Remedies Of English Law:

Remedies of English Law Frederick Henry Lawson, Harvey Teff, 1980 *Remedies of English Law*, 1972 ABA Journal, 1951-05 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association Commentaries on the Laws of England William Blackstone, 1841 **Commentaries on the Laws of England** Sir William Blackstone, 1841 **Commentaries on The Laws of England** William Blackstone, 2020-09-10 Reprint of the original first published in 1869 Commentaries on the Laws of England in Four Books William Blackstone, 1859 *Contractual Obligations in Ghana and Nigeria* U. U. Uche, 2014-04-23 First Published in 1971 This study is a comparative investigation of contractual obligations in Ghana and Nigeria It has often been suggested that the law of civil responsibility in West Africa is the same as the current English law position on the subject This book sets out to examine the basis of this assumption an exercise which has never been attempted by any previous writer in West African law The study has been divided into five major parts *Studies in the Contract Laws of Asia* Mindy Chen-Wishart, Alexander Loke, Burton Ong, 2016 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions including the major centres of commerce where until now limited critical commentaries have been available in the English language In this new six part series of scholarly essays from leading scholars and commentators each volume will offer an insider's perspective into specific areas of contract law including remedies formation parties contents vitiating factors change of circumstances illegality and public policy and will explore how these diverse jurisdictions address common problems encountered in contractual disputes Concluding each volume will be a closing discussion of the convergences and divergences throughout each across the jurisdictions and comparisons with European jurisdictions from which Asians well as an overview of the common themes found throughout each jurisdiction contract law derive Volume I of this series examines the remedies for breach of contract in the laws of China India Japan Korea Taiwan Singapore Malaysia Hong Kong Korea and Thailand Specifically it addresses the readiness of each legal system in their action to insist that parties perform their obligations the methods of enforcing the parties agreed remedies for breach and the ways in which monetary compensation are awarded Each jurisdiction is discussed over two chapters the first chapter will examine the performance remedies and agreed remedies while the second explores the monetary remedies A concluding chapter offers a comparative overview *Commentaries on European Contract Laws* Nils Jansen, Reinhard Zimmermann, 2018-07-12 The book provides rule by rule commentaries on European contract law general contract law consumer contract law the law of sale and related services dealing with its modern manifestations as well as its historical and comparative foundations After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades and for an assessment of the current situation In particular the production of a bewildering number of reference texts has contributed to a complex

picture of European contract laws rather than a European contract law The present book adopts a broad perspective and an integrative approach All relevant reference texts from the CISG to the Draft Common European Sales Law are critically examined and compared with each other As far as the *acquis commun* ie the traditional private law as laid down in the national codifications is concerned the Principles of European Contract Law have been chosen as a point of departure The rules contained in that document have however been complemented with some chapters sections and individual provisions drawn from other sources primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law In addition the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background and it thus investigates whether and to what extent these texts can be taken to be genuinely European in nature ie to constitute a manifestation of a common core of European contract law Where this is not the case the question is asked whether and for what reasons they should be seen as points of departure for the further development of European contract law

Principles of European Contract Law Commission on European Contract Law, 2000-01-01 This text provides a comprehensive guide to the principles of European contract law They have been drawn up by an independent body of experts from each Member State of the EU under a project supported by the European Commission and many other organizations The principles are stated in the form of articles with a detailed commentary explaining the purpose and operation of each article and its relation to the remainder Each article also has extensive comparative notes surveying the national laws and other international provisions on the topic
