George M. Leon, 2007-11-20 This is a love story based on events that occurred in my life more than fifty years ago Some of the names have been changed and some events may have been diminished or embellished while recalling things that happened when writing the story The story is based on recollections of actual experiences I had It is a story filled with discovery joy and the innocence of teenage years back in the fiftys It also shows how those years became the building blocks of a lifetime The motivation for writing this came from an extraordinary thing that happened to me in the Spring of 2006 that stirred my memory and caused me to recall with clarity what I had so long ago buried in my subconscious mind I met a person who became a good friend but more importantly she reawakened everything I had discovered in that one magical summer back in 1954 Looking back as an adult fifty years later made me realize that there is symmetry in life but many people never take the time to see it This all started for me when we returned from our Winter Condo in Boca Raton Florida in April of 2006 As per my usual morning routine I continued to awaken early and go over to Starbucks to sit and have my morning cup of Decaf Americano I'd sit there and read the Daily News or the New York Times and chat with some fascinating people I had met who'd become friends in the several years since I retired One particular April morning I came in and they had a new person in charge of the morning shift working there From the moment I saw her I could not stop looking at her There was something instantly so familiar about her but I wasn't able to see exactly what it was initially When I made the connection with what it was it hit me like a ton of bricks After we were introduced we began chatting briefly but the more we made small talk the less I actually heard what she was saying as memories of my past flooded back All of a sudden I was fifteen years old again I knew then I had to sit down and somehow get this written I also knew I would at some point have to share this amazing story with her if or when I got to know her better It was interesting recalling my early childhood and the events that brought me to that wonderful summer of discovery and falling in love for what I believed then to be the first and last time in my life That summer held some of the keys to the person I would become as I grew up and dealt with life at all ages *Fractional Integrals and Derivatives: "True" versus "False"* Yuri Luchko, 2021-03-16 This Special Issue is devoted to

some serious problems that the Fractional Calculus FC is currently confronted with and aims at providing some answers to the questions like What are the fractional integrals and derivatives What are their decisive mathematical properties What fractional operators make sense in applications and why etc In particular the new fractional derivatives and integrals and the

models with these fractional order operators are critically addressed The Special Issue contains both the surveys and the research contributions A part of the articles deals with foundations of FC that are considered from the viewpoints of the pure and applied mathematics and the system theory Another part of the Special issue addresses the applications of the FC operators and the fractional differential equations Several articles devoted to the numerical treatment of the FC operators and the fractional differential equations complete the Special Issue

I have always believed that life is made of choices Some are easy others require courage But the best choices I made were not based on what was most advantageous or easiest but on what my heart was telling me Every time I set foot on the pitch it wasn t just a game It was my life my passion my purpose In football as in life there are many temptations Bigger offers promises of glory elsewhere seductive words that make you question whether you re on the right track But my answer has always been clear true greatness is not in collecting more trophies or being the greatest in statistics It is in being authentic in knowing that each step has been taken with integrity and love That s why when I had the chance to leave I stayed Because Roma wasn t just a team for me it was my home my family my soul Football has taught me that the most important victories are not always the ones that appear on the scoreboard Sometimes the greatest victory is to look back and know that you lived with integrity and that you touched the lives of others And if I can leave you with a lesson it is this life is too short not to live in alignment with what really matters Be true to your heart and it will be your greatest trophy **Death Along the Natchez Trace** Josh Foreman and Ryan Starrett, 2022
