security the role of the UN as government judicial reconstruction economic reconstruction and exit strategies **US Foreign Policy** Michael Cox, Doug Stokes, 2018 Critical and connected brings together diverse political perspectives from the world's leading experts giving students the tools to critically evaluate America's ever changing role in international politics and to connect theory to real events Foreign Policy Ernest Petri?, 2013-01-11 Foreign Policy From Conception to Diplomatic Practice
