Remembering Hope Ann Rigney, Emeritus Professor of Comparative Literature Ann Rigney, 2025-10-24 In Remembering Hope Ann Rigney examines the role of storytelling in transferring hope in social transformation from one generation of activists to another She uses the tools of cultural memory studies to explain how shared narratives about protest are produced using words images video and performance Rigney s long term approach shows that cultural memory and activism are deeply entwined across generations and reveals how cultural memory work has been used as a form of resistance to historical outcomes and as a tool for kick starting older campaigns in new contexts Above all the book challenges the assumption that grievance rather than active citizenship has always been at the heart of collective memory

Brian Foster, 2020-10-08 How do you love and not like the same thing at the same time This was the riddle that met Mississippi writer B Brian Foster when he returned to his home state to learn about Black culture and found himself hearing about the blues One moment Black Mississippians would say they knew and appreciated

the blues The next they would say they didn t like it For five years Foster listened and asked How Why not Will it ever change This is the story of the answers to his guestions In this illuminating work Foster takes us where not many blues writers and scholars have gone into the homes memories speculative visions and lifeworlds of Black folks in contemporary Mississippi to hear what they have to say about the blues and all that has come about since their forebears first sang them In so doing Foster urges us to think differently about race place and community development and models a different way of hearing the sounds of Black life a method that he calls listening for the backbeat **The 1997 Genealogy Annual Thomas Jay** Kemp, 1999 The Genealogy Annual is a comprehensive bibliography of the year's genealogies handbooks and source materials It is divided into three main sections p liFAMILY HISTORIES licites American and international single and multifamily genealogies listed alphabetically by major surnames included in each book p liGUIDES AND HANDBOOKS liincludes reference and how to books for doing research on specific record groups or areas of the U S or the world p liGENEALOGICAL SOURCES BY STATE liconsists of entries for genealogical data organized alphabetically by state and then by city or county p The Genealogy Annual the core reference book of published local histories and genealogies makes finding the latest information easy Because the information is compiled annually it is always up to date No other book offers as many citations as The Genealogy Annual all works are included You can be assured that fees were not required to be listed Manuel Goffman Dmitri N. Shalin, 2024-12-03 Erving Goffman is the most cited American sociologist There is no shortage of studies exploring Goffman's scholarship but no extant biography of Erving Goffman The chief reason is that a man who looked behind the facades people erect to protect their private selves zealously guarded his own backstage This book is the first comprehensive biography of Goffman an intellectual of Russian Jewish descent who turned the Potemkin village trope into a powerful research program The present study shows how key turns in Goffman's career reflected dramatic events in his family and personal history It is based on the materials gathered in the Erving Goffman Archives a repository curated by the author who has been collecting documents and conducting interviews with Goffman's relatives colleagues and friends The archival work turned up documents which improve our understanding of Goffman the scholar the teacher and the man The approach adopted in this investigation sheds new light on Goffman's scholarship which has had an enormous and continuous impact across the social sciences and humanities One Faith No Longer George Yancey, Ashlee Quosigk, 2021-07-06 Irreconcilable differences drive the division between progressive and conservative Christians is there a divorce coming Much attention has been paid to political polarization in America but far less to the growing schism between progressive and conservative Christians In this groundbreaking new book George Yancey and Ashlee Quosigk offer the provocative contention that progressive and conservative Christianities have diverged so much in their core values that they ought to be thought of as two separate religions The authors draw on both quantitative data and interviews to uncover how progressive and conservative Christians determine with whom they align themselves religiously and how they distinguish

themselves from each other They find that progressive Christians emphasize political agreement relating to social justice issues as they determine who is part of their in group and focus less on theological agreement Among conservative Christians on the other hand the major concern is whether one agrees with them on core theological points Progressive and conservative Christians thus use entirely different factors in determining their social identity and moral values In a time when religion and politics have never seemed so intertwined One Faith No Longer offers a timely and compelling reframing Global Faith, Worldly Power John Corrigan, Melani McAlister, Axel R. Schäfer, 2022-09-15 of an age old conflict Assessing the grand American evangelical missionary venture to convert the world this international group of leading scholars reveals how theological imperatives have intersected with worldly imaginaries from the nineteenth century to the present Countering the stubborn notion that conservative Protestant groups have steadfastly maintained their distance from governmental and economic affairs these experts show how believers ambitious investments in missionizing and humanitarianism have connected with worldly matters of empire the Cold War foreign policy and neoliberalism They show too how evangelicals international activism redefined the content and the boundaries of the movement itself As evangelical voices from Africa Asia and Latin America became more vocal and assertive U S evangelicals took on more pluralistic multidirectional identities not only abroad but also back home Applying this international perspective to the history of American evangelicalism radically changes how we understand the development and influence of evangelicalism and of globalizing religion more broadly In addition to a critical introduction and essays by editors John Corrigan Melani McAlister and Axel R Sch fer are essays by Lydia Boyd Emily Conroy Krutz Christina Cecelia Davidson Helen Jin Kim David C Kirkpatrick Candace Lukasik Sarah Miller Davenport Dana L Robert Tom Smith Lauren F Turek and Gene Zubovich

Deleuze and Architecture Helene Frichot,2013-05-20 Critiques the legacy and ongoing influence of Deleuze on the discipline and practice of architecture This collection looks critically at how Deleuze challenges architecture as a discipline how architecture contributes to philosophy and how we can come to understand the complex politics of space of our increasingly networked world Since the 1980s Deleuze s philosophy has fuelled a generation of architectural thinking and can be seen in the design of a global range of contemporary built environments His work has also alerted architecture to crucial ecological political and social problems that the discipline needs to reconcile A Personalist Philosophy of History Bennett Gilbert,2019-01-15 Historical study has traditionally been built around the placement of the human at the center of inquiry The de stabilized concepts of the human in contemporary thought challenge this configuration However the ways in which these challenges provoke new historical perspectives both expand and enrich historical study but are also weak and vulnerable in their concept of the human lacking or omitting something valuable in our self understanding A Personalist Philosophy of History argues for a robust concept of personhood in our experience of the past as a way to resolve this conflict Focused on those who know history rather than on the abstract properties of knowledge it extends the moral agency of

persons into non human trans human and deep history domains It describes an approach to moral life through historical experience and study rather than through abstractions And it describes a kind of historiography that matches factual accuracy to both the constructed nature of understanding and to unavoidable moral purpose The Maiden of Ludmir Nathaniel Deutsch, 2003-10-06 Hannah Rochel Verbermacher a Hasidic holy woman known as the Maiden of Ludmir was born in early nineteenth century Russia and became famous as the only woman in the three hundred year history of Hasidism to function as a rebbe or charismatic leader in her own right Nathaniel Deutsch follows the traces left by the Maiden in both history and legend to fully explore her fascinating story for the first time The Maiden of Ludmir offers powerful insights into the Jewish mystical tradition into the Maiden's place within it and into the remarkable Jewish community of Ludmir Her biography ultimately becomes a provocative meditation on the complex relationships between history and memory Judaism and modernity History first finds the Maiden in the eastern European town of Ludmir venerated by her followers as a master of the Kabbalah teacher and visionary and accused by her detractors of being possessed by a dybbuk or evil spirit Deutsch traces the Maiden's steps from Ludmir to Ottoman Palestine where she eventually immigrated and re established herself as a holy woman While the Maiden's story including her adamant refusal to marry recalls the lives of holy women in other traditions it also brings to light the largely unwritten history of early modern Jewish women To this day her transgressive behavior a challenge to traditional Jewish views of gender and sexuality continues to inspire debate and sometimes censorship within the Jewish community The Weakness of God John D. Caputo, 2006-04-27 The author of What Would Jesus Deconstruct makes a bold attempt to reconfigure the terms of debate around the topic of divine omnipotence Choice Applying an ever more radical hermeneutics including Husserlian and Heideggerian phenomenology Derridian deconstruction and feminism John D Caputo breaks down the name of God in this irrepressible book Instead of looking at God as merely a name Caputo views it as an event or what the name conjures or promises in the future For Caputo the event exposes God as weak unstable and barely functional While this view of God flies in the face of most religions and philosophies it also puts up a serious challenge to fundamental tenets of theology and ontology Along the way Caputo's readings of the New Testament especially of Paul's view of the Kingdom of God help to support the weak force theory This penetrating work cuts to the core of issues and questions What is the nature of God What is the nature of being What is the relationship between God and being What is the meaning of forgiveness faith piety or transcendence that define the terrain of contemporary philosophy of religion Caputo comes out of the closet as a theologian in this work Catherine Keller Drew University Caputo has a gift for explaining Continental philosophy s jargon succinctly and accurately and despite technical and foreign terms this book will engage upper level undergraduates Includes scriptural and general indexes Highly recommended Choice **Full History** Steven G. Smith, 2016-12-15 How can we take history seriously as real and relevant Despite the hazards of politically dangerous or misleading accounts of the past we live our lives in a great network of

cooperation with other actors past present and future We study and reflect on the past as a way of exercising a responsibility for shared action In each of the chapters of Full History Smith poses a key question about history as a concern for conscious participants in the sharing of action starting with What Is Historical Meaningfulness and ending with How Can History Have an Aim Constructing new models of historical meaning while engaging critically with perspectives offered by Ranke Dilthey Rickert Heidegger Eliade Sartre Foucault and Arendt Smith develops a philosophical account of thinking about history that moves beyond postmodernist skepticism Full History seeks to expand the cast of significant actors establishing an inclusive version of the historical that recognizes large scale cumulative actions but also encourages critical revision and expansion of any paradigm of shared action \*\*Between Witness and Testimony\*\* Michael Bernard-Donals, Richard Glejzer, 2001-10-19\*\* Examines the ethical and pedagogical stakes of representing the Holocaust in books films and museum exhibits

Hinterlands and Horizons Margaret Chatterjee,2002-01-01 Margaret Chatterjee s new work Hinterlands and Horizons a collection of nine phenomenological essays ranging across cultures and time periods studies the historical and cultural evolution of the idea of amity and the concomitant concepts of fraternity friendship and tolerance The work starts with the Enlightenment s idea of fraternity and its destruction during the fratricide of the French Terror It includes chapters focusing upon the encounters between colonizers and missionaries the impact of the Holocaust on the search for amity the prospect for amity in contemporary multiculturalism and the potential of religion to deepen the experience of amity An incisive interdisciplinary analysis of the bases of discord and harmony of history and memory Hinterlands and Horizons will be an enduring contribution to the history of ideas
