Remaking Society Pathways To A Green Future:

Remaking Society Murray Bookchin, 1990 Discusses the global ecological crisis arguing that a humane solution to this crisis would require replacing industrial capitalism with an ecological society based on nonhierarchical relationships decentralized democratic communities and eco technologies like solar power organic agriculture and humanly scaled industries Back cover *Remaking Society* Murray Bookchin, 1989 To anyone new to his work here is a clear synthesis of Bookchin's ideas an intellectual tour de force the first synthesis of the spirit logics and goals of the European Green Movement available in English Choice Defending the Earth Murray Bookchin, Dave Foreman, 1991 *Defending the Earth* brings together two of the main protagonists in the heated deep vs social ecology debate eco philosopher Murray Bookchin and Earth First founder Dave Foreman Bookchin and Foreman seek common ground and cooperatively explore their differing though often overlapping perspectives on a wide variety of issues Future Survey Annual 1991 Michael Marien, 1991-01-01

Community Gardening as Social Action Claire Nettle, 2016-05-23 There has been a resurgence of community gardening over the past decade with a wide range of actors seeking to get involved from health agencies aiming to increase fruit and vegetable consumption to radical social movements searching for symbols of non capitalist ways of relating and occupying space Community gardens have become a focal point for local activism in which people are working to contribute to food security question the erosion of public space conserve and improve urban environments develop technologies of sustainable food production foster community engagement and create neighbourhood solidarity Drawing on in depth case studies and social movement theory Claire Nettle provides a new empirical and theoretical understanding of community gardening as a site of collective social action This provides not only a more nuanced and complete understanding of community gardening but also highlights its potential challenges to notions of activism community democracy and culture

Critical Environmental Politics Carl Death, 2013-12-04 The aim of this book is to review central concepts in the study of environmental politics and to open up new questions problems and research agendas in the field The volume does so by drawing on a wide range of approaches from critical theory to poststructuralism and spanning disciplines including international relations geography sociology history philosophy anthropology and political science The 28 chapters cover a range of global and local studies illustrations and cases These range from the Cochabamba conference in Bolivia to climate camps in the UK UN summits in Rio de Janeiro and Johannesburg to climate migrants from Pacific islands forests in Indonesia to Dutch energy governance reform indigenous communities in Namibia to oil extraction in the Niger Delta survivalist militias in the USA to Maasai tribesmen in Kenya Rather than following a regional or issue based e.g. water forests pollution etc structure the volume is organised in terms of key concepts in the field including those which have been central to the social sciences for a long time such as citizenship commodification consumption feminism justice movements science security the state summits and technology those which have been at the heart of environmental politics for many years

including biodiversity climate change conservation eco centrism limits localism resources sacrifice and sustainability and many which have been introduced to these literatures and debates more recently biopolitics governance governmentality hybridity posthumanism risk and vulnerability Features and benefits of the book Explains the most important concepts and theories in environmental politics Reviews the core ideas behind crucial debates in environmental politics Highlights the key thinkers both classic and contemporary for studying environmental politics Provides original perspectives on the critical potential of the concepts for future research agendas as well as for the practice of environmental politics Each chapter is written by leading international authors in their field This exciting new volume will be essential textbook reading for all students of environmental politics as well as provocatively presenting the field in a different light for more established researchers

Recovering Bookchin Andy Price, 2023-04-04 *Recovering Bookchin* holds social ecologist Murray Bookchin's ideas and legacy alive Starting in the early 1960s Murray Bookchin 1921 2006 shaped a political and ethical response to the emerging ecological crisis which he called social ecology As Bookchin continued to publish and inspire the green movements of the 1980s and 1990s he found himself embroiled in debates that increasingly had less to do with his ideas and became a pastime for detractors who devised a crude caricature of him as a hopeless sectarian In *Recovering Bookchin* Andy Price dives into these debates and walks readers through the coherent and consistent program of social ecology laid out by Bookchin This engaging intellectual biography will inspire readers in our age of government and corporate inaction as new feminist anticapitalist and people centered ecological movements are built

The Ecological Community Roger S. Gottlieb, 2014-01-02 *The Ecological Community* offers important and previously unexplored responses to the environmental crisis The premise of this volume writes editor Roger Gottlieb is that the environmental crisis challenges the presuppositions of and creates a rich field of creative work in philosophy politics and moral theory These eighteen essays are fresh and compelling interrogations of the existing wisdom in a host of areas including liberalism communicative ethics rights theory and environmental philosophy itself Contributors Avner de Shalit Gus diZerega Roger S Gottlieb Eric Katz Robert Kirkman Andrew Light Brian Luke David Macauley Mark A Michael Carl Mitcham John O Neill Holmes Rolston III David Schlosberg William Throop Steven Vogel Mark I Wallace Peter S Wenz Michael E Zimmerman

Environmental Management Peter R. Mulvihill, S. Harris Ali, 2016-11-25 The field of Environmental Management EM involves a broad and evolving repertoire of practices The field originated around 1970 in

response to new policy regulation and public concern about environmental issues EM has undergone many changes and improvements since then progressing from a reactive compliance based focus toward in leading cases practices reflecting strong commitment to sustainability And yet EM remains for the most part ill equipped to deal with the complex and highly uncertain implications of the ecological crisis Environmental Management offers a rigorous critique of conventional EM and explores alternative ideas frameworks and approaches that are currently considered fringe but which have the potential to transform the practice of EM This book goes beyond narrow definitions and considers questions regarding the purpose roles scope and potential of environmental management EM is situated and contextualized within the evolving and expanding realm of environment and sustainability literature The book argues that new approaches to EM need to be more flexible imaginative and better equipped to address future environmental problems of a scale and severity previously unforeseen This book will be of great interest to students and scholars of environmental management environmental planning resource management and environmental assessment

Disputes Resolution in Urban Communities in Contemporary China Jieren Hu, 2020-11-06 This book explains the causes process and results of group disputes in urban communities the empirical experiences from Shanghai in China It explores the means and characteristics of as well as the differences in conflict resolution in various forms of state society relations particularly the ways of dealing with and resolving disputes concerning mass incidents involving government interests in China s current social transformation period It also analyzes how people s mediation organizations interact with the local government when managing and defusing collective disputes Combining the relevant theories and five conflict resolution measurement models created by Blake and Mouton 1964 this book explains the current interaction model and cooperation mechanism between the state and social organizations in China To do so it examines the role of the Lin Le People s Mediation Workroom in dealing with community collective disputes and the respective action strategies and constraints The book argues that the current state social relations in China are not centered on society or the state but on state led social pluralism

Cosmopolitanism and the Geographies of Freedom David Harvey, 2009-08-22 Liberty and freedom are frequently invoked to justify political action Presidents as diverse as Woodrow Wilson Franklin Delano Roosevelt John F Kennedy Ronald Reagan and George W Bush have built their policies on some version of these noble values Yet in practice idealist agendas often turn sour as they confront specific circumstances on the ground Demonstrated by incidents at Abu Ghraib and Guant namo Bay the pursuit of liberty and freedom can lead to violence and repression undermining our trust in universal theories of liberalism neoliberalism and cosmopolitanism Combining his passions for politics and geography David Harvey charts a cosmopolitan order more appropriate to an emancipatory form of global governance Political agendas tend to fail he argues because they ignore the complexities of geography Incorporating geographical knowledge into the formation of social and political policy is therefore a necessary condition for genuine democracy Harvey begins with an insightful critique of the political uses of freedom and liberty especially during the George

W Bush administration Then through an ontological investigation into geography s foundational conceptsspace place and environmenthe radically reframes geographical knowledge as a basis for social theory and political action As Harvey makes clear the cosmopolitanism that emerges is rooted in human experience rather than illusory ideals and brings us closer to achieving the liberation we seek

A Political Theology of Nature Peter Scott,2003-03-06 This book argues that the modern separation of humanity from nature can be traced to the displacement of the triune God Locating the source of our current ecological crisis in this separation Peter Scott argues that it can only be healed within theology through a revival of a Trinitarian doctrine of creation interacting with political philosophies of ecology Drawing insights from deep ecology ecofeminism and social and socialist ecologies Scott proposes a common realm of God nature and humanity Both Trinitarian and political the theology of this common realm is worked out by reference to Christ and Spirit Christ s resurrection is presented as the liberation and renewal of ecological relations in nature and society the movement of the Holy Spirit is understood as the renewal of fellowship between humanity and nature through ecological democracy and the Eucharist is proposed as the principal political resource Christianity offers for an ecological age

Politics and the Environment Michael Howes,Griffith University,Australia,2013-10-31 An evenhanded realistic and thoughtful approach to identifying environmental problems and management goals Stephen Zavestoski Assistant Professor of Sociology and Environmental Studies University of San Francisco a theoretically advanced yet accessible treatment of environmental governance drawing on an impressive range of material to investigate the roles of states and industries in addressing environmental problems Harriet Bulkeley Department of Geography University of Durham Written in the vein of critical optimism this book is pitched at the right level to inspire people trying to make pragmatic changes to their governmental and industrial systems trying to make a difference where it counts Timothy Doyle Associate Professor in Geographical and Environmental Studies University of Adelaide What is the future for our environment We face serious risks of major industrial accidents and global environmental degradation yet new technological developments promise a standard of living unimaginable only a few generations ago Michael Howes outlines the ways in which governments have responded to environmental risk over the past four decades He examines the key environmental issues and the claims of envirosceptics offering a new strategy for making major administrative decisions in the face of uncertainty He explains how governments have developed environmental policy and the ongoing tensions between science industry the state social movements and electoral politics In a clear straightforward manner he shows how to use the work of theorists Ulrich Beck Michel Foucault and John Dryzek to analyse environmental policy He also develops a new method of measuring the effectiveness of environmental governance in developed countries Howes draws on a wide array of sources from business government environment groups academic research and NGOs to illustrate his arguments with comparisons between the environmental policies of the UK the USA and Australia

Wild Law - In Practice Michelle Maloney, Peter Burdon, 2014-03-05 Wild Law In Practice aims to facilitate the transition of Earth Jurisprudence from theory into practice Earth Jurisprudence is an emerging philosophy of law coined by cultural historian and geologist Thomas Berry It seeks to analyse the contribution of law in constructing maintaining and perpetuating anthropocentrism and addresses the ways in which this orientation can be undermined and ultimately eliminated In place of anthropocentrism Earth Jurisprudence advocates an interpretation of law based on the ecocentric concept of an Earth community that includes both human and nonhuman entities Addressing topics that include a critique of the effectiveness of environmental law in protecting the environment developments in domestic constitutional law recognising the rights of nature and the regulation of sustainability Wild Law In Practice is the first book to focus specifically on the practical legal implications of Earth Jurisprudence

Sustainable Community Graham Stuart Meltzer, 2005 Based on a ten year investigation of cohousing a popular new type of housing project that directly addresses both environmental degradation and social disintegration The book argues that social and environmental sustainability are inexorably linked Publisher web site

Energies Beyond the State Jennifer Mateer, Simon Springer, Martin Locret-Collet, Maleea Acker, 2021-11-16 Resource and environmental management generally entail an attempt by governing authorities to dominate reroute and tame the natural flows of water the growth of forests manage the populations of non human bodies and control nature more generally Often this is done under the mantle of conservation economic development and sustainable management but still involves a quest to civilize and control all aspects of nature for a specific purpose The results of this form of environmental management and governance are many but by and large across the globe it has meant governments construct a specific idea regarding nature and the environment These forms of control also extend beyond the natural environment allowing for particular methods of managing human and non human populations in order to maintain power and enact sovereignty This volume contributes to advancing an ecology of freedom which can critique current anthropocentric environmental destruction as well as focusing on environmental justice and decentralized ecological governance While concentrating on these areas of anarchist political ecology three major themes emerged from the chapters the legacies of colonialism that continue to echo in current resource

management and governance practices the necessity of overcoming human nature dualisms for environmental justice and sustainability and finally discussions and critiques of extractivism as a governing and economic mentality International Relations Theory and Ecological Thought Eric Laferrière, Peter J. Stoett, 2003-09-02 Ecological crises have never been higher on the international political agenda However ecological thought and international relations theory have developed as separate disciplines This ground breaking study looks at the relationship between ecological thought and international relations theory arguing that there are shared concerns peace co operation and security The authors ask what ecological crisis can teach IR theorists as well as what ecological perspectives have been adopted by governments and international NGOs
