Bennett, 2017-07-05 In the American mind state subsidization of writers and artists was long associated with monarchies and in later years socialist states The support these regimes gave to intellectuals was understood to come with a cost yet beginning with the New Deal s Federal Writers Art and Theater Projects a new policy consensus asserted that by offering financial support to the arts the federal government was affirming their importance to the nation Subsidizing Culture examines the development of and controversies surrounding federal programs that directly benefit writers artists and intellectuals James T Bennett examines four cases of such support the New Deal s Federal Writers Art and Theater Projects the vigorous promotion in the post World War II and early Cold War eras of abstract expressionism and other forms of modern art by the US government the National Endowment for the Arts NEA which has fortified its position as the preeminent arts bureaucracy and the National Endowment for the Humanities the NEA s less embattled twin which funnels monies to scholars Bennett concentrates on the creation of and the debate over these government programs and he gives special attention to the critics who are usually ignored He reminds us that the chorus of anti subsidy voices over the years has included such disparate figures as writers William Faulkner and John Updike artists John Sloan and Wheeler Williams and social critics Jacques Barzun and H L Mencken The Gift of Immortality Stephen Murphy, 1997 This book considers the boast of literary power to glorify or immortalize a topos of enormous popularity Focusing on representative figures of Renaissance humanism and the roots of the topos in antiquity author Stephen Murphy elaborates a complex myth of poetic power This myth constructed with the help of such theorists as Ernst Cassirer Giambattista Vico Marcel Mauss and Theodor Adorno includes the elements of nostalgia for a primordial epoch of magical effectiveness and social centrality the ideal of patronage as gift exchange and the absorption of these extra literary circumstances into literary convention Forbes Watson Lenore Clark, 2001 This is a biography of Forbes Watson art commentator for the New York Evening Post and New York World but probably best known as the editor of The Arts an influential art magazine of the 1920s **Revolts and the Military in the Arab Spring** Sean Burns, 2018-01-30 Through detailed exploration of events in Tunisia Egypt Bahrain Libya Syria and Yemen Sean Burns here breaks down the concept of professionalism within the armed forces into its component parts and demonstrates how variation in military structures determines their behaviour In so doing and by emphasising historical context and drawing on a wide range of political science theory Burns sheds fresh light onto the ways in which military structure affects the potential for democratic transition or the course of civil war With this book he presented a wide ranging study of the Middle East which provides key tools to understanding the opportunities for democratisation both

Soviet-third World Relations Carol R Saivetz, Sylvia Babus Woodby, 2019-07-11 Soviet Third World Relations presents an overview of Soviet policy toward the less developed countries and considers the determinants of that policy and its reflection in action. The authors first examine the theoretical underpinnings of Soviet Third World policy, including Leninism and Soviet developmental models, and explore the tensions between prescribed progressive development strategies and the realities of Third World political processes. Next, the authors present a detailed look at the record of Soviet activities in the Third World. This is a chronological and regional account which describes Soviet policy in the Middle East, Africa, Latin America, and Asia. This part also provides a discussion of the openings, such as local conflicts, liberationist movements, and socialist causes, and the obstacles, nationalism, anti-imperialism, the volatility of Third World politics, to Soviet policy in the Third World. It closes with an analysis of Soviet foreign policy tools and asks whether chosen policy instruments achieve their desired objectives. In the final section of the book, the authors look at the decision-making context for Soviet Third World relations, including an analysis of Soviet objectives, decision-making variables, and the participants in the decision-making process. They conclude by assessing trends in Soviet Third World relations, the successes and failures of Soviet activities in the nonindustrial world, and analyzing the current situation. Here they address as well the lessons learned from the past and the prospects for the post-Brezhnev, post-Andropov era.

Restaurant Republic Kelly Erby, 2016-09-01 Before the 1820s, the vast majority of Americans ate only at home. As the nation began to urbanize and industrialize, home and work became increasingly divided, resulting in new forms of commercial dining. In this fascinating book, Kelly Erby explores the evolution of such eating alternatives in Boston during the nineteenth century. Why Boston? Its more modest assortment of restaurants, its less impressive but still significant expansion in commerce and population, and its growing diversity made it more typical of the nation's other urban centers than New York. Restaurants clearly segmented along class, gender, race, ethnic, and other lines, helped Bostonians become more comfortable with deepening social stratification in their city, and young republic even as the experience of eating out contributed to an emerging public consumer culture. Restaurant Republic sheds light on how commercial dining both reflected and helped shape growing fragmentation along lines of race, class, and gender, from the elite Tremont House, which served fashionable French cuisine, to such plebeian and ethnic venues as oyster saloons and Chinese chop suey houses. The epilogue takes us to the opening in 1929, near Boston, of the nation's first Howard Johnson's, and that restaurant's establishment as a franchise in the next decade. The result is a compelling story that continues to shape America.

Patrons of Women Esther Hertzog, 2011-05-01 Assuming that women's empowerment would accelerate the pace of social change in rural Nepal, the World Bank urged the Nepali government to undertake a Gender Activities Project within an ongoing long-term water

engineering scheme The author an anthropologist specializing in bureaucratic organizations and gender studies was hired to monitor the project Analyzing her own experience as a practicing development expert she demonstrates that the professed goal of women s empowerment is a pretext for promoting economic organizational goals and the interests of local elites She shows how a project intended to benefit women through teaching them literary and agricultural skills fails to provide them with any of the promised resources Going beyond the conventional analysis that positions aid givers vis vis powerless victimized recipients she draws attention to the complexity of the process and the active role played by the Nepalese rural women who pursue their own interests and aspirations within this unequal world The book makes an important contribution to the growing critique of development projects and of women s development projects in particular

Patrons and Adversaries Caroline Castiglione, 2005 Four generations of the aristocratic Barberini family and its vassals clashed over how the early modern Roman countryside should be governed Villagers sometimes cultivated noble interference but they frequently resisted it through the strategies of adversarial literacy political ways of reading and writing that challenged noble hegemony in the village
