Judgment and Grace in Dixie Charles Reagan Wilson, 2007-06-01 Religion has permeated nearly every aspect of modern southern culture in the US with results that range from portraits of Jesus on black velvet to the soul stirring orations of Martin Luther King Jr This work gives an appraisal of religion s influence on such expressions of regional life as literature music and folk art

The Remembering Self Ulric Neisser, Robyn Fivush, 1994-10-28 This book brings a surprisingly wide range of intellectual disciplines to bear on the self narrative and the self The same ecological cognitive approach that successfully organized Ulric Neisser s earlier volume on *The Perceived Self* now relates ideas from the experimental developmental and clinical study of memory to insights from post modernism and literature Although auto biographical remembering is an essential way of giving meaning to our lives the memories we construct are never fully consistent and often simply wrong In the first chapter Neisser considers the so called false memory syndrome in this context other contributors discuss the effects of amnesia the development of remembering in childhood the social construction of memory and its alleged self servingness and the contrast between literary and psychological models of the self Jerome Bruner Peggy Miller Alan Baddeley Kenneth Gergen and Daniel Albright are among the contributors to this unusual synthesis

Prospective Memory Maria A. Brandimonte, Gilles O. Einstein, Mark A. McDaniel, 2014-02-25 Devoted exclusively to prospective memory this volume organizes the research and thoughts of the important contributors to the field in one comprehensive resource The chapter authors not only focus on their own work but also review other research areas and address those where the methods and theories from the retrospective memory literature are useful and where they fall short Each section is followed by at least one commentary written by a prominent scholar in the field of memory The commentators present critical analyses of the chapters note ideas that they found particularly exciting and use these ideas as a foundation on which to elaborate their own views of prospective memory This volume will stimulate the thinking of active prospective memory researchers provide a coherent organization of the area for the increasing number of people who are interested in prospective memory but who are not yet actively conducting research in the area and serve as a book of readings for upper division seminars
