**Extinction and Memorial Culture** Hannah Stark, 2023-06-23. This book considers how we encounter and make meaning from extinction in diverse settings and cultures. It brings together an international and interdisciplinary range of scholars to consider how extinction is memorialised in museums and cultural institutions through monuments in literature and art through public acts of ritual and protest and in everyday practices. In an era in which species are becoming extinct at an unprecedented rate, we must find new ways to engage critically, creatively, and courageously with species loss. *Extinction and Memorial Culture: Reckoning with Species Loss in the Anthropocene* develops the conceptual tools to think in complex ways about extinctions and their aftermath, along with providing new insights into commemorating and mourning more than human lives. This book will be of great interest to students and scholars of the environmental humanities, extinction studies, memorial culture, and the Anthropocene.

Eden's Garden Ines Johnson, 2020-08-30. I thought death was the end of my life. As it turns out, I'll battle heaven itself to get back to the living and to the man I love. When Nia Rivers sacrificed herself to keep any other immortals from dying, she assumed her long life had finally come to an end. But death is only the beginning, and for an adventurer like Nia, there is no rest, not even in the afterlife. Now Nia finds herself in the underworld's Garden of Eden, and all is not well in paradise. Angels urge the eradication of humanity for its crimes, and as those on Earth continue to commit heinous acts affecting all of creation, God seems less inclined to say no. With every passing day, Humanity's future looks bleak, but Nia and her friends are accustomed to preventing genocide. Now it's up to them to stop the Apocalypse itself. But first, they'll have to find a way to claw their way back to the surface and rejoin the world of the living. Of course, that might involve fighting an army of angels and defying God herself. No one ever said coming back from the dead would be easy, but if Nia doesn't get back to Earth soon, there won't be anything left to return to. Get this hot urban fantasy featuring spine-tingling adventure, twists on historical mysteries, and thrilling romance where Tomb Raider meets Indiana Jones, and they live forever.

Eden's Garden Richard J. Coleman, 2007. The time is ripe for a robust discussion of human nature. In *Eden's Garden: Rethinking Sin and Evil in an Era of Scientific Promise*, Richard Coleman examines the notion of sin in a contemporary world that values scientific and nonreligious modes of thought regarding human behavior. This work is not an anti-science polemic but rather an argument to show how sin and evil can make sense to the nonreligious mind and how it is

valuable to make sense of such phenomena The author reconceptualizes sin and evil as indelible pieces of our evolutionary history preventing them from being ostracized as too religious without substance mired in the past Coleman redeems theology for what it can offer to the understanding of sin and evil while embracing and respecting what science can offer to further the common good Examining themes in religion philosophy and theology it is ideal for use in the numerous courses that move across these disciplines

*Eden's Other Residents* Michael Gilmour, 2014-06-20 The Bible teems with nonhuman life from its opening pages with God's creation of animals on the same day and out of the same earth as humans to its closing apocalyptic scenes of horses riding out of the sky Animals are Adam's companions Noah's shipmates and Elijah's saviors They are at the center of ancient Israel's religious life as sacrifices and yet as Job discovers beyond human dominion It is an animal that saves Balaam from certain death by an angel's hand and an animal that carries Jesus into Jerusalem The Creator declares all of them good at the beginning and

since the Apostle Paul writes of God's eternal purposes for all things on earth they are somehow part of a hoped for eschatological restoration. So why are animals so often ignored in Christian moral discourse? In its theological thinking and faith motivated praxis, human centeredness typically results in the complete erasure of the nonhuman. This book argues that this exclusion of animals is problematic for those who see the Bible as authoritative for the religious life. Instead, biblical literature bears witness to a more inclusive understanding of moral duty and faith motivated largesse that extends also to Eden's other residents.
